

## 815 REGISTERED FOR WORK WITH FOREST ARMY

Enlistments Here Nearing County's First Quota of 980 Men.

Majority of the 815 men registered at noon today for Marion county's "forest" battalion have been accepted tentatively as recruits.

Final decision on one-seventh of the applications, found to be wanting due to failure to have families on relief rolls, will be made later. Many of the doubtful applications, presented at the enrollment headquarters in Tomlinson hall, will be accepted.

Before the registration office closes this afternoon, the county's army in the campaign to end unemployment through government-paid forestry work is expected to reach 850 recruits.

### County Quota Is 980

The county quota is 980. Checking of registrations is being hurried by relief agencies of the city. Officials expect a call from the United States army to send the county quota through recruiting stations for physical examinations and final checkup.

Each "forestry" private must be between the ages of 18 and 25, and his family must be on relief either county or private charity. After the applicants pass physical examinations at army stations they will be sworn in and sent to Camp Knox, Ky., for physical reconditioning before they are put to work for six months in forests of Indiana.

Open 8:30 a. m. to 3 p. m.

Weight and softness of muscles will not be factors in the physical examination. Communicable diseases will be the main guards of the examinations.

It is planned to continue the registration of recruits at Tomlinson hall after the county's quota is obtained.

Possibility of some registrants being dropped will make way for late-comers in the woods army.

The registration booths are open between the hours of 8:30 and 3 daily.

### 'CORPORATION LAWYERS' FLEAILED BY JUDGE COX

Individual Attorney Is Lauded in Address to Association.

Enactment of legislation which would prevent corporations from practicing law was urged by Circuit Judge Earl R. Cox Saturday night in an address before the Indiana Women's Lawyer's Association at the Columbia Club.

"The individual lawyer has the interest of the community at heart, and the community comes to him in time of trouble," Cox said. "This does not hold true of the employee of a corporation, who does not know the client."

He urged the association to "foster responsibility on the part of the public toward the lawyer."

## Singin' Sam recommends these Blades

TAKE a friendly tip from your old friend, Singin' Sam, there's no way to remove last night's crop of whiskers like a shave with a BARBASOL BLADE. This blade is made of genuine tool steel, folks, the product of a firm that's been makin' precision instruments since Hector was a pup.

Every blade is sharp as a surgeon's scalpel. Every blade snicks through whiskers like a scythe through young asparagus. All you need to enjoy a head barber shave in your own bathroom is a three-post razor and a BARBASOL BLADE. We made this blade with three holes in it because that's the blade that sits tightest in a holder. If you haven't got one, never mind. BARBASOL has one all ready waitin' for you together with a pack of five blades, for 35¢.

## STIFF BATTLE TO BE FOUGHT ON 30-HOUR BILL

Some Alarmed Industrial Leaders Seek to Save Old System.

BY WILLIAM F. KERBY

United Press Staff Correspondent

WASHINGTON, April 24.—Alarmed industrialists and a thoroughly aroused house minority today joined forces for a stand against the administration's proposal for federal supervision of industry.

The Black-Connery bill, revised to meet White House specifications, comes to its crucial congressional test this week. Tuesday, hearings begin before the house labor committee which may well decide the economic course of the nation.

The proposal:  
1. A thirty-hour week, six-hour day for all industry to make more jobs.

2. A minimum wage for all workers to raise mass purchasing power to the highest possible level.

3. National regulation of production to equalize units within an industry; reduce the huge surpluses which have crowded markets and sent prices to ruinous levels; and maintain employment at a stable level.

Democratic leaders, still amazed at the unparalleled scope of the administration's recommendations, loyally prepared to push the bill.

They conceded the pressure against it was terrific. They are convinced the measure will produce

## EASTMAN HEIR PLEADS POVERTY

George Eastman Dryden of Chicago, who received a \$100,000 trust fund from the estate of his grand-uncle, the late George Eastman, camera manufacturer, has pleaded poverty in answer to his wife's suit for temporary alimony of \$250 a week for herself and two children. The Drydens are shown above as they appeared in court.

the high-water mark of opposition to the Roosevelt program.

Leaders of the great expansionist era in American business were called to give their views to the house committee. Among those who may testify are Henry Ford, Alfred P. Sloan of General Motors, and General Swope of General Electric. Organized labor will be consulted in the person of President William Green of the American Federation of Labor.

## YOUNG BEAUTY'S DEATH PROBED; JURY IS CALLED

Sweetheart Is Summoned to Quiz: Drowning Not Cause, Is Claim.

By United Press

CHILLICOTHE, Ill., April 24.—The mysterious death of Lola Wells, 20, winner of beauty and personality contests, today brought an autopsy on her body, recovered from the Illinois river almost two months after she disappeared.

A coroner's jury was called in the case today. The young woman, a student nurse at Bloomington, Ill., disappeared Feb. 27 and no trace was found until her body was recovered here last week.

An examination indicating drowning was not the cause of death, started the inquiry.

Mac Lockerbitt, sweetheart of the girl, was asked to appear at the inquest after Kenneth Wells, her brother, told authorities there had been a lovers' quarrel on the eve of his sister's disappearance.

Lockerbitt denied the couple had quarreled. Miss Wells had been voted the most beautiful girl in her high school class, and also won a personality contest.

## WAY BACK WHEN—

License Tag for Automobiles Used in 1909.

A metal disk two inches in diameter was the license tag used on automobiles in Indiana in 1909. The tag cost \$3 and was good for one year.

The tag pictured is owned by A. D. Perkins, 73, of 1383 Nordyke avenue, and was issued for a Leader automobile, which was manufactured at McCordsville, Perkins, then a resident of Fortville, where he was engaged as a tinner, made gasoline and water tanks for the Leader cars. Prices of the automobiles ranged from \$1,500 to \$1,700.

Motor of the Leader was under the front seat. Spare bearings were always carried, as they were burned out frequently. A motorist could replace a bearing in about twenty minutes. Top speed of the car was twenty-six miles an hour.

### Safe Blasted and Robbed

Yegmen blew open the safe at the G. L. Paetz & Sons Upholstering Company, 321 South Alameda street, and obtained about \$75 in a week-end burglary. Leonard Paetz, member of the firm, said a basement window was shattered and a steel door jimmied to gain entrance to the safe room.

## METER READERS GET WARNING

Enter Homes by Pass Keys by Owners' Permission Only, Is Order.

Meter readers of the Citizens Gas Company have instructions not to enter homes with pass keys without permission of owners. Clarence L. Kirk, manager, said today following complaint of such an incident made by an Indianapolis minister.

The complaint was made by the Rev. F. A. Pfeiderer, 3246 MacPherson street, who said a meter reader unlocked the door of his home, during the family's absence. He learned of the entry, he said, through a laundry driver who was let into the house by the meter reader to deliver a package.

It is the practice for gas company meter readers to enter several hundred homes each month, using pass keys where occupants are absent, but only when permission has been given.
