

# ROBOT PILOT AIDS HAWKS TO NEW AIR MARK

New Nonstop Record Is Set in Dash From West Coast.

By United Press  
NEW YORK, June 3.—A robot pilot at the controls helped Lieutenant-Commander Frank M. Hawks set a new non-stop trans-continental air speed record of 13 hours, 25 minutes, when he swooped down at Floyd Bennett field shortly before midnight.

The veteran speed pilot bettered his own record by 4 hours, 12 minutes, made June 28, 1929.

But for head winds encountered all the way east from Kansas City he would have made even faster time, Hawks said.

He averaged 181 miles an hour in his fourteen-cylinder robot-controlled plane from Los Angeles.

The robot worked remarkably well, Hawks said. "The only trouble was that I got sleepy," he added. "But all-in-all it was a remarkable trip, and a remarkable performance for the mechanical man."

"All I had to do was to change the direction, occasionally, in accordance with my course. The robot maintained an even course with no variations whatsoever. The head winds were what held me back."

"I struck bad weather in the pass through the San Bernardino mountains. A dense fog made flying rather difficult. I was at the controls then, not the robot. I didn't hand the ship over to him until we were through that."

Hawks flew most of the time at an altitude of from 14,000 to 16,000 feet. His fastest speed was 260 miles an hour which was logged over Colorado.

## PLAN VACATION SCHOOL

Tabernacle Presbyterian Bible Classes Will Open July 12.

Vacation Bible school of the Tabernacle Presbyterian church, thirty-fourth street and Central avenue, will be held at the church from June 12 to July 1, with sessions each forenoon from 9 to 11:30.

The school will be open to all children between the ages of 4 and 14, regardless of church affiliations. Enrollment of 300 is expected. Curriculum will include music, dramatics, hand work, recreation and Bible study.

James B. Martin will direct the school, teaching staff of which will include Mesdames Harry Lane and Richard E. Sprague, Misses Dorothy Lambert, Katherine Price, Jean Lane, Charlotte Bruce, Virginia Habig and Mae Henri Lane.

## THREE HURT IN FIRE

Slightly Injured When Residence Is Destroyed by Blaze.

Three members of a family of four were injured slightly shortly before midnight Friday when fire destroyed a home at 2329 Reformers avenue.

Mr. and Mrs. John Williams and their sons, Albert, 17, and Raymond, 8, were awakened by the crackling of flames. Mrs. Williams was the only one to escape injury.

Williams incurred burns on the legs, Albert a cut on an elbow and Raymond, burns on the shoulders, arms and back. They left city hospital after receiving treatment.

Loss in the fire is estimated at \$800.

## TERRORIST MAY FLEE

Given the choice of leaving Cuba or facing a court-martial on charges of the murder of three guards of an American-owned sugar plantation, Major Arsenio Ortiz (above), favorite strong-arm man of President Machado, is reported planning to sail for Germany.

Reports link him with the summary execution of a score of persons who were only suspected of rebellious activities.

## POISON PILLS ARE FATAL TO CHILD

Boy, 3, Eats 75 Containing Strychnine Doses.

By United Press  
JEFFERSONVILLE, Ind., June 3.—Poisonous pills eaten by 3-year-old Oscar Smith in the belief that they were candy caused his death in Memorial hospital here Friday night.

Oscar Smith Sr., father of the boy, parked his delivery truck near his home for lunch yesterday.

The child, playing in the truck, ate approximately seventy-five pills consigned to a Jeffersonville druggist.

## G.A.R. Victory

Gov. McNutt Surrenders to Protests Over Plan to Move Office.

GOV. PAUL V. McNUTT, past national commander of the American Legion, has surrendered to the G. A. R.

When two leading Civil War veterans called on the Governor Friday afternoon to protest against the plan to shift their headquarters from the statehouse to the Soldiers and Sailors' Monument, the Governor capitulated.

The callers were David N. Foster, E. Wayne, and Joseph Henninger, who has charge of the statehouse office.

The Governor informed them that he thought the monument was a better site, but that they can stay in the statehouse as long as they like.

He also granted their request to retain Miss Mae Merrick as secretary in the office, rather than insist upon a Pleas Greenlee appointment.

