

ACTION ON BEER CONTROL BILL IS POSTPONED

Delay Till Tuesday Ordered on Motion of Draught Brew Adherent.

Beer control bill of the administration struck a snag in the house today, when called up for second reading, and further action was delayed until Tuesday morning at 10:30, when the measure will be a special order of business.

Representative Eugene Martin (Dem., Ft. Wayne), moved delay and was sustained by fifty-four votes. No count was made of those opposing postponement.

Martin is an advocate of draught beer, which is opposed by the administration, but which has several supporters in the house.

Representative Edward H. Stein, Bloomfield, Democratic floor leader, failed in an effort to hurry progress of the bill, by moving it be sent to engrossment.

Amendments Adopted

Prefacing his motion, Martin declared members had had little opportunity to study the beer bill, and that he had not seen a copy until Thursday afternoon, although the introduction was on Jan. 18.

Several minor amendments, offered by Representative John F. Ryan (Dem., Terre Haute), chairman of the public morals committee which reported the measure out, were adopted.

One amendment increased from two to three the number of liquor manufacturers permitted in any congressional district, and the other requires that retail dealers in grain alcohol to be used for medicinal purposes shall own the property where it is to be sold.

Bill repealing the Wright bone dry law was to have been up for passage today, but was not reached, due to adjournment so democratic members could attend a caucus.

Repeal Legislation Advances

Repeal legislation also moved forward triumphantly in the senate Thursday, when the upper house voted, with only one dissenter, to memorialize congress to submit the eighteenth amendment repeal to state conventions for ratification.

On second reading, the senate adopted a majority committee report for passage, and rejected a minority report for postponement, signed by Senator Larry Brandon (Dem., Auburn).

The resolution, fathered by Senator Chester Perkins (Dem., South Bend), referred to the eighteenth amendment as "farical" and "insincere." The committee on federal relations toned down these terms by substituting "unsuccessful."

The resolution is assured of passage in the house, which already has accepted a favorable committee report.

A New Oral Antiseptic By Makers of Vicks VapoRub Introduces New Economy

A quality antiseptic mouth-wash and gargle—at less than half the usual price—is doubly welcome now. Especially to the millions who find such a product a daily necessity for halitosis (bad breath), oral hygiene, and other antiseptic uses.

The New Vicks Vapotene Antiseptic—by the makers of Vicks VapoRub—brings this unique advantage.

Born in a depression year, it is priced accordingly. Aided by record low prices on raw materials—and Vicks facilities for mass production—Vicks Chemists have produced a large 10-ounce bottle—a usual 75c value—that is priced regularly at only 35c.

The name, of course, guarantees high quality. It is simply the best.

Unusual Trial Offer

Of course, the only real proof of its quality—and its economy—is in actual use. To furnish this proof, five million bottles of a special trial size are being supplied gratis everywhere at less than cost of manufacture. A 25c value, these trial packages are priced at only 10c—while the supply lasts.—Advertisement.
