—WHAT'S IN FASHION—

White Vies With Olympic Colors

Directed by AMOS PARRISH

NEW YORK, July 2.—Black, red, blue, green, yellow—important colors this summer since they've been chosen as official shades for the coming Olympics. But even more important is fashion's official color—the one that will be worn by most spectators at the Olympics or any other fashionable sporting event... white.

White dresses. White hats. White accessories. Those are the things to stock up with if you're planning to sit in the spectators' seats at the Olympics or anywhere else.

Simply, but softly, tailored dresses, such as the sleeveless dress shown at the right, will be winners in any sports audience. (This dress happens to have Olympic buttons on the shoulders and Olympic colors in the belt. But it would be just as smart without.)

Separate white skirts will be part of the audience, too, topped with white or colored sweaters that look (and often are) hand knit.

Of course, if you're extremely patriotic—even though you're not an Olympic spectator—you might go in for stars-and-stripes as Joan Crawford has in her Olympic dress shown at the left.

How to Use Colors
Unusual, all right. But most women will prefer to show their colors—official Olympic ones or any they like—in simpler ways. In striped scarfs, belts, hat bands, buttons, clips and flowers. In colored lacings in white ghillies. In ornaments on white handbags.

White straws or fabrics, generally brimmed to shade watching eyes. White shoes, too. The smart white ghillie, oxford or pump with sporty designs of perforations such as a pump illustrated. And many of these you'll see in white-and-brown or white-and-black combinations.

Handbags Are White

White handbags... another practical choice. Ornamented with Olympic colors, if you like, or with any color that goes with your other accessories.

The white handbag sketched shows one way it might be done... the contrasting color used in the center banding.

If you want to "go Olympic" one of the simplest ways to do it is to have a belt or hat band trimmed with an Olympic symbol in Olympic colors.

We have a bulletin that tells you how to make several for yourself and gives actual samples of the official Olympic shades.

Berries Are Blessing to Housewife

BY SISTER MARY

NBA Service Writer

BERRIES of some variety usually can be found in the market from early spring on through the summer months. Even strawberries and red raspberries, whose season used to be so short, appear almost all year long, now that the ever-bearing varieties are so generally cultivated.

With the northern growers shipping south and the southern growers shipping north, and the western growers shipping east, there's never a lack of small fruits.

The busy housewife who has little time to spend making fussy desserts will find these small fruits a veritable boon for summer menus. Fresh, uncooked berries served with or without sugar and cream always are popular and healthy, and require a minimum of time in preparation.

Remove the Seeds

When there are small children in the family it is well to keep in mind that very seedy berries such as blackberries and raspberries should be rubbed through a strainer to remove the seeds.

The seeds are indigestible and may do a child much harm. However, a small amount of sifted pulp may be given to children as young as 3 years of age.

Berries lend themselves to many types of made desserts, too. There are numerous berry desserts that may appeal to you when you want a hearty last course to finish out a light meal.

Those which are not too rich are suitable, when served with cream, for children over 6 years of age.

Berry whips made of egg whites and sifted pulp are excellent for children and invalids. Such a dessert is light and nourishing and when served very cold is refreshing.

Serve Warm Puddings

Steamed puddings and baked puddings of cake-like texture are good served warm and are splendid when the rest of the meal is wanted cold.

Berry pies are greeted with pleasure in most homes and seem to be especially popular with the men-folk.

Berries of all kinds are good added to a bread pudding. The pudding itself can be made in several ways. A foundation bread-custard pudding may have berries added, and the whole baked as usual. Or the fruit can be stewed with sugar and poured over thin slices of bread and butter.

This is molded and chilled and served with sugar and cream. These desserts are deliciously simple and are suitable for children.

Blueberries, which have few seeds and less acidity than most other varieties, are particularly good in puddings and pies.

Blueberry molasses puffs are a typical New England dish, economical and good. They are a good dessert for luncheon or a light dinner.

BLUEBERRY MOLASSES PUFFS

One cup blueberries, 1/2 cup boiling water, 1 cup molasses, 4 tablespoons sugar, 4 tablespoons melted shortening, 2 1/2 cups flour, 1 teaspoon soda, 1 teaspoon ginger, 1 teaspoon cinnamon, 1/2 teaspoon salt.

Look over berries, wash and drain. Sprinkle with 1 1/2 tablespoons flour and mix lightly but thoroughly. Mix boiling water and molasses with sugar and sift flour, salt, soda and spices.

Add to liquid ingredients and mix well. Add melted shortening and beat hard. Stir in prepared berries. Turn into oiled and floured individual molds and bake twenty minutes in a moderate oven.

Serve warm with sugar and cream.

Bei dumplings and berry-raspberry make good, inexpensive desserts. They are usually eaten with sugar and cream.

A rich baking powder biscuit dough is rolled in a thin sheet and spread with softened butter.