## HONOR DEAN COULTER

200 Persons From 15 States Attend Dinner for Veteran Purdue Leader.

Two hundred persons, representing fifteen cities in Indiana, attended a dinner in honor of the eightieth birthday of Dr. Stanley V. Coulter, dean emeritus of Purdue university, at the Columbia Club, Friday.

Telegrams from all parts of the country hailed his career at Purdue beginning in 1887. Dr. Coulter retired six years ago after being successively head of the biology department, dean of the school of science, dean of men and chairman of the faculty.

Dr. Henry B. Ward of the University of Illinois paid tribute in a speech to Dr. Coulter.

## CIRCUS TO BE GIVEN

Sick and Crippled Children at M. E. Hospital to Be Entertained.

Miniature circus for the entertainment of sick and crippled children will be given on the Taggart Memorial pediatric floor of the Methodist hospital at 9:30 Monday afternoon. The event is sponsored by the Children's Cheer Guild, and will be under direction of Mrs. J. C. Myers, president of the Toy-makers' Guild, and Mrs. A. M. Vehleng.

**Ends Life With Poison**  
After telling a neighbor goodbye, Fred Oppen, 77, of 2705 Blvd avenue, locked all doors and windows of his home Friday night and ended his life by swallowing poison.

## Lottery Charge Is Faced

Charge of operating a lottery is faced today by Arch Grisel, 31, of 2144 North Talbot street, who was arrested Friday night by police who said they found fifty-nine books of baseball pool tickets in his automobile.

# NEW GAS WELL IS COMPLETED IN PIKE COUNTY

Project Has Daily Output of 147,000 Cubic Feet, Is Announcement.

A gas well with a daily output of 147,000 cubic feet and four oil wells with a total daily production of forty barrels were completed in Indiana during May, according to a report for the month by Paul F. Simpson, state gas supervisor.

Simpson announces appointment of William F. Connors of Vincennes as deputy supervisor for the territory composed of Pike, Gibson, Vanderburgh, Posey and Warrick counties, succeeding Claude Noble.

The gas well completed in Pike county. Two oil wells of five barrels each were completed in Perry county; 20 barrels in Vanderburgh county, and 10 barrels in Spencer county.

Report by counties is as follows: Delaware—W. T. Grossman is planning a test on the George W. Brunner farm at the edge of Royerton, Hamilton township.

Gibson—The Knox Engineering Corporation is nearing completion of the G. C. Sampson No. 2 in Columbia township.

Harrison—James Mahan is starting a test on the Lewis Gunter farm in New Middletown.

Huntington—Fred Brandt is drilling the William F. Clark No. 1 in Huntington township.

Marion—Sprull and others are drilling a third well on the John Larkin lease in Perry township.

Perry—The Anderson Creek Oil and Gas Company completed the Perry Andrews Nos. 3 and 4 in Clark township, making a 5 barrel well of each. Geo. Porter and others are down 465 feet in a test on the Kraus farm in Anderson township.

Pike—Dr. C. C. Talleferro completed a dry hole at 1,395 feet in the Charles E. Shaffer test in Washington township and has moved for a second well on the Human lease in Rush township. Others completed the Henry J. Miley No. 1 in Washington township, a production of 147,000 cubic feet of gas at Helen Smith No. 2, in the same township.

Smith No. 2 is drilling the William Smith No. 2. The Lewis Wells drilled by Harry N. Bell in Washington township, was drilled by Porter—V. S. Hollingsworth and others starting a well on the Kenneth Wolf land in Posey township.

Randolph—Henderson Brothers are drilling on the Alvilda Smiley farm in Jackson township.

Spencer—The Raymond Brett well drilled by E. M. Treat in Ohio township, was abandoned at 1,312 feet. The Santa Fe Oil Company's No. 2, on Grass No. 3 in Rush township, produced ten barrels initially from the Cunningham lease.

Tipton—The test drilled by the Coatsworth Oil Corporation, on the M. E. Church land in Tippecanoe township, was plugged at 865 feet.

Vanderburgh—The Nick Bassmeier test drilled by L. R. Henley in Perry township, was reported as having reached 1,126 feet. This is in wildcat territory west of Evansville and John Drake and others are drilling on the John and Mary Haffinger lease in Center township. Woods and Knapp are starting a second well on the right-of-way of the Southern Indiana Gas and Electric Corporation. The Maxwell Petroleum Corporation completed a twenty-barrel well in the John Hornby No. 3, in Center township.

