

CITY MARBLES CHAMPION WINS DIVISION TITLE

Billy Dyer Bests Chicago
Rival in National
Play at Fair.

BY FLOYD BAKER
Times School Page Editor

SOLDIERS FIELD, CHICAGO, June 28.—Playing headsup marbles from start to finish, Billy Dyer, Indianapolis city marble champion, nosed out Bennie Apa, west side, Chicago, in a closely matched play-off for the central league championship today.

Billy started out fast, winning two games from Howard Van Vorhis of the St. Paul area. He also won two games from the west side leader, who at the close of Tuesday's play had a score of 15 won and 7 lost. The scores were 7 to 6 and 7 to 4.

Billy tied for the lead when Apa lost two games to William Herbst, of the Ft. Wayne area. Billy then played Herbst and split, going back to second place.

Leslie Dillman, Kokomo, who had not yet shown up, appeared, and played each of the other four players. Billy gained the right to meet Apa, when he came from behind against the Kokomo player with a score of 3 to 6, and won out. Apa previously had lost one game to the St. Paul area champion, after winning the first.

Protest Is Upheld

The Times correspondent, accompanying Billy then made an official protest against a Chicago official for the game, and after much discussion and argument, the rules committee voted three to one for a neutral official. Only person against the change was Stewart Lowe, member of the committee, in addition to being Apa's coach.

Miss Gladys Ellerman of Louisville was selected as referee and play began.

Billy won the lag in the first game and hit the first marble. Apa then hit one and Billy came back to hit another and stick in the ring, where he knocked out four marbles. The game ended a few shots later with the score 7 to 3 for Indianapolis.

Second Game: Bill won lag, and the game sawed until the count stood 4 to 4, when Apa stuck in the center and took the game.

Third Game: Apa won the lag and both boys being nervous, both missed several set-up shots. The score ran up to 4-all, when Billy stuck to the center and won, 7 to 4.

Won 20, Lost 7

Winning of the final game gave Billy a total of 20 won and 7 lost for the league play. He will receive a \$50 watch as his prize. Apa, after losing, was heart-broken and cried. Billy, in sportsmanship manner offered his sympathy.

A protest was set up immediately by Lowe, against Billy's age, and a wire was sent to Indianapolis to determine his exact age.

semi-final play will start at 9 Thursday. Drawings will be held at the banquet in the La Salle hotel tonight.

**GEORGE W. MITCHELL
DIES: FUNERAL SET**

City Resident, 84, Was Clothing Firm Salesman 25 Years.

George W. Mitchell, 84, a resident of Indianapolis for seventeen years, died Tuesday night at the home of his daughter, Mrs. Lon J. Applegate, 423 South Hamilton avenue.

Mr. Mitchell had been a traveling salesman for twenty-five years for the Falls City Clothing Company, of Louisville.

He is survived by four children besides Mrs. Applegate. They are Mrs. F. E. Bottorff, of Charleston, Ind.; E. C. and W. C. Mitchell, of Akron, O., and C. H. Mitchell, of Jeffersonville, Ind.

He was a member of Scott Lodge, F. and A. M., of Austin, Ind. Funeral services will be held at 1 Thursday at the J. P. Wilson funeral home, 1230 Prospect street. The body will be taken to Sellersburg, Ind., Thursday afternoon for burial.

LATEST ANTI-CANCER DEVICE IS INSTALLED

New Invention Shoots X-Ray Current of 220,000 Volts.

PHILADELPHIA, June 28.—Shooting an X-ray current of 220,000 volts through an aluminum and copper filter is the latest medical invention in the fight against cancer.

The new instrument, the invention of Dr. W. D. Coolidge, General Electric X-ray expert, has been installed in the Philadelphia Osteopathic Hospital.

Physicians say that its installation is too recent to permit a definite statement of results, although they are confident it will aid in retarding the growth of malignant cancers after several treatments.

ORDER PLANT REBUILT

\$150,000 Building to Be Put Up by Alabama Company.

TUSCALOOSA, Ala., June 28.—The Pioneer Lumber Company has ordered rebuilt, at a cost of \$150,000, its huge plant that was destroyed by fire recently. Two hundred men will be employed when the mill is completed.

The view is through a porthole of the gondola, now being completed at Midland, Mich. Jean Picard faces the camera.

Business Districts Crime Centers, Scientist Says

Indianapolis Made Example for Test; Report Made at Chicago.

