

WAGNER RELIEF MEASURE PASSED IN SENATE, SENT TO HOUSE FOR APPROVAL

Hoover to Get Bill in Short Time if Democratic Leadership Gives Indorsement; La Follette Plan Loses.

BY RUTH FINNEY
Times Staff Writer

WASHINGTON, Feb. 21.—Enactment of relief legislation depended today upon the house. The senate and President Herbert Hoover are both on record for it.

The Wagner relief bill, approved by the senate, 53 to 16, late Monday, will be referred to the house banking and currency committee for study.

If the Democratic leadership favors it, it can be passed quickly and sent to President Herbert Hoover for signature well in advance of the last minute rush of business on March 4.

Speaker John N. Garner has not expressed his attitude toward the bill nor said whether he will attempt to have it modified along the lines he advocated last summer. However, the strength of the Democratic support given the measure in the senate indicates enactment will be expedited.

Reject Direct Aid Plan

The senate rejected the La Follette-Costigan plan for direct relief, administered by a board appointed solely for that purpose, by a vote of 44 to 28 Monday.

Senators Edward J. Costigan (Dem., Colo.) and Robert La Follette (Rep., Wis.), both argued that continuation of the present loan plan administered by the R. F. C. "from the point of view of bankers rather than humanity" means continuation of relief on a starvation standard.

Few senators listened to their appeals, and the questions of those who remained were wide of the point under discussion.

After adoption of the Wagner substitute, under which another \$300,000,000 may be loaned to states and construction loan provisions are liberalized, the senate approved it 53 to 16.

Discuss Transient Problem

The Wagner bill provides \$15,000,000 to be given states for assistance to transients, either individually or in camps. A proposal by Senator L. J. Dickinson (Rep., Iowa), to eliminate this portion of the bill was defeated as was a proposal by Senator Henry P. Ashurst (Dem., Ariz.), to limit aid to American citizens.

Debate on these amendments disclosed that those senators who voted into the army bill \$22,000,000 for enrolling homeless youths in the C. M. T. C. expect that action to stand even though this substitute plan for transients becomes law.

Senator James Couzens (Rep., Mich.), who fathered the military camp project, indorsed the \$15,000,000, appropriation for transients as a supplemental measure to his.

Glass Assails "Raids"

During discussion of the loan provision of the Wagner bill Senator Huey Long (Dem., La.) announced that Louisiana does not intend to repay amounts the state has borrowed from the R. F. C.

Senator Carter Glass (Dem., Va.) denounced all federal relief measures, including loans for construction, and demanded that "raids on the federal treasury" stop. Glass recently has declined to become secretary of the treasury in the Roosevelt cabinet.

STATE'S HIGHEST COURT SUSTAINS DEATH RULING

Life Imprisonment Verdict in Another Case Is Reversed.

Two murder verdicts, one sustained and the other reversed, were acted upon by the Indiana supreme court Monday afternoon.

The death penalty for Walter Carlin, sentenced in Jefferson circuit court for the murder of a Madison policeman, was sustained. He will be executed May 19, unless executive clemency is extended. The high court suggested a mental test. Verdict of the Decatur circuit court in sentencing Michael Powers, Greensburg, to life imprisonment for killing a neighbor, William Fuks, in 1928 was reversed. Powers alleged he shot in self defense, following a fight with croquet mallets which started over parking of a car.

THIEF MAKES GETAWAY

Flees on Foot When Car Crashes in Flight From Police.

Leaping from a stolen auto after the rear glass was smashed had been shattered by police bullets and it crashed into a utility pole at Bright and Kinney streets early today, a Negro thief escaped capture. Cruising in vicinity of Walnut and Locke streets, Sergeant Kent Yoh and squad sighted the stolen auto. As the police car approached, driver of the stolen car sped away.

Two revolver shots were fired, the bullets passing directly above the steering wheel and piercing the windshield. The auto then veered to the side of the street, hopped a curb and crashed into the pole. The driver fled.

The car is the property of H. Hill, 30 North California street.

NAB BURGLAR SUSPECTS

Confessions Are Claimed by Police in Four Robberies.

After admitting looting of three stores and a filling station within last few weeks, according to police, three Negroes are held today on burglary charges.

They are Otho Haymer, 17, of 2309 Indianapolis avenue; James Bennett, 19, of 729 West Twenty-sixth street, and Thomas Whitlock, 18, of 438 West Fifteenth street.

SALSBURY RITES SET

Labor Union Secretary to Be Buried Here on Tuesday.

Funeral services for Emil Salsbury, 64, secretary of the Central Labor Union, who was found dead in bed Saturday morning, were to be held at 2 o'clock in the Assumption Catholic church.

Only survivor is the widow, Mrs. Nellie Salsbury. He was a member of the Fraternal Order of Eagles and the Indianapolis Saengerbund.

Amendment Is Proposed to Slash Working Hours

SHAPELIEST IN ITALY

Present 30-Hour Bill Is Likely Unconstitutional, Is Fear.

By Scripps-Hoover Newspaper Alliance
WASHINGTON, Feb. 21.—Determined efforts to write into the Constitution an amendment giving congress the power to reduce the number of working hours for labor will be made in the next session by a group which for two years has been advocating this reform.

Support of President-Elect Franklin D. Roosevelt will be sought for the measure which, its backers contend, would correct much of the unemployment and over-production resulting from the introduction of high-speed machinery into industry. The amendment is advocated by Representative Robert Crosser (Dem., O.), who has devoted himself to labor legislation for eighteen years and who, with Senator Key Pittman (Dem., Nev.), is author of a bill providing for a six-hour day and thirty-hour week for railway employees.

