

TROOPS RULE IOWA COUNTY; JUDGE PERILED

Prayer Saves Jurist From Mob, Bent on Lynching in Farm Revolt.

(Continued from Page One)

ley was jerked from the truck. One farmer took a hubcap from a truck and placed it on the judge's head.

"That's his crown," the farmer said, and a jeer went up.

The soft, black grease streamed down over the elderly jurist's face. A farmer picked up a handful of dirt and again asked Bradley to promise not to sign more foreclosures. Bradley refused, and the assailant slapped the grime on his face.

A noose was thrown about Bradley's neck, and over a pole. Several farmers pulled the judge from the ground, and help the rope taut until he collapsed. Then they lowered him.

After Bradley was revived, new demands for his promise were made. Bradley still defied the angry group, and was taken down the road to another utility pole.

The rope again was pulled taut about his neck as Bradley steadfastly refused to take the oath.

Back on the highway, the farmers commanded Bradley to pray.

"I'll do that gladly," he managed to reply.

Still blindfolded and with his face black with dirt and grease, the judge knelt in the dust and prayed: "Oh, Lord, I pray thee, do justice to all men."

Silence followed. For the first time the mob lost its nerve. The masked men rushed to an automobile and drove away. A minister picked up Bradley and brought him to Le Mars.

"I'm all right," Bradley said later. "I'd prefer not to discuss it."

Judge Bradley recently returned to the bench after a forced retirement, due to illness.

The farmers accused him of making an address before a bar association at Salt Lake City, Utah, referring to the farmers as "hoodlums." Judge Bradley denied making such a remark.

DRAIN OUT WINTER-MADE

... Refill with

ISO-VIS D

The New Anti-Sludge Motor Oil

Any good motor mechanic will tell you how sludge—that thick, gritty compound of dirt, moisture and broken-down portions of motor oil—forms faster in any crankcase during winter driving. Now's the time to drain it out... rid your crankcase of winter-worn, sludgy oil! Make way for something entirely new in motor oil... a motor oil that will not sludge... Standard of Indiana's new Iso-Vis "D"!

Start the heavier driving season a'fresh with this special lubricant that prevents dangerous re-formation of sludge between drainings. 1,267,000 miles of grueling road tests have proved that Iso-Vis "D" is a longer-lasting oil... the most economical fine lubrication you can buy. Try it!

If you like long words, read this—

Iso-Vis "D" is produced under totally new processes perfected by the Standard Oil Company (Indiana)—patents pending. These are the Propane Dewaxing Process, and the Chlorex Extraction Process for removing unstable and undesirable constituents present in all petroleum distillates. By these exclusive refining processes a new-type lubricant is produced with much higher resistance to oxidation and sludge formation than any motor oil has hitherto possessed. The new oil likewise is notable for improved viscosity-temperature characteristics, low pour point, minimum carbon formation, and great durability.

Trained Servicemen at any Standard Oil Station will drain out winter-made Sludge and refill with Iso-Vis "D". You'll be on your way in **8 SHORT MINUTES** (with a safer, sweeter-running motor.)
