NEW YORK, Feb. 11.—The stock market eased off fractions to a point in dull turnover Friday.

Railroad issues continued to feature the list. Toward the close several of them moved upward, notably Atlantic Coast Line which gained 2 points; Louisville & Nashville up nearly 2, and Pere Marquette prior preferred up more than a point. Others moved in a fractional range.

Leading industrials slipped back following release of the United States Steel Corporation unfilled tonnage statement for Jan. 31. That showed a wider than anticipated decline and brought moderate selling into steel issues. Other groups of the industrial list followed these shares down.

Gold Stocks Firm

Gold mining stocks, exceptional to the trend, gained with Homestake Mining reaching a new 1933 high. Lima Locomotive also was firm, spurring more than 2 points. Tobaccoes were weak. Utilities lost fractions to a point.

Volume decreased sharply on the decline today. Traders were of the opinion the list was due for a setback after four consecutive days of advance and without commitments on the long side. Shorts stopped covering.

Auto Sales Up

Other favorable items included firmer prices for steel scrap at Pittsburgh, a spurt in January sales of automobiles, improvement in sentiment in the oil industry and a substantial rise for bonds in January.