The house labor committee has reported a bill establishing the six-hour day and five-day week for all industries whose products enter interstate commerce. Advocates of the constitutional amendment contend such legislation would be unconstitutional under the 5-to-4 decision of the supreme court which held invalid the child labor act forbidding interstate shipment of goods made by children.

The house labor committee has reported a bill establishing the six-hour day and five-day week for all industries whose products enter interstate commerce. Advocates of the constitutional amendment contend such legislation would be unconstitutional under the 5-to-4 decision of the supreme court which held invalid the child labor act forbidding interstate shipment of goods made by children.

Carefully Planned Robbery Is Executed by Pair.

Police were searching today for two bandits who executed a carefully planned robbery Monday at the Paramount theater, 411 East Washington street, and obtained \$266 from Louis Markun, operator. First report of the robbery was received when Markun reported the disappearance of the money from the theater office after he and Robert Thomas, Negro custodian, went to investigate a noise in the rear of the building.

Police investigated but found no trace of the bandits. Telephone wires in the office had been cut. After police had left, Markun said he opened a closet in the office and was confronted by two men, one of whom carried a revolver. The men warned Markun against making an outcry and fled.

Hangs Self at Hospital
Using a belt, Oliver Haines, 52, of 33 North Traub avenue, committed suicide early today in the city hospital psychopathic ward by hanging himself on a barred window. He had been under observation of physicians for a week.

GOES ON TRIAL AFTER 9 YEARS

'Confession' of Stepfather in Murder to Be Feature of Case.

By Times Special
GREENFIELD, Ind., Feb. 21.—Defense witnesses were to testify today at the trial of Charles J. Schmitt, charged with a murder committed nine years ago, who is attempting to prove that his stepfather, who since has died, was the slayer.

Attorneys will plead that Schmitt was insane at time of the slaying of August Spiker at the latter's secluded farm near Gem in 1924.

They also will present a purported confession of the murder by Albert Schmitt, the stepfather, shortly before he died in 1925.

Charles Schmitt was arrested shortly after Spiker was killed and was committed to the state prison insane colony. He must face trial now that physicians have pronounced him cured of the mental ailment. He has served almost nine years in prison.

"Careful Women Save Best When They Buy BOND BREAD"

says Mrs. Dorothy Ayers Loudon
at the
Indianapolis Times
Cooking School

"BOND BREAD is the best bread I have ever used, in my lectures as well as in my home. It is the most economical, too.

"Compare the taste of Bond Bread with that of other loaves. You'll find Bond so delicious and home-like that every last morsel of it is eaten. None of it wasted.

"Compare the firm texture of Bond with that of any ordinary loaf. You can see at a glance that every slice of Bond contains much more nourishment and substantial food value. There are no air holes to waste both bread and butter—no wasteful crumbling.

"And then of course there is vitamin-D—the scarce and important vitamin that helps build fine, firm teeth and strong bones.

How Science has bettered the best bread

"All nutritional authorities agree that everyone needs vitamin-D to help the minerals in our diet in the process of building good, hard, trouble-free teeth and strong, well-formed bones. Most foods do not contain this scarce vitamin at all! The few that do, don't contain anywhere near enough.

"So science searched and found the method of incorporating vitamin-D in bread—and delicious, home-like Bond Bread was selected to bring you this added food value, never before contained in any bread.

"Two slices of Bond Bread each meal provide the extra vitamin-D you need. This statement is approved by the American Medical Association, Committee on Foods."

Ask your grocer for sunshine vitamin-D Bond Bread, fresh twice daily.

CITY WOMAN HANGS HERSELF WITH BELT

Succeeds in Second Suicide Attempt of Day.

Making a second attempt to take her life, Mrs. Willa Woodfin, 52, of 2811 North Illinois street, hanged herself with a belt attached to a light fixture at her home Monday night.

Early Monday, Mrs. Woodfin used a pair of silk stockings in an attempt to hang herself, but was halted, her husband, Dr. William Woodfin, teacher in the College of Divine Metaphysics, told police.

The body of Mrs. Woodfin, who is said to have been despondent since suffering a nervous breakdown, was found by Miss Nellie Hurley, the housekeeper. Miss Hurley called Dr. Woodfin, who cut down the body.

Deputy Coroner John E. Wyttenbach, who investigated, ordered the body sent to city morgue.

Amendment on Child Labor Still Has Chance to Be Law

Organized Unions Making Particular Effort to Persuade Legislatures to Ratify Measure.

By Scripps-Hoover Newspaper Alliance
WASHINGTON, Feb. 21.—The child labor amendment, just ratified by the Oregon legislature, again has a chance to become part of the Constitution.

Organized labor is making particular efforts this year to have the amendment considered favorably by state legislatures.

Elimination of child labor is part of its general program, along with the short work week and old age pensions, designed to make work available for heads of families.

With Oregon added, the list of states ratifying the amendment numbers seven. Twenty-six states have refused to ratify. Fifteen others have taken no action.

Following a court ruling that a state may change its position on an amendment, a drive for ratification has been started in Minnesota, one of the states which acted unfavorably in the past.

Labor will continue its fight as long as legislatures remain in session, counting on changed economic conditions to bring about more favorable consideration.

The child labor amendment was submitted to the states in 1924. No time limit was fixed in which it must be acted upon.

States which have ratified it are Arizona, Arkansas, California, Montana, Colorado, Wisconsin and Oregon.
