Volstead Gets Plea to Lead Repeal Battle

Andrew J. Volstead

By Times Special
MINNEAPOLIS, April 27.—The call to arms has come again to Andrew Volstead, author of the Volstead act and long-time prohibition champion.

Allied dries, meeting here, today called on Volstead to lead a special drive to defeat repeal at Minnesota's election on September 12.

Volstead has been legal adviser for the Minnesota prohibition department. If he decides to accept the dries' plea, it will be his first political appearance since he was beaten for re-election to congress in 1922.

'PRESSING' OF YOUNG ATHLETES ATTACKED

Damage Done by Coaches,
Coulter Hints.

If students in Indiana's high schools and colleges are wise, they will follow advice of Stanley Coulter, Purdue university dean emeritus, and have a standing excuse for sleeping through boresome classes.

Pointing to the pressure a student, especially the athlete, is subjected to by teachers and coaches, Coulter told the Student Health Association at its annual meeting at the Lincoln Wednesday.

"It is no wonder that a student now and then falls asleep in the classroom. The damage was done to many students before they reached college age."

Dangers of athletic heart among students was minimized at the health conference.

Dr. Paul S. Williams of Ball State Teachers' college, who reviewed 500 cases, said the real damage is caused by students entering athletic competition too soon after being ill.

Under these conditions the heart may develop acute dilation, he explained.

Mr. Fixit

Write your troubles to Mr. Fixit. He is The Times representative at the city hall and will be glad to present your case to the proper city officials. Write him in care of The Times giving your full name and address. Name will not be published.

Mr. Fixit—I am an amateur gardener and have a surplus of flowers and plants which I would like to sell on my own grounds or direct to some store. Is it necessary for me to apply for a license or comply with any city regulations to do this?

Captain Otto Ray of the license department rules that no license is necessary if sales are conducted in this manner.

Mr. Fixit—A light is needed between Twenty-second and Twenty-third streets on Bellefontaine street where the street jogs, making it dangerous for motorists. Will you please investigate this?

John Noonan, light inspector, said it will be necessary for him to have a petition before installation. Please state location of the light where it is to be placed. Permission of the property owner also is needed.

Mr. Fixit still is receiving numerous queries regarding reopening of Lowell avenue in the 5800 block which has been under repair, because of a cave-in.

Wilbur Winslow, street commissioner, announces that the street can not be opened for an additional ten days, because the dirt fill-in is still settling.

Mr. Fixit—Will you have the proper department clean up the alley between Tenth and Eleventh streets from Central to Park avenues. It is a paved alley and has not been cleaned for a long time and is in terrible shape.

A crew will be sent to clean this alley this week and all rubbish will be removed by the street department.

Mr. Fixit—We are in need of having the alley between Emerson and Leland avenues repaired. When it rains the mud is terrible.

An inspection of this is to be made immediately by the street commissioners' office. Necessary action to rectify the situation will then follow.

Mr. Fixit—Will you please give us assistance in getting cinders placed on Glenn drive between Adams and La Salle streets and in the alley in rear of 2360 Adams street. They are almost impossible in wet weather.

The cinder crews of the street commissioners are swamped with requests of this nature, due to the recent heavy and prolonged rains. However, they now are placing cinders as rapidly as possible. This street will be filled within the next ten days.

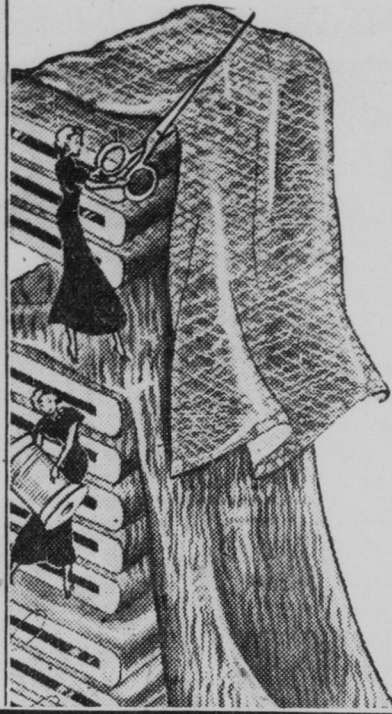

Mr. Fixit—Is it necessary to have both chauffeur's and driver's licenses. It is not necessary. The city license department holds greater liability exists under the chauffeur's license.

Mr. Fixit—There is an open toilet at 1139 Shelby street which has been reported to the health board by several people in the neighborhood, without results.

Permanent repairs have been ordered by George Taylor, city health board inspector.

Only One Petition Can Be Signed,
Says County Clerk.

Warning that individuals must not sign more than one petition of candidates for the prohibition repeal convention in June was issued today by County Clerk Glenn B. Ralston.
