

STONE FIRMS ARE URGED TO AGREE ON CODE

Indiana Companies Asked to Merge Viewpoint With Other Producers.

WASHINGTON, Aug. 4.—Indiana and other limestone operators in disagreement have been urged by NRA officials to incorporate their code viewpoints with those of other building stone producers so that a general code for the entire industry may be formulated.

No definite date has been set for a general hearing limestone operators at present being engaged in local negotiations in the limestone area.

NRA Boosts Business at Employment Agencies

I've been a hard-shelled Republican nearly all my life, but I'm all for this NRA thing."

With this declaration John Eble of the Business Men's Service Bureau, an employment agency in the Continental Bank building, tilted his cigar to a rakish angle and announced "big game" that the tide has turned.

It's a bit early in the game to judge the effects of the national industrial recovery act fairly," said Eble, "but things certainly have picked up in this office."

I had four calls for office help today, four Thursday and seven in fifteen minutes Saturday when the drive really went into effect.

"My business has picked up 75 per cent since Monday."

MISS FAN FREIDMAN of the M. F. & P. Employment Bureau, 1109 Roosevelt building, likewise is pleased with the effects of the President's recovery drive.

"Today I had twelve calls for office workers," she said. "I called about thirty people on my

list who, a few days ago, were candidates for jobs, and found all had gone back to work with their old concerns which were re-employing people after a layoff of a year or more."

CITY IN GRIP OF BURGLARY WAVE

Losses Totalling \$450 Are Reported to Police in Theft Series.

The wave of burglaries that has swept Indianapolis in the last few days continued today with reports of the theft of goods and cash valued at more than \$450.

His home entered by a burglar, James McKay, 3126 Brookside parkway, returned Thursday night to

find \$100 had been stolen, he reported.

O. S. Pinkbinder, 941 North Davidson street, owner of the Dependable House Wreckers, reported that a burglar stole lead valued at \$40.

Fishing equipment valued at \$8.75 was stolen from the Bock Equipment Company, 1900 Northwestern avenue.

Burglars entered the Standard grocery at 951 South Delaware street, stealing \$3 worth of food, Glenn Massey, 2532 Central avenue, manager, reported.

Fifty cartons of cigars, worth \$50, were stolen from a Kibler Trucking Company truck at Twenty-seventh street and Northwestern avenue.

judge the effect on unemployment," said Brown. "I have found many people puzzled by some of the terms of the industry codes."

"FOR example, many people employing one girl in an office with very little to do, object to paying the minimum wage. Others do not want to take beginners at the minimum rate and think they should get experienced office help for the lowest rate allowed by the federal regulations. It will take time to adjust these problems."

Bryce Ham of the Clift Hotel Employment Agency said that the NRA program had helped people in procuring jobs to a degree, but not to the extent he had hoped.

"I LOOK for a definite uptrend very soon," said Ham. "By Saturday probably I will be far more optimistic. This recovery plan is going ahead by such leaps and bounds that one can not tell about improvement in conditions from one day to the next."

RUSH ANALYSIS OF PROPOSALS IN STEEL CODE

Basing Price Arrangements Being Probed Carefully by NRA Chiefs.

WASHINGTON, Aug. 4.—The NRA is conducting a thorough investigation of the basing price arrangements proposed in the iron

and steel code. Administrator Hugh S. Johnson indicated today that Johnson said analysis of the steel

code, upon which hearings were completed Monday, was going forward as fast as possible.
