

HEAD OF BOARD URGES CLOSING NORMAL SCHOOL

College Not Needed, Moorman Says in Memorial to Legislature.

Closing of either the Muncie Normal or Indiana State Teachers college at Terre Haute, suspension of the teachers' minimum wage law, and drastic curtailment of expenses at other state institutions was suggested to the legislature today by John S. Moorman of Knox, Ind.

In a memorial addressed to the assembly, Moorman stated that economy is necessary because "ability of property owners to pay taxes nearly has reached the vanishing point."

Saving of one and a half to two million dollars a year could be accomplished by closing of one of the state normal colleges, Moorman said, pointing out that "Indiana already has between 3,000 and 10,000 surplus teachers."

Suspension of the law providing for a minimum of \$800 wage for teachers is advocated by Moorman for a four-year period, because "probably 60 per cent of the school corporations will be out of money by Jan. 1, 1934, owing to the utter inability of property owners to pay their taxes."

Moorman has been active in state politics for a number of years and now is chairman of the Indiana state prison board and chairman of the state purchasing commission.

2 TO GO ON TRIAL IN BOOZE RAID HOAX

Robber Suspects Will Face Court Tuesday.

By United Press
LAFAYETTE, Ind., Jan. 23.—Joe and Warm Swain, brothers, of Danville, Ill., will go on trial before a jury in the Tippecanoe circuit court Tuesday on charges of robbery in connection with an armed holdup at the home of Mrs. Amanda Walsh, Nov. 19, 1932.

The pair, together with two others, Thomas Bridgewater and Norman Hoskins, also of Danville, are accused of terrorizing Mrs. Walsh and her daughter and Victor Stair and ransacking the house and stealing \$25 at the point of guns.

The gang represented themselves to be federal prohibition agents in order to gain entrance to the home. Bridgewater and Hoskins will be tried later.

GERMAN PRINCE IS WED TO COMMONER

Cinderella Romance Stirs Peasant Folk.

By United Press
STOLBERG, Germany, Jan. 23.—Dreams of a modern Cinderella came true Sunday when Prince Wolff Meinrich von Stolberg was married to Miss Irma Erfert, pretty daughter of a commoner, a civil servant in the government at Magdeburg.

The youthful bridegroom, now 30, is the eldest male descendant of the former rulers of this tiny principality in the Harz mountains.

He was to have married Princess Juliana of Holland, heir to the Netherlands throne, but he lost his heart to the "home-town" girl.

The ceremonies were conducted in the chapel of the old family castle, built 700 years or more ago. Only the bride's parents and her sister were present.

Despite years of Germany as a republic, the romance of the prince and the government employee's daughter stirred the peasants of Stolberg as few incidents in their sequestered lives have done.

JEALOUS: ENDS LIFE
Former Bloomington Taxi Driver Kills Himself With Poison.

By United Press
BLOOMINGTON, Ind., Jan. 23.—Grover Silvers, 25, a former taxi driver, died in city hospital here Sunday after drinking poison.

He was taken to police headquarters by Mrs. Lola M. Stewart, 30. Physicians prepared a quantity of poison from his stomach. Jealousy, caused by attentions Mrs. Stewart paid other men, is believed by police to have prompted Silvers' act.

RIOTING CLOSES IRISH CAMPAIGN

Cosgrave Has Narrow Escape When Foes Break Up Election Meeting.

By United Press

DUBLIN, Jan. 23.—The rival "armies" backing candidates in Ireland's general election campaign clashed in various parts of the Free State Sunday night and today, and filled the final hours of the campaign with rioting and violence.

At Tralee, sixty persons were injured Sunday night and former President William T. Cosgrave had a narrow escape when supporters of Eamon De Valera broke up a Cosgrave meeting. Cosgrave is a slight favorite in Tuesday's voting, expected to be heavy.

Fights and disorders in Dublin were the last-minute feature of the campaign, with hand to hand encounters in the principal streets. Disorders also were reported in County Clare.

Japanese Police Advise Envoys' Wives to Move From Building.

By United Press

YOKOHAMA, Jan. 23.—Police advised American consular officials today to transfer their wives from the consulate, and placed a guard around the building after 500 striking Japanese employees of the Singer Sewing Machine Company had been dispersed near there. Police arrested 145 demonstrators.

American Consul Charles Duval and his vice-consul made arrangements to move their families from the consular apartments in case of further trouble.

Seven police officers were stationed in the new, granite consulate building, twenty around the grounds, and 300 in an adjacent park.

Police suggested that wives of consular officials, including Mrs. Duval and Mrs. Marrill Denninghoff, be ready to take refuge in the large vaults of the building, if necessary.

Duval, as well as members of the embassy staff at Tokio, were said to believe that the police were unduly alarmed, were seeking to demonstrate their zeal for protecting Americans after the raid of Japanese thugs on the Singer Sewing Machine building here last week. The raid grew out of the strike of 5,000 native employees, and was not considered primarily an anti-American demonstration.

THOMAS KEEPS UP FILIBUSTER AS LONG QUILTS

HUEY APPARENTLY MOLLIFIED BY ADOPTION OF AMENDMENT TO GLASS BILL

By United Press

WASHINGTON, Jan. 23.—Full burden of the senate filibuster against the Glass bank bill rested today on the shoulders of Senator Elmer Thomas (Dem., Okla.).

His most loyal and energetic comrade, Senator Huey Long (Dem., La.), has accepted a compromise, and it is apparent that if the fighting is to continue, Thomas will have to continue alone.

Long, who did more than his share of talking in the two-week filibuster, professed to be satisfied with the Bratton amendment adopted by the senate Saturday.

The amendment would permit branch banking by national banks only in states which extend the same privilege to state banks.

The Kingfish believes that change will make more remote the possibility of large metropolitan banks "gobbling the little" institutions. He said that was the reason for his extended fight against the Glass bill.

Despite the fact that he apparently is mollified, the Kingfish said he still had some amendments to offer to the bank bill, and senators feared the next three days would see Long back in the arena fighting against some other provision of the measure.

CHOICE WHISKY IS OFFERED TO STATE

KENTUCKY LIQUOR INTERESTS SEND ADS IN FLOOD.

By United Press

Anticipating repeal of Indiana's Bright bone dry law by the legislature, Kentucky liquor interests within the last few days have flooded the state with illustrated literature of whisky stocks and prices.

Brightly colored pamphlets containing reproductions of many brands of bottled whiskies have been distributed to physicians, who, under the proposed new law, would be authorized to prescribe medicinal whisky under government supervision.

If the dry law is repealed it is probable dentists and physicians will charge a prescription fee which may be upwards of 50 cents a pint.

Another "magic show" is cigarette advertising.

One of its greatest tricks is the illusion that cigarettes can be made miraculously "MILD" through manufacturing methods.

THE EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some

more intensively than others, because raw, inferior tobaccos require more intensive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why Camels are so mild. This is why Camels have given more pleasure to more people than any other cigarette ever made.

It's the secret of Camels' rich "bouquet" ... their cool flavor ... their non-irritating mildness.

All the natural, ripe goodness of Camel's tobacco is kept *fresh* for you by the air-tight, *welded* Humidor Pack. Don't remove it.
