

U. S. AGENTS' BOOZE 'BUYER' IS CONVICTED

Snooper, in Shooting After Purchasing Liquor, Is Given 180 Days.

For the next six months, at least, Robert Logsdon, 35, will not be able to make "buys" at \$2 each for federal prohibition agents.

Arraigned late Monday afternoon before Municipal Judge William H. Shearer, Logsdon was convicted on a charge of assault and battery with intent to kill, and was fined \$1 and costs and sentenced to the penal farm for 180 days.

Penalty on conviction of carrying a concealed weapon was a fine of \$100 and costs.

Charges of drunkenness and impersonating an officer were dismissed.

A shooting affray Saturday night led to the arrest of Logsdon.

Tells of Liquor Buy

On the witness stand, Logsdon said that after two attempts he made a buy of liquor Saturday night in the poolroom of Potocva Nistor, 559 West Washington street.

Leaving the place he went to No. 6 engine house, where he said George Dubla, who had been talking to firemen, approached him and upbraided him for aiding officers by buying liquor.

Nistor, who had followed Logsdon, is said to have arrived during the dispute.

"There was conflicting testimony regarding what followed."

Logsdon said Dubla grabbed the bottle of liquor he claims he bought at the poolroom and fired twice. Two shots were fired by Logsdon.

Other witnesses said Dubla grabbed a revolver from Logsdon and used it in the shooting, and that Logsdon drew another revolver and fired four or five times.

Paid \$2 a Purchase

Logsdon fled by jumping on the running board of a passing automobile.

He heard sirens of police cars going to the scene of the shooting, and told a traffic officer at Illinois and Washington streets that "I was in that shooting."

He was taken back to the scene by a motorcycle officer, following Logsdon's trial.

Two permits for carrying revolvers were shown by Logsdon, but both had expired. He said he had been aiding dry agents "off and on" for two years.

In addition to the \$2 per buy, he was paid witness fees in cases which reached courts.

COAL CONVERTED TO OIL BY SCIENTISTS

Chemists See No Danger of Supply Being Exhausted.

SEATTLE, Aug. 23.—Two University of Washington chemists, Prof. W. L. Beuschlein and Dr. C. C. Wright, do not fear a shortage of gasoline as oil when the world supply of petroleum is exhausted, for they have found that as much as 80 to 90 per cent of coal can be converted into oil and other soluble products.

In Germany, where coal is more plentiful than petroleum, gasoline already is made from the solid fuel by the hydrogenation process. Present low cost of petroleum in this country makes the application of such process here seem remote.

Prof. Beuschlein and Dr. Wright used fourteen different coals from Alabama, West Virginia, Kentucky, Illinois, Pennsylvania, Utah and Washington. The best coals gave the highest yields of oil, but even with the inferior lignites, or brown coals, about one-third of the coal was converted into soluble products.

LIVE TOGETHER, NEVER SPEAK TO EACH OTHER

Man and Wife Have Not Spoken for Six Years.

BOSTON, Aug. 23.—For six years Nathan Robbins and his wife have lived together in their Arlington home and have not exchanged a word.

In 1929 Mrs. Robbins obtained a decree that she was living apart from her husband for justifiable cause. Robbins explained that he didn't talk to his wife "because she is unreasonable."

Despite their differences, they continued to live in the same house and Robbins was making a weekly payment of \$20 to his wife for her support.

He has petitioned the court to reduce this payment, on the ground that his earnings have been reduced since the decree of 1929, and that his wife in refusing to leave his home, puts additional expenses on him.

PROFIT IN STAGE COACH

Amateur Drivers Like Thrill of "Four in Hand."

LONDON, Aug. 23.—The word "stage coach" has something of a mid-Victorian flavor to it, and most people believe that its degree of extinction is somewhere between that of a horse and a dodo.

But one travels daily during the summer between Piccadilly, London, and Hampton Court. With the more efficient service available nowadays, one would think this stage coach wouldn't pay.

But it does, and plenty. It seems that many amateur drivers like to drive four-in-hand, and many members of the public get a real thrill out of a stage coach journey.

