

NICHOLSON TO SPEAK AT FAIR ON INDIANA DAY

Elaborate Plans Made for Hoosier Celebration July 13.

BY MRS. MAURICE MURPHY
Times Staff Writer

CHICAGO, June 26.—Merle Nicholson will be the principal speaker on Indiana day at a Century of Progress here July 13.

Elaborate preparations are being made for the day which will honor Indiana and the Governor and Mrs. McNutt, by Richard Lieber, director of Indiana's commission to the exposition; Wallace Richards, in charge of the Indiana building; Mrs. Chalmer Schafer of Leesburg, grand president of the Tri Kappa sorority; Mrs. Merrill Davis of Marion, and other Tri Kappas, "the powers that be" at the exposition, and all who will participate in arrangements for the event.

It is planned that the Indiana day ceremonies will start in the afternoon and continue into the evening. Luncheon will be served at 2 p. m. at the Pabst Blue Ribbon casino, on the island, for the Governor and first lady, and for all Hoosiers who desire to attend, the restaurant being closed to others after this hour.

Parade Is Arranged

At 2 p. m., too, the orchestras which will come from Indiana for the occasion will tune up in the Court of States, as the parade starts from the Fourteenth street entrance of the fair. The parade, headed by a band, will march down the Avenue of Flags, around the Hall of Science, down Leif Erickson avenue to the Twenty-third street bridge and across the bridge to the Pabst casino, where Governor and Mrs. McNutt and the other Indianaans will join the procession to go to the Indiana building.

A battery of field artillery and a detail of infantry, stationed at the fair grounds, will form, facing the lake, give the gubernatorial salute of eighteen guns, and then sound the bugles and drums from the time the Governor and his party start from the Indiana building until they reach the rostrum of the federal building, from where Governor McNutt will speak.

Governor and Mrs. McNutt will lead the procession, which will march down an aisle of ribbons, held by members of the Tri Kappa sorority. The aisle will extend from the Indiana building to the Federal building. In the procession will also be maids of honor, chosen from sorority members and the notables of the day.

Lieber, Dawes to Speak

Other speakers, besides Nicholson and McNutt, will be Lieber and Rufus C. Dawes, president of a Century of Progress, who will greet the Indians.

In the evening, from 9 to 11, a formal invitational reception will be held in the reception room of the Federal building in honor of Governor and Mrs. McNutt and for the writers, commissioners and other Hoosier celebrities here for the celebration. Mrs. Schafer and the Tri Kappas are in charge of plans for the affair.

During the reception and all during the day and evening, the Indiana building will remain open to give all Hoosiers an opportunity to visit the Indiana exhibit.

AWAIT FUNDS FOR CAMPS

Reserve Officers Not Informed On Ft. Knox Period.

Approximately 1,700 reserve officers of Indiana and other states in the Fifth Army corps area are wondering today whether they will obtain their customary training period at Ft. Knox July 1.

While a program similar to last year's has been prepared, there has been no allocation of funds and no intimation of when any will be made, although the army fiscal year begins July 1.

Three hundred thirty officers now are at Ft. Knox on this year's funds. States in the Fifth corps area are Ohio, Indiana, West Virginia and Kentucky.

FARM ACT TO BE APPLIED TO CHAIN GROCERY

Preliminary Conferences to Assure Protection of Consumers Held.

BY MARSHALL MCNEIL
Times Special Writer

WASHINGTON, June 26.—Preliminary conferences to bring chain grocery stores in under the agricultural adjustment administration so their price schedules may be adjusted for the benefit of producers of foodstuffs are being held here.

Meanwhile, administrators of the farm relief act have selected Frederick Howe, well-known economist and former United States immigration commissioner to advise them in protecting consumers in connection with all marketing agreements under the new law.

These agreements are similar to those proposed by industry to Gen. Hugh Johnson, administrator of the national industrial recovery act, and plans have been made to have the agricultural codes conform with the industrial codes in all essentials, including wages and hours.

Maintain Competitive Status

The course of the chain store agreement still is in doubt, this being one of the most intricate problems now confronting administrators George Peek and Charles Brand.

But the latter intends that the marketing agreement finally reached shall be so framed as to not injure the competitive positions of either the chain stores or their independent rivals, and that more income for producers and manufacturers of foodstuffs will result.

It will be Howe's job to see that in such agreements prices to consumers shall not be raised to exorbitant levels. There will be a similar set-up under the national industrial recovery act, to protect consumers of industrial products.

Labor to Be Protected

As the new week began, further corroboration was given of the report that the agricultural adjustment administration intends to pro-

tection labor in approving any marketing agreements.

Food industries which believe they can be relieved of the pressure of the anti-trust laws without meeting labor requirements as to wages and hours of work, will find themselves mistaken.

Although the farm relief act contains no labor provisions, there is wide opportunity in the law for writing regulations to be met by those seeking marketing agreements, and it is the intention of the administration to write labor requirements into their regulations.

But even if this were not done, there is authority in the national industrial recovery act permitting President Roosevelt to delegate such power to the administrators of the farm act.

It will be Howe's job to see that in such agreements prices to consumers shall not be raised to exorbitant levels. There will be a similar set-up under the national industrial recovery act, to protect consumers of industrial products.
