

## BITTERNESS IS FRUIT OF 'HELP' BY LAND BANKS

Wholesale Foreclosures Are  
Made Against Owners of  
Farms in Middle West.

By Ray Tucker,  
Times Staff Writer

DES MOINES, Ia., Sept. 22. — While the Hoover administration is asking private financial institutions to show leniency to hard-pressed home owners, the government-supervised joint stock-land banks have aroused bitterness throughout the west by wholesale foreclosures against the farm owners.

More have been brought in the last two years than ever before. The land banks are selling foreclosed property at one-half to one-third its value, taking \$50 an acre for unpaid mortgages, negotiated on a basis of \$125 an acre, and making up for these losses by using the funds to retire their bonds.

These bonds now are selling at about one-third their par value. The bank officials insist they must pursue this course to obtain money with which to pay interest on their bonds, which are in the hands of individual investors.

**Banks Can Make Deals Pay**  
The 1931 record of the joint stock land bank at Chicago shows how the banks can benefit so long as farms can be sold as fast as they are foreclosed, and bonds can be bought back at a low price in large amounts.

During 1931 the Chicago banks purchased \$2,381,500 of its bonds, which ranged during that year from \$1 to \$6.

At those prices the banks netted a bond discount profit of about \$1,345,260. As it sold \$1,828,658 of loans—or land—to net only \$1,090,901, it incurred a \$737,757 loss in that transaction.

But its approximate profit, ignoring operating expenses involved, was \$607,503.

The same situation exists in other territory, and reading these figures makes the farmer mad.

This policy, according to the farmers, hurts them in several ways at a time when they are struggling to hold on during a depression which is a ten-year-old tale in this section.

**No Chance for Comeback**  
Besides depriving them of any chance for a comeback, they point out that the land banks' policy tends to deflate their holdings still further.

Many a farmer trying to carry a mortgage of \$125 an acre sees an adjoining farm sold for \$50 an acre by the land banks after foreclosure proceedings.

In fact, many property owners are letting their farms be foreclosed, and buying another place at the lower figure.

Governor Dan Turner of this state has protested these actions again and again. He recently called officials of land banks into conference here, and urged either a moratorium or greater leniency. Whether there will be any change of policy still is to be determined.

Politically, it is driving hard-shelled Republican farmers into the Democratic corner in the presidential fight.

**WATSON TO SPEAK AT  
MUNCIE ON TARIFF**

Springer and Robinson Also Are Slated for Addresses.

The Republicans continued their campaign today at full tilt with addresses scheduled for Senators James E. Watson and Arthur R. Robinson and Raymond S. Springer, gubernatorial candidate, in different sections of the state.

Robinson was to speak tonight at Carmel when he is to urged the reelection of his colleague, Watson, and will endorse the state ticket.

Watson will address a Tenth district rally at Muncie tonight, and will base his speech on the tariff problem.

Springer will address two meetings, appearing in Mt. Vernon in the afternoon and in Princeton at night.

**CITY GETS CONCLAVE**  
National Editorial Association to Meet in Indianapolis.

Indianapolis has been selected as the 1933 convention city of the National Editorial Association. The conference probably will be held early in June. The association is composed of editors and owners of newspapers throughout the United States.

By United Press  
REDWOOD CITY, Cal., Sept. 22. — Called for jury duty, Archie Woodhams was asked his occupation.  
"Waiter," he replied.  
"Oh, yes," said the prosecutor. "At what cafe?"  
"No cafe," replied Woodhams. "I'm just an ex-soldier waiting for the bonus."

trative cost of the fund has been reduced 66 cents of each dollar contributed. Voluntary reduction of 10 per cent in employees' salaries aided in reducing expenses and supply, and other items also have been reduced.

Increase in demands on the fund for relief and charity was cited by Baxter as creating a necessity for generous contributions from citizens.

## FLAILS G. O. P. TARIFF POLICY

Bitter Attack Made on Big  
Issues by Ohio Leader.

Declaring that the campaign this fall concerns more than partisan issues, Lieutenant Governor William G. Pickrel of Ohio assailed the Hoover economic policy at two Democratic rallies here Wednesday night.

"Involved is the paramount question as to the course America shall pursue the next four years in its economic and social development," he said.

"Shall we continue an economic policy that brings exaggerated wealth to a few and misery and disaster to the masses?"  
"Shall a tariff policy fostered by the type of Grundy of Pennsylvania and Watson of Indiana be permitted? This present policy is before the people."

"If we like a tariff wall that brings retaliation from our sister nations, then we should support both Hoover and Watson. If we favor de-

struction of our foreign markets, the Republican ticket gets our support.

"It has meant that more than 2,000 American factories have been closed along our borders and reopened in foreign lands."

## "Is your HUSBAND irritable?"

Probably there's  
a very simple  
physical cause—  
CONSTIPATION!

Copyright, 1932, Standard Brands Incorporated

ARE you afraid? You have every  
right to be... Your husband  
isn't just irritable. He's sick!

Doctors say that irritability frequently has a simple physical cause... Constipation. We aren't leading healthy lives—not enough exercise—too much heavy food—daily neglect of important body habits.

You know what happens. Our systems are weakened—and refuse to throw off their accumulated waste matter regularly.

Actually, the intestines have become stagnant. Poisons form—seep into the blood—circulate through the body, leading to headaches—upset stomach—unpleasant breath—a persistent "tired" feeling. That morning grouch.

Don't neglect this condition

—it's too easily corrected. Doctors recommend—fresh yeast!

What Fresh Yeast does

Eaten daily, Fleischmann's Yeast attacks and softens the clogging wastes in the intestines. At the same time it actually "tones" and strengthens the muscles that help to eliminate these residues.

Thus disturbing body poisons are gently carried away. Sound sleep returns. Appetite picks up. Back comes youthful energy—healthy digestion—a smile!

You can get Fleischmann's Yeast—rich in vitamins B, G and D—at grocers, restaurants and soda fountains and directions are on the label. Why not get a supply today?

DOCTORS KNOW that ragged nerves and bad tempers often mean one thing... constipation! To correct this evil in a natural way they advise Fleischmann's Yeast.

Fleischmann's Yeast is a Health

Food thousands eat—3 Cakes a Day!