PLANE COST FIGURED

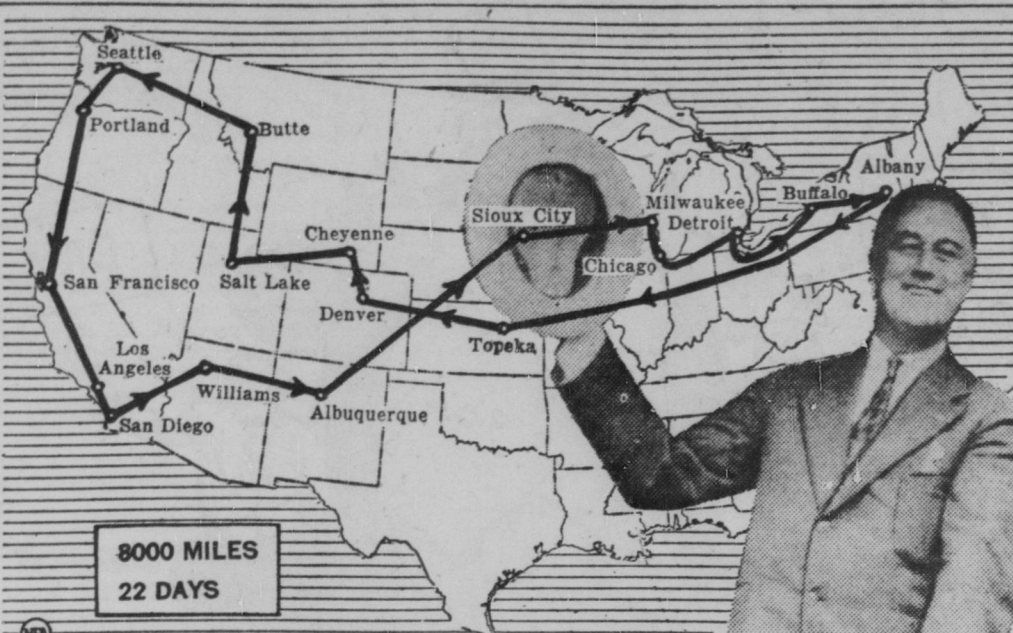

\$52 Hourly Expense to Run Tri-Motored Ships.

WASHINGTON, Aug. 23.—The United States postoffice department has figured the operating expenses of various planes. After extensive research, it is found that the operating expense of tri-motor ships averages about 50 cents a mile, or about \$52 an hour.

Riot Gun Is Perfected

War department has perfected a "riot" gun which is the latest and most efficient field piece of its kind to be shown in recent years. It is of the same type as the familiar French "75," and is mounted to allow firing in any direction. It has a range of almost four miles.

Roosevelt to Make 8,000-Mile Tour

The route chosen by Governor Franklin D. Roosevelt (right), Democratic presidential candidate, for his forthcoming trans-continental speaking tour, which will touch twenty-one states and represent approximately 8,000 miles of travel, is given on the above map, which shows cities in which he plans to speak.

Leaving Albany on Sept. 12, Roosevelt will make his first speech at Topeka, Kan., proceed to the Pacific coast northwest, turn south to San Francisco, Los Angeles and San Diego and return by the route shown, ending his speaking tour at Buffalo on Oct. 3.

He will make several major addresses and speak briefly at the other stops.

On the witness stand, Logsdon said that after two attempts he made a buy of liquor Saturday night in the poolroom of Potocva Nistor, 559 West Washington street.

Leaving the place he went to No. 6 engine house, where he said George Dubla, who had been talking to firemen, approached him and upbraided him for aiding officers by buying liquor.

3-NIGHT FETE WILL DEDICATE COLEMAN PARK

West Side Parade Will Open Celebration Over New City Playground.

Coleman park, 2500 block on West Michigan street, will be dedicated in a three-night program, Sept. 1, 2 and 3.

Opening the first night of the celebration, a parade will form at White River boulevard and Michigan street. It will end at the park. Business firms and patriotic, fraternal and civic organizations will take part.

Preliminaries in a pushmobile race, boxing and wrestling matches and musical acts will form the program of the evening.

A race of home-made pushmobiles and a mock wedding by children 6 and under, will feature the second night.

Finals in the pushmobile race will be the principal attraction of the final night.

Dancing will follow the regular program each night.

Many west side churches will erect concession stands around the park. Merchants and residents of the vicinity will decorate their places of business and their homes.

Clearing of the ground followed the locating of the park recently by the board of park commissioners.

