

PART OF BOX OF CHINA WOULD INJURE U. S.

Great Powers Seem Likely
to Divide Vast Region,
Get All Trade.

By WILLIAM PHILIP SIMMS
Foreign Editor

WASHINGTON, Jan. 12.—Once again, as in 1900, China is threatened with partition among the great powers.

Japan already is expanding in northern China with the avowed intention of forming a new "empire" there under her protection.

London, Paris and some of the other capitals of Europe openly are sympathetic to Japan, on the score that China is "hopelessly chaotic," and that nothing else is left for her to do.

From such a stand it would be only a short step for Britain, France and certain other great powers to camouflage similar ventures of their own as moves to protect their own interests.

Britain is interested heavily in the Yangtze valley, central and western China; France in south China, and Russia in northern Manchuria and Mongolia.

U. S. Once Saved China
A generation ago Britain, Russia, Germany and France seemed about to divide China among themselves. They went so far as to make out very definite "spheres of interest" and set up naval bases from which to strike when the time came.

They were stopped largely by the United States. State Secretary John Hay set up the doctrine of the "open door" and equal opportunity for all, and made it stick.

The belief then existing that the United States likely would fight to uphold this doctrine, plus the prevailing international jealousies, and fear of each other among the powers, saved China.

No Fear of America Now
Today there is no fear of the United States. The other powers are pretty certain the United States would not go beyond protesting, were China dismembered.

The League of Nations seems powerless to stop even one of the major powers, let alone several acting more or less together.

The nine-power treaty, safeguarding China's territorial integrity, has been scrapped by Japan, and by many now is regarded as a dead letter, while the Kellogg peace pact, likewise, has been flouted again and again.

May Go Way of Poland
Unless China pulls herself together, therefore, and ceases to give what the powers may seize upon as an excuse for action, she may go the way of Poland when Russia, Prussia and Austria tore her to pieces and divided the spoils 150 years ago.

The partition of China would be a tremendous blow to the United States. America would refuse to participate in her dismemberment, and the nations that swallowed her naturally would absorb her trade.

China's 450,000,000 people offer the greatest potential market in the world today.

The Chinese have just begun to absorb the world's products. As consumers of all but the bare necessities, they are almost at the bottom of the scale.

Might Be Our Best Customer
For every dollar per year that the per capita standard of living rises, there will be added almost half a billion dollars in purchasing power.

If China is allowed to go ahead, without being hijacked by one or more of the stronger powers, she may become Uncle Sam's best customer, and provide hundreds of thousands of jobs for American workers producing the things she demands.

If the process of slicing her to pieces continues, bulk of this vast future trade will go to the nations owning the slices.

FIGHT TO STOP ANTI-RED BILL

Civil Liberties Union in Last
Stand Against Dies
Measure.

By Scripps-Howard Newspaper Alliance
WASHINGTON, Jan. 12.—The American Civil Liberties Union is bringing up its biggest guns to block the Dies bill now on its last lap toward passage by the present congress.

The Dies bill, a measure to authorize deportation of all alien Communists, has passed the house and has been voted out by the senate immigration committee. The only survivor of the famous anti-red program of the Fish committee, the bill is being pushed by patriotic organizations.

776,812 WORLD WAR VETERANS GET 'PENSIONS'

Three Times As Many on
Pay List As Suffered
Battle Wounds.

By RAYMOND CLAPPER
United Press Staff Correspondent
(Copyright, 1933, by United Press)

WASHINGTON, Jan. 12.—The United States is paying direct money benefits to three times as many World war veterans as are listed as wounded casualties, according to General Frank T. Hines, director of the veterans' bureau.

Wounded casualties, according to war department figures, were 234,300. Veterans now receiving direct money benefits number 776,812, according to veteran bureau figures.

Comparative figures cited by the bureau indicate Great Britain and France are paying one out of four of their wounded.

Director Hines has calculated that based upon the numbers reported dead or wounded, the annual expenditures per man are: Great Britain, \$58; France, \$51; United States, \$2.68.

Based on the number mobilized, the figures per year per man are: United States, \$180; Canada, \$94; France, \$34.09; Great Britain, \$26.49; Germany, \$22.88; Italy, \$12.44.

PRAISE CITY FIRE HELP

Two Indianapolis Companies Given
Credit in Crawfordsville Blaze.

Much of the credit for subduing the business district fire in Crawfordsville, which caused a loss of probably \$1,000,000 Tuesday, is due to assistance of two Indianapolis fire companies, according to Andrew Foley, Crawfordsville attorney, brother of M. E. Foley, Indianapolis. The Indianapolis firemen made the trip to Crawfordsville, about forty miles, in thirty-eight minutes, Mayor Reginald H. Sullivan was notified today.

ernment has been able to go so far in granting relief to our veterans, and the American people will make no complaint as to the cost of such relief, provided these expenditures go to those who are deserving," General Hines says. However, he doubts whether the United States can continue to pay the bill if benefits expand in the future at their recent rate.

Fourteen years after the Civil war, which is comparable to the present date in connection with the World war, veterans were receiving \$26,000,000 a year.

Forty-two years later, when the peak expense was reached, they were receiving nine times as much. Fourteen years after the Spanish-American war, its veterans were receiving \$3,900,000. In the following six years this leaped to \$13,000,000, multiplying twenty-eight times.

If history repeats itself therefore, the present World war veteran outlay will expand in years to come.

Clarence E. Fox, former councilman, arrived at the bank door, and finding it locked, began to pound on it. One of the gunmen opened the door and asked him in, telling him the "bank examiners have taken it over."

Fox was suspicious and ran to call police. As the robbers fled, Fox and a drug store proprietor fired at them.

By United Press
BEREA, O., Jan. 12.—Two bandits today invaded the Commercial and Savings bank of Berea, a suburb of Cleveland, and looted it of \$30,000.

In a gun battle with the citizens as they sought to escape, one of the gunmen was wounded and captured. The other fled with the entire loot.

Don't take colomel! HERE'S NEW HEALTH FOR YOUR LIVER

Now banish bad breath, pimples, constipation; feel like a million!

That tired, frowsy feeling in the morning, that "dark-brown" taste in the mouth—if you would banish them and win back buoyant health, don't expect relief from salts, mineral oil, or candy and chewing-gum laxatives.

For such remedies only move the bowels. While chances are, you're one of the thousands suffering from sluggish liver which does not yield sufficient bile—causing pimples, blemishes, headaches, bad breath and a general run-down feeling.

What you need is something which acts thoroughly but harmlessly upon the liver. And in Dr. Edwards Olive Tablets you will find that "something," which stimulates the bile flow.

A successful substitute for colomel, these famous tablets are compounded of pure vegetable ingredients, and have been praised for years by millions.

To get and keep the bile flowing freely—correcting constipation, skin troubles, and win back that "fine and dandy" feeling of youth—go to your druggist for Dr. Edwards Olive Tablets today. 15c, 30c, 60c.—Advertisement.