Waco—A showing of gas was reported in the Niagara formation in the Dr. John Wilson test drilled by Person, Yeager and others in Prairie Creek township.

## EXEMPTIONS ON TAXES UNDER FIRE IN CITY

Realtors and Home Builders Protest Freeing Building From Levy.

Formation of a property owners' division of the Indianapolis Real Estate Board and reassessment of all buildings and real estate in the mile square were recommended at a joint meeting of realtors and home builders Friday.

The group, under the chairmanship of Albert E. Uhl, state realty association president, also recommended legal test of the state tax board's action in exempting from taxation the Odd Fellows business block, effective next year, because it is owned by a fraternal order.

The group has made a study of a number of income-producing properties exempted from taxation because they have been designated as charitable or educational institutions by the state tax board.

## Conservation

# Sewage Disposal Solves State Stream Pollution

This is another of the weekly articles on conservation, by William F. Collins, whose hobby is preservation of Indiana's natural resources.

BY WILLIAM A. COLLINS  
Times Special Writer

THE answer to stream pollution is sewage disposal. Immediately I hear voices rising to protest the cost.

Every benefit we receive in this life costs us money. The more intimate the benefit, the more alert we become to pay out our money for it.

For that very human reason, we find ourselves obligated to pay a monthly stipend for our home and food, for our clothing and our utility services.

We pay, not always gladly, our water, electric and gas bills. I have not found one person in the thousands who cares a whoop what becomes of the water he has used after it vanishes down the dark hole in his plumbing system.

There is where the rub starts. There are many, many people who become affected personally and intimately with that waste water after it has left your home. If you happen to be an outdoor hobbyist, your walk beside the peaceful stream is terminated by some indescribable odor; your fishing trip either results in a water haul or a basketful of carp; your swimming party winds up with a bad attack of sinus infection; your boy's or girl's trip affords brings a hurried call for a doctor and para typhoid inoculation, if not too late.

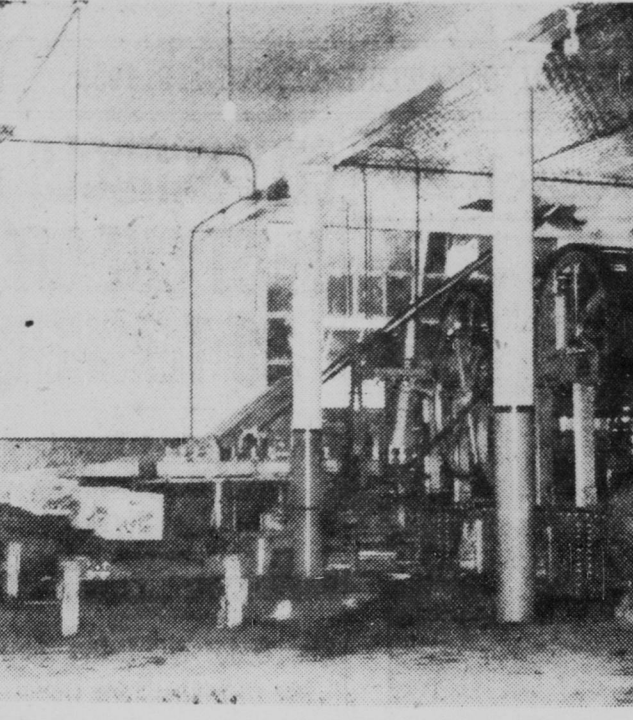

The cost of the average adequate sewage disposal plant, I am told, is not much in excess of the cost of the sidewalk in front of your lot and who among us denies himself that luxury? If we pay the sidewalk cost willingly to keep our shoes clean, we can be as willing to keep our state clean and our waters pure. In the long run, most of us will find more good fun in the open beside a stream or lake of sweet water than can be found on a city sidewalk.

Sewage disposal is a personal service and can be paid for as such the same as we pay our water bills. The more water we use, the more sewage we create. The charge for the service is like the tax we pay to drive our car. The big truck pays more tax because it uses more gallons of gasoline.

The big factory will pay more tax

# Manufacturers and Retailers Review

FIRST BREW MADE HERE IS DELIVERED

Pictured above are the first cases of Maudner beer coming off the rack at Indiana Breweries, Inc., the only brewery operating in Indianapolis. The brew has been aging in vats for months and first deliveries were made May 29. Latest type bottling machinery can also be seen. Present capacity is 2,700 cases daily and 125 people are employed.