By United Press

CHICAGO, June 28.—Young criminals commit most of their crimes in the central business districts of larger cities and most of them live within a few minutes ride in a stolen automobile of the stores they rob, according to a report read today before a section of the American Association for the Advancement of Science.

Professor R. Clyde White of the University of Indiana, speaking before a sociological section, detailed findings of a study of crime and delinquency in Indianapolis, state capital and a typical American city. Older criminals were found to follow the same distribution rule.

The city was divided into zones 1, 2, 3, 4. The first zone included all sections within one mile of the central business district, zone 2 all sections within two miles, etc. It was found that the offenses and the residences of offenders decreased directly with the distance away from the center of the city.

Among adult offenses tabulated were: Criminal assault, assault and battery, manslaughter, auto battery, embezzlement, robbery, vehicle taking, burglary, grand larceny, obtaining money falsely, petit larceny.

Juvenile offenses listed were: Vehicle taking, property destruction, petit larceny, burglary and incorrigibility for boys and incorrigibility and sex delinquency for girls.

LEPER SCHOOL OPENED

Afflicted to Be Taught How to Prevent Disease Spread.

By United Press

JUAREZ, Mexico, June 28.—A school for lepers and a prophylaxis station were started here recently by Dr. Victor Ocampo Alonso, representative of the Mexican department of health.

The school will teach those afflicted with the disease how to prevent infecting others.

During May six Mexican lepers were deported from the United States to the colony here.

Dr. Francisco Espinoza is secretary of the commission and Dr. Daniel Quiroz Reyes and Jesus Cuaron are members.

Dumped Eggs Hatch Chicks

By United Press

PUBLIC WORKS HERE TO MEAN JOBS FOR 1,200

\$1,400,000 Federal-Aided Program Is Mapped in County.

First surveys and preliminary arrangements for a \$1,400,000 improvement program in Marion county, made possible by a federal emergency loan were started today under direction of county officials.

Employment was given to sixty-six workers this morning on the preliminary details, although the total persons employed before completion of the project will reach 1,200, it was said.

The program includes construction and improvement of 105 miles of county roads and building of seven bridges. The road building program includes work on a belt highway system around the city, linking Eighty-sixth street, the Dandy street, Harding street road, High School road, Thompson road, Ft. Harrison road and the Hague road.

The county will be required to repay 70 per cent of the loan, with the federal government making an outright grant of the remainder.

Funds, however, will not be available until approval of the project by a state administrator, who will be appointed as a part of the organization for government loans for public works, created by recent act of congress.

Approximately one and one-half years will be required to complete the program, with actual construction work not starting until spring. Surveying and other preliminary work will require about two months, it is estimated.

An important part of the program will be the construction of a West Sixteenth street bridge over Fall creek, at an estimated cost of \$140,000. The bridge will be an important link in the Sixteenth street widening program to provide a

cross-town street capable of handling a large volume of traffic.

Offices for the staff of workers have been established at 29 South Delaware street, rather than in the highway division of the court house offices.

CONVICT BANK BANDITS

Four Found Guilty by Jury; Three Get 25-Year Terms.

By United Press **PLYMOUTH, Ind., June 28.**—Four Chicago men accused of robbing the State Exchange bank of Culver of \$12,600 on May 29 were found guilty by a jury in circuit court here today and sentenced to prison by Judge Albert Shipman.

Edward Murphy, Jack Gray and Jack Gorman each were sentenced to twenty-five years in Indiana state prison. Joseph Cohen, 19, was sentenced to eight years in the Indiana state reformatory.

Buttermilk contains the properties of ordinary skim milk and also the valuable lactic acid.

He will be succeeded as state health director by Dr. Verne K. Harvey, epidemiologist in the state health department.

The shift will take place Saturday, it was announced by Governor Paul V. McNutt, who made both appointments.

He will take Dr. C. L. Williams, associate professor in mental and

STATE HEALTH CHIEF TO TAKE HOSPITAL POST

Dr. John Hare Quits Board;

**Dr. Harvey Will Be
Successor.**

Dr. John Hare, new state health director, resigned today to become director of the Evansville state hospital there since 1903. Dr. Hare is 75.

Dr. Harvey is 34 and will be one of the youngest state health department directors in the United States. He has been epidemiologist for the last three years. Recently he returned from a year of post-graduate work in public health at the Johns Hopkins university, Baltimore.

He was born in Indianapolis and reared on a Hamilton county farm.

He was graduated from the Indiana university medical school in 1928.
