Ice Cream  
is a Health  
**FOOD!**

Let the  
Kiddies have  
a plate every day

What could be better for the Kiddies than a big dish of delicious wholesome Ice Cream served right in the home, too. Its nutritious value is very important to the growing child, besides leading dietitians recommend Ice Cream at least once a day.

**Dorothy Ayers Loudon**  
Says About Ice Cream

There is nothing of higher food value than ice cream, says Mrs. Loudon. My experience with the vitamin content of different desserts has convinced me that the wholesome purity of ice cream, especially the Furnas quality, is beneficial for the whole family.

**Delicious Coffee**  
at The TIMES Cooking School"

"YESTERDAY, Mrs. Loudon told me Indianapolis women were fortunate in being able to get such a perfectly delicious coffee at such a popular price.

"She said that KO-WE-BE Blend gives you FRESHER coffee in the can because it is roasted and packed right here in town. And it gives you RICHER flavor in every cup because it is a perfect blend of only the very finest coffees.

"I served it at dinner last night, and every one commented upon its extra-mellow flavor, as you did just now."

Used Exclusively at This Cooking School

Mrs. Loudon Says—

For those who desire to serve out of the ordinary fancy fruits, I can truthfully recommend H. G. Prince's Finest as the finest flavored and richest in deliciousness I have ever tasted. Large, uniform, halves or slices in extra heavy syrup—they simply can not be surpassed.

At the crossroads of the nation—where Meridian and Washington Streets meet.

Just a step off these busy streets—half a minute in the elevator—and you're in our large, sunny dining-room with its wholesome well-cooked food at moderate prices.

Every few days one of our "Regulars" asks us to prepare some old fashioned, or perhaps entirely new, dish. One wanted to see if our cream pie "tasted like it used to at home." And, when he had tried it, vowed it had brought back memories of his childhood.

We delight in old-fashioned recipes—materialized in our modern kitchen, after the most approved domestic science methods.