FRANCE OPENS PARLEY FOR U. S. TRADE PACT

Prospective Treaty Would Make America "Favored Nation."

PARIS, Aug. 23.—France opened the long-awaited formal negotiations with the United States Monday for a new commercial treaty and, simultaneously, prepared for an effort to salvage dwindling trade with Great Britain and Canada.

The conversations with American experts began at a luncheon at the United States embassy after a long period of informal negotiations directed by Ambassador Walter E. Edge.

The prospective treaty would grant the United States most favored nation treatment in trade with France, permitting American exports to enter this country at minimum tariff rates.

Bad circulation of blood in the lower bowel causes piles. The hemorrhoidal veins are flabby, the bowel walls weak—the parts almost dead. To get rid of piles an internal medicine must be used to stimulate the circulation, drive out the thick impure blood, heal and tone the affected parts.

Dr. J. S. Leonard, after years of study, found a real internal Pile remedy. He called his discovery HEM-ROID, and prescribed it for 1,000 patients with success in over 900 cases, and then decided every Pile sufferer, no matter how stubborn their case, might try his prescription with a money back guarantee.

HEM-ROID tablets have such a wonderful record of success in this city that **Hook's** Dependable Drug Stores and all good druggists invite you to try HEM-ROID with guarantee of money refunded if it does not end your Pile misery.—Advertisement.

Hemorrhoids Go Quick

All Pile Misery Ended Without Cutting or Salves.

Thousands who have piles have not yet learned the quick and lasting relief can only be accomplished with an internal medicine. Neither salves nor suppositories remove the cause.

Bad circulation of blood in the lower bowel causes piles. The hemorrhoidal veins are flabby, the bowel walls weak—the parts almost dead. To get rid of piles an internal medicine must be used to stimulate the circulation, drive out the thick impure blood, heal and tone the affected parts.

ORDERS SELF ARRESTED

Drunken Man Decides Jail Is Best Place for Him.

KNOXVILLE, Tenn., Aug. 23.—He was drunk, and Henry Dean knew it. He reasoned that the best place for a drunken man is in jail. He called a taxi and was driven to the county jail.

He walked in, asked for Sheriff Hackney and was told the sheriff wasn't in. Dean insisted he be locked up, so Chief Deputy Seaton Garrett complied with the request.

WIFE BEATEN IN BASEBALL ROW

Husband Blackens Eyes of Ardent Cubs' Fan.

CHICAGO, Aug. 23.—Anthony Pilger doesn't give a tinker's hoot whether the Cubs win the National League pennant or land in the cellar. But Mrs. Pilger is interested to a frantic degree. And thereby hangs the tale of two black eyes which Mrs. Pilger is wearing today.

The sorry lot of being a baseball widow so palled on Anthony that he decorated his spouse with crepe on her orbs when she arrived home from the ball lot last Friday. As a result, he was fined \$100 and placed on probation in court Monday.

It was ladies' day at Cub park Friday, and Anne decided that she would be there. Anthony, his wrath bubbling over, flatly said she would not. He refused her even carfare. She borrowed it and went.

The argument waxed hot when she returned, down in the dumps because the Cubs lost. It waxed even hotter when she refused to cook dinner and went to her room to find solace in tears.

Anthony followed. So did the black eyes. And so did the fine and a warning from Judge Erickson, after suspending it, that it would be collected if there were any more baseball wars.

Moratorium Proposed for Delinquent Moose

PASTORS GIVEN POSTS Convention Report Reveals Financial Stability of Order.

Seven Appointments Made by Church of Nazarene.

PRINCETON, Ind., Aug. 23.—Seven pastoral appointments for the Indianapolis District of the Church of the Nazarene were announced here today following close Monday of the annual session of the state assembly.

The appointments are, First church, the Rev. E. E. Hale; West Side, the Rev. Jesse Towns; Ray Street, the Rev. W. Wright; South Side, the Rev. Harry Carter; Westbrook, the Rev. Orville Maish; North Side, the Rev. M. J. Fargo, and Winter Avenue, the Rev. Raymond Irwin.

DOCTORS FIGHT U. S. HOSPITALS

Seek to Halt Intervention in Profession.

SOUTH BEND, Ind., Aug. 23.—The Indiana Medical Association appealed to the Shannon congressional committee here today to halt government intervention in the medical profession.

