Gene Favored Over Classy

Field in \$5,000

L. A. Event.

By United Press

WHISHIRE COUNTRY CLUB, LOS ANGELES, Jan. 7.—A fair share of the nation's champion golfers was entered today in the first round of the \$5,000 Los Angeles open, biggest of Southern California's money tournaments.

Among the 132 starters was Gene Sarazen, American and British open champion, who was the favorite. Approaching him in popular acclaim was MacDonald Smith, tall and canny defending champion, winner of the event in 1928, 1929 and 1932.

Sarazen and Smith faced, among others, such threats as Craig Wood of Deal, N. J., who won two of the three California events he entered this year, the National Match play at San Francisco and the Pasadena Open.

Archibald Macdonald, "dark horse" from Zanesville, O., and winner of the recent amateur-poor tourney at Santa Monica, was another starter. So were Mortie and Olin Dutra, Abe and A. Espinosa, George von Elm, Leo Diegel, Fred Morrison, Dick Metz, Horton Smith, Johnny Golden, Charlie Seaven and Harry Cooper.

Three Crimson Net Stars Out

By Times Special

BLOOMINGTON, Ind., Jan. 7.—Injuries and illness will handicap Indiana university's net squad when it opens the Big Ten season tonight against Ohio State at Columbus, O.

Woodrow Weir, who was injured recently in practice, may not be able to play for three weeks. Two other regulars, Johnson, forward, and Porter, star guard, have been suffering from influenza, but may play Saturday. Keith Campbell of Logansport, a sophomore, will fill Weir's berth.

Let's Explore Your Mind

BY DR. ALBERT EDWARD WIGGAM, D. Sc.

IF PARENTS EDUCATE AND IMPROVE THEMSELVES MENTALLY, WILL THAT CAUSE THEIR CHILDREN TO BE BORN WITH FINER NATURES AND HIGHER INTELLIGENCE?

DOES THE "LIVE YOUR OWN LIFE" PHILOSOPHY WORK AMONG VIOLENT PEOPLE TODAY, WORK OUT IN PRACTICE?

DO WOMEN UNDERSTAND MEN BETTER THAN MEN UNDERSTAND WOMEN?

THESE QUESTIONS ARE GIVEN FROM THE SCIENTIFIC POINT OF VIEW. NOT ALL MORAL QUESTIONS CAN BE ANSWERED WITH SCIENTIFIC ACCURACY, BUT NO QUESTION AS TO WHAT IS RIGHT CONDUCT OR SOUND MORALS IS POSSIBLE WITHOUT SCIENCE. Science puts the rights of organized society above the rights of the individual.

1. No, it looks reasonable, but biologists have proved it does not work, because the germ-cells from which the children are born are separate from the body cells. Therefore, while the parent's efforts improve their bodies, brains and nerves, they have no measurable effect on the germ-cells more than if they were marbles carried outside in their pockets.

For this reason, as Professor Conklin, Princeton biologist, puts it, "Wooden legs are not inherited, but wooden heads are." Wooden legs are acquired but wooden heads are inborn.

2. Not if one desires to live the largest and happiest life. We grow by what we give to others. Individual moral codes never work; they continually must be correlated with those of the community.

Dr. Wiggam will be glad to answer questions dealing with problems of conduct, morals, beliefs, husband and wife, parent and child—any question in the field of human relationships. Questions of general interest will be answered in this department. If personal reply is desired, please send stamped, self-addressed envelope.

HEAVY BUYING SEEDS FUTURE PRICES HIGHER

Commission House Demand for May Wheat Aids All Grains.

BY HAROLD E. RAINVILLE
United Press Staff Correspondent

CHICAGO, Jan. 7.—Persistent commission house buying of May wheat prices up more than a cent on the Board of Trade Friday. The amendment to the domestic allotment plan appeared to be the chief factor but offerings were not large and were readily absorbed. The best prices were not held.

Corn followed wheat but was not as active as recently. Oats and rye were firmer but quite dull.

Wheat Closes Up
At the close wheat was 1 1/2 to 1 3/4 cents higher, corn 1/2 cent higher, oats 1/2 cent higher, rye 1/2 to 2 cents higher and barley was 1/2 cent higher. Provisions were firm in a light trade.

The latest development in the allotment plan was the setting of an arbitrary price for all wheat in farmer's hands at the end of the present crop year. This, it was thought, would mean a strong cash market for the present and had the immediate effect of widening the May-July spread.

No expensive commitments are being made, however, in view of the unsettled economic situation. Liverpool remained easy and closed unchanged to 1/4 cent lower. Cash prices were 1 cent to 1 1/4 cents higher, with receipts 3 cars.

Corn Holds Steady
Corn held steady, unchanged to 1/4 cent higher at mid-session. The action of wheat held the market firm with the aid of the forecast for a cold wave over part of the belt. Cash circles were more active with sales of 145,000 bushels and bookings 50,000 bushels. Cash prices were unchanged to 1/4 cent higher. Receipts were 100 cars.

Oats was steady at 1/4 cent higher early while rye gained 1/2 cent to 1/4 cent. The action of wheat was the chief influence, as both pits were dull, with trade about at a standstill in oats. Cash oats were unchanged to 1/4 cent higher. Receipts were 13 cars.