Plant facilities will be increased and by Aug. 25 full production of 5,400 cases daily is anticipated, with approximately 200 people on the pay roll.

John Geisen, brewmaster at the old Indianapolis brewery, who won the gold medal for beer making at the Paris world's fair in 1900 and also at the world's fair in St. Louis in 1904, is in charge of production.

## Antlers Offers Summer Resort in Heart of City

# POLAR ICE OF BEST QUALITY

Distilled Water Is Used in Product; Plant Is Modern One.

Many people take the things they have for granted and never give a thought as to how they could do without them. Take ice, and figure what it would mean to be without it. Here is a material delivered to us every day which makes hot weather bearable, which preserves our food so that it is safe for us, and which furnishes us cool refreshments on demand.

If no ice were available, the discomforts of summer would be multiplied, the provision of the family meals would be complicated, and a big share of our summertime pleasure and comfort would be impossible.

There are decided advantages in using ice for refrigeration in the home. Economy is one of them. The first cost of a good refrigerator is not high, and with a good refrigerator the family ice bills are low.

The Polar Ice and Fuel Company, 2000 Northwestern avenue, has one of the most modern ice manufacturing plants in the country. Unusual care is taken to insure the highest degree of purity in its ice. The crystal clear appearance of its product is obtained by using distilled water, the most healthful form, for it does not contain mineral or organic substance.

The Antlers also has a beautiful Egyptian, all-marble swimming pool, for use of guests. Clear filtered water constantly is changed, and individual lockers are provided. For those who like to bowl, the hotel has eight modern bowling alleys. There also is a Turkish bath, with an expert masseur in attendance.

The Antlers Coffee Shop steadily is gaining a reputation as an excellent place to eat. The food is unusually good, and the service is prompt. An appetizer bar, a European feature, rapidly is gaining favor. Whenever a taste is desired of the many delicacies, guests may help themselves and no extra charge is made. Prices are reasonable.

On the mezzanine is the Tally-Ho room, one of the state's most popular night clubs. Delicious dinners are served without cover charge between 6 and 9 p. m. Every night four star vaudeville acts are staged in addition to dance music by Lew Davies and his orchestra.

Manager R. I. Griffith has used every facility to make guests feel at home and at the same time give the Antlers hotel the atmosphere of a fine club.

Several changes on the Methodist hospital staff were announced today. Miss Mabel J. Rue, science instructor in the school for nursing, is leaving immediately to accept a position at the University of Colorado at Greeley. Miss Orpha Kendall, practical instructor in the nursing school, will enroll in Columbia university for a summer course. Miss Nettie Burkholder, educational director in the nursing school, will spend the summer vacation at her home in Topeka, Kan.

# HIGHER RATING IS INDIANA LAW SCHOOL'S GOAL

Grade A Standard Sought; Enrollment Record Established.

Seeking to acquire the grade A rating as set by the American Bar Association, trustees of the Indiana Law School have announced new standards of entrance requirements at the school.

The recent decisions of the trustees include one year of college training along with a complete high school course. Another principal change effected is in the term of the school. Heretofore, three semesters have been given, but with the new ruling two will be substituted, with a more lengthy discussion on important law subjects.

According to demands of the bar association, a full time instructor must be employed. This also will be accomplished when the new term opens.

## Hope for Progress

It is the hope of the trustees that the educational requirements for the school gradually will be increased until the grade A rating is attained. In the near future, additional full time faculty members will be added to the staff.

In the past the school always has operated as near as possible to the grade A rating, and many students have been graduated from the law course and have become successful members of the legal profession. However, with the above changes, it is hoped the school will be reorganized as one of the best in the nation for a complete law course.

With start of the fall term, the changes in the system of study will follow that of the leading law schools in the country. According to school officials, a record has been established for enrollment. A three-year course is required.

Sixteen in Faculty

The faculty now consists of sixteen members of the law profession in the city. Much time has been devoted to the practical training of students as well as to the training of law. The school is located on the sixth floor of the Insurance building, on the northeast corner of Market street and Monument circle. Members of the board of directors consist of Dr. M. L. Haines, president; Hilton U. Brown, James M. Caden, and Lewis B. Ewbank. Henry M. Dowling is chairman of the executive committee and has been in actual charge since the death of Dean James A. Rohbach.