Through Dr. Joseph Weinstein, Terre Haute, president-elect of the association, it asked the committee to "stop socialization of the American medical profession by halting expansion of government hospitals, and curtailing care of veterans strictly to service disabilities."

The committee, headed by Representative Joseph B. Shannon, Kansas City, Mo., is conducting an investigation of charges that government intervention in private enterprises is economically harmful.

Dr. Weinstein told the committee that 76 per cent of veterans receiving federal hospital aid were not being treated for disabilities incurred in service.

"If a veteran wants his tonsils removed, he goes to a government hospital because he gets the work done free of charge," Dr. Weinstein said.

A brief filed by the association said that veterans last year received service valued at \$1,000,000,000 from the government.

The association also assailed public health clinics, pointing out that they were taking legitimate business from the medical profession.

OPEN POISON PROBE

Murder Hinted in Death of Heiress in 1928.

MONTELEONE, T. H., Aug. 23.—A secret inquest to determine the cause of death of Mrs. Marian Shainwald Sevier, southern heiress, has been started here, four years after she died.

When Mrs. Sevier, wife of Col. Granville Sevier, army officer, died here, doctors said arteriosclerosis and complicating ailments had caused her death.

Nine months later, at the instigation of Shainwald, her brother, an unofficial autopsy was held. It was discovered that certain vital organs were missing from the body.

Shainwald brought a court action asking an official autopsy. Colonel Sevier, who had inherited his wife's fortune, opposed the action on grounds that it was unnecessary to again disturb her body.

Shainwald had claimed she was a possible victim of poisoning.

CHEATS DEATH TWICE

Electricity and Gas Peril Life of Man in Home.

LOS ANGELES, Aug. 23.—History relates that the lack of a ten-penny nail resulted in the loss of a battle. Two little things nearly caused the death of E. N. Gruber, 59.

The first was a chair leg, pushed carelessly against the wall, turned on an unused gas jet.

Ten minutes later the second happened. Smelling the fumes, Gruber turned on the light to investigate. A short circuit in the switch ignited the gas.

The explosion hurled Gruber against the wall.

Blind Tiger Charge Filed

Blind tiger charge was filed against William C. Moeller, 23, of 415 South Butler avenue, after an automobile bearing license plates issued to him called at New York street and Emerson avenue with a car driven by James O. Lee, 58, of 1297 South Emerson avenue. Police said they found a quart of whisky in Moeller's car.

NEW! ILLUMINATED BASE TAFFETA SHADE TABLE LAMP

Celane Taffeta Shade Beautifully lined and Cellophane wrapped

ONLY 45c DOWN!

In the following colors:—Gold—Green—American—Beauty and—Rose.

Control Switch for upper Light

Control Switch for base

ILLUMINATED BASE Beautifully Colored and Acid Etched

—The newest designed table lamp. Only a limited quantity at this low price offered to open new accounts. Make your selection early.

A new departure in table lamps with a shade light, iridescent coloring and acid etched design in the base.

—A Lamp That Would Ordinarily Sell at Three Times Our Low Price of \$2.95. Select Yours Early!

Drivers of Racing Truck and Auto Draw Fines

Failure to Obey Officer Is Costly to Pair; Advice Is Boomerang.

Two speeding motorists who wouldn't "stay put" Monday on orders of Jacob M. Hudgins, motorcycle policeman, were halted today in Municipal court when James E. McDonald, special judge, handed out jail terms and fines with a lavish hand. A third man was fined for interfering with an officer.

Hudgins was riding on East Washington street near Pleasant Run boulevard when he saw a truck and an automobile racing. The speed was 52 miles an hour.

Halt the automobile, the officer obtained the license number and told the driver, William Wright, 1401 Shannon avenue, to wait at the tire station at Layman avenue and Washington street, pending arrest of the truck driver.

Hudgins halted the truck at Ritter avenue and Washington street. He told the driver, Will Hodges, 147 South Catherwood avenue, to "stay put" until further orders.

Returning to the automobile, Hudgins began taking data from Wright, including license plate numbers. The officer saw the truck moving away, and again told Wright to wait.

A chase followed, ending at Julian avenue and Webster street.

Wright was gone when Hudgins came back. Hodges was sent to headquarters in a patrol car.

Checking the license number on the automobile, Hudgins learned Wright's name and address and went to his
