

# DRYS HOPE TO BALK REPEAL BY CONTESTING LEGALITY OF DELEGATES-AT-LARGE VOTES

Maine Supreme Court Decision That Convention Elections Must Be Held by Districts to Be Basis of Drive.

WASHINGTON, July 26.—Prohibitionists revealed today that they hoped to block repeal by contesting the legality of state conventions in which the repeal amendment had been ratified by delegates elected at large.

The move contemplated by the drys is based on a decision of the supreme court of Maine, which held that delegates to the state convention must be elected by districts.

The dry challenge was directed specifically at New York and New Jersey. Canon William Sheafe Chase outlined the reasoning under which delegates-at-large conventions approving repeal are to be challenged.

"I am reasonably confident," Chase told the United Press, "that the action in all states where the law authorizing them was similar to that in New York and New Jersey will be declared unconstitutional by the United States supreme court. Delegates-at-large were preponderant in the conventions as authorized in these two states."

Canon Chase said it would be contended that conventions in most of the states which have acted so far were not truly representative, and that they were "not deliberative bodies as was clearly contemplated by those who wrote the Constitution."

"I am confident the supreme court will uphold this view, and that repeal of the eighteenth amendment will be defeated," Canon Chase said.

## GOVERNORS OF NATION JOIN KIDNAPING WAR

Align With Government After Plea at Conference in West.

SAN FRANCISCO, July 26.—Governors of the various states were aligned today with federal and local authorities in a drive against kidnapers, after a vigorous speech before the twenty-fifth annual governors' conference by Governor Fred Balzar of Nevada, who urged the death penalty for abductors.

"It is up to us Governors to operate in connection with the national government, or to do something of our own accord," Balzar said. "We Governors are too inclined to listen to mob sisters. We're too soft in our treatment of criminals."

"I advocate death, rather than a fifty-year prison sentence, for kidnapers," Governor Balzar urged co-operation with the federal administration in the fight to down depression.

## NAB BANDIT IN CHASE

Youth Captured in Farmhouse After Wounding Cop in Robbery.

HAMMOND, Ind., July 26.—Walter Bopp, 19, was held here today on charges of robbing the Hammond Pure Ice Company of \$347 and wounding Patrolman Louis Tebedo. Bopp was arrested at a farmhouse near Cicero, Ill., after officers had chased him for two days through several state line towns. Miss Marie Knoerzer, ice company cashier, identified him as the bandit.

The suspect was released recently from Michigan City state prison where he served a year on robbery charges. Tebedo was shot in a pistol battle which followed the holdup.

I JUST have returned from Hammond, N. H., where I attended the forty-third annual congress of the American Whist League, and while it was a beautiful place in which to play bridge, I believe those mountains had some mystic effect on the cards, as many unusual hands appeared.

## ONE THOUSAND GOAL FOR SUNDAY SCHOOL

Summer Record Sought by Tabernacle Presbyterian.

One thousand has been set as the attendance goal next Sunday at the Sunday school of Tabernacle Presbyterian church, Central avenue and Thirty-fourth street. It was announced today by J. Dwight Peterson, chairman of the church Sunday school cabinet.

"The day has been set aside as 'Vacationists' Sunday," said Peterson. "I believe it will be a record for attendance for this time of year for any Sunday school in Indianapolis. We are running at top speed, with seventy-five teachers on the job every Sunday."

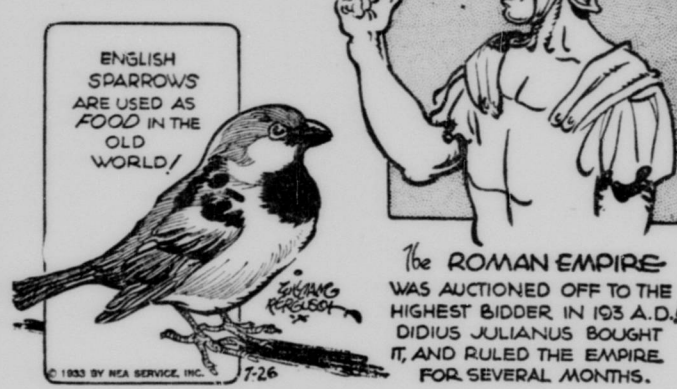

The young people's department of the school announced that speakers for August will include Dr. J. G. Benson, Professor Bruce Kershner, Albert Stump and H. B. Pike. The department meets in McKee chapel with an average attendance of 100.

## THIS CURIOUS WORLD

WHEN CHRISTIAN HUYGENS DISCOVERED THE RINGS OF SATURN, HE WISHED TO SECURE PRIORITY FOR HIS DISCOVERY WITHOUT MAKING IT KNOWN TO THE PUBLIC UNTIL HE WAS MORE CERTAIN OF WHAT HE HAD SEEN. HE THEREFORE PUBLISHED THE ABOVE ANAGRAM WHICH, WHEN LATER ARRANGED IN THE PROPER ORDER, SPELLED THE LATIN SENTENCE, "IT (SATURN) IS ENCRICLED BY A RING, THIN, PLANE NOWHERE ATTACHED, INCLINED TO THE ECLIPTIC."

THE ROMAN EMPIRE WAS AUCTIONED OFF TO THE HIGHEST BIDDER IN 103 A.D. DIDIUS JULIANUS BOUGHT IT, AND RULED THE EMPIRE FOR SEVERAL MONTHS.

AT the death of the Roman Emperor Pertinax, the praetorian guards, who were in complete control, with the army to back them, put the Roman Empire on the auction block. Didius Julianus outbid all others and became ruler of the great empire, but his reign was short, for after only four months the army turned against him and he was executed.

## LABOR UNIONS SHIFT POLICY ON NEW UNITS

Organizing Crafts in Single Plants Rather Than in Entire Industry.

BY RUTH FINNEY  
Times Special Writer

WASHINGTON, July 26.—A revolutionary change in trade unionism has been determined on by the American Federation of Labor for the purpose of organizing unorganized workers under the NRA.

President William Green today confirmed reports that workers are being brought together by the federation in unions confined to a single industrial plant rather than a craft.

These unions receive a charter from the A. F. of L. covering workers in a single plant. No other affiliation exists between plants in given industries.

Traditions Are Broken  
The new method of organizing sweeps to one side the oldest tradition of the American Federation of Labor that workers of a single craft in scattered plants must be united in one national or international union.

It does not mean abandonment of international unions already established. But it does apply to the field of mass production labor hitherto unorganized.

President Green hopes the new method of organizing by plants will be permanent in industries where it is being established, not confined to duration of the industrial recovery act.

However, officials of NRA indicated today they did not entirely approve it.

Compete With Company Unions

The new "federal unions" are being formed first in automobile, rubber, steel and lumber industries. An A. F. of L. charter is being issued to such a union formed, for example, in the Goodyear Tire and Rubber Company, or in the Briggs automobile plants.

Members of these unions will bargain regarding wages and hours with heads of these individual plants.

The American Federation of Labor will take no actual part in such bargaining, although President Green says that the federation already has opened headquarters in Detroit to advise and assist workers in the new automobile plant unions in their negotiations with their employers.

The President's appeal for a united front to bring back better times will succeed only so far as the public will co-operate. Shorter hours will mean increased employment, but also increased overhead. Prices must naturally go up at those places where merchants have wholeheartedly supported the National Recovery Act. If the public does not recognize this and patronizes outlets which are not members of the N. R. A., then the whole purpose of the Recovery Act will be defeated and the merchant trying to speed recovery will come out at the short end of the deal.
