

HUGE DROP IN VALUATION OF COUNTY SEEN

Two Cuts Will Total Near \$24,000,000; May Mean Levy Boost.

Assessed valuations of real estate and personal property in Center township, Woodruff Place and Beech Grove will drop \$11,680,850, compared to 1932, according to estimates made today by assessors to County Auditor Charles A. Grossart.

An estimated \$12,000,000 drop in the assessed valuations of domestic corporations in Marion county is made by the county board of review.

The two cuts in valuations, totaling approximately \$24,000,000, amount to about one and one-half cents on the county tax rate.

It means that if the county council, in considering the budgets of county departments, should keep appropriations at the same level as last year, it would necessarily increase the tax rate one and one-half cents.

On the basis of budgets now in the hands of the county auditor the county tax rate is 12 cents higher than last year, and with the added one and one-half cents raise, due to valuation cuts and the possibility of a heavy pruning of the assessed valuation of utilities and banks, additional burden is placed on county solons in meeting the budget of 1932.

LAUNCH DRIVE TO END 'OLD AGE' FACTORY BAN

Circulate Petitions to Modify State Employment Law.

By United Press
FT. WAYNE, Ind., Aug. 4.—A city-wide canvass in an effort to secure signatures of 50,000 persons favoring modification of the state law, which it is claimed, makes it prohibitive for factories of Indiana to hire men more than 45 years of age, is to be conducted here.

Announcement of the plan came today from August Klein, who stated that he was working through the Federation of Labor organization here.

Klein said that because of insurance regulations in the state, factories would not hire the older men. As a result, there is no source of income for the majority of men more than 45 years of age until they reach 70 and are eligible for the old-age pension.

HUNGER RELIEF LOAD IN NATION DWINDLING

Improvement Gradual Since Start of Recovery Program.

By United Press
WASHINGTON, Aug. 4.—The President's re-employment program has had an effect already on hunger relief rolls.

Harry L. Hopkins, federal emergency relief administrator, said today the nation's relief load definitely is coming down.

The only figures his administration has compiled cover the period during which the recovery program was pending in congress, and was swinging into its stride immediately after passage, but even at that time the relief burden began to lighten. Estimates indicate the effect has been greater the last month.

Part of the improvement is due to the summer season, Hopkins says, but the curve for this summer is far more favorable than that of a year ago.

3 ARE BITTEN BY DOGS

Two Women, Girl, 7, Given Hospital Treatment for Wounds.

Two women and a 7-year-old girl were bitten by dogs late Wednesday and are under treatment today.

Myrtle Dixon, 24, of 824 Woodlawn avenue, was bitten on the right hand by a dog owned by Josephine Koreman, 503 1/2 North Noble street. She was treated at city hospital.

Mrs. Hazel McGinnis, 939 Charles street, was bitten by a brindle bulldog owned by George Scharff, 1012 Union street. Police ordered the dog penned up for ten days.

Norma Kindell, 7, of 320 Leeds avenue, was bitten on the left ear by a dog owned by Ralph Talsam, 337 Leeds avenue. The girl was sent to city hospital and the dog ordered penned for ten days.

LINDYS SPAN BARRENS

Return to Holstenberg After Flight Over Baffin Land

By Times Special
GODTHAAB, Greenland, Aug. 4.—Colonel and Mrs. Charles A. Lindbergh were back at Holstenberg today after a flight over Baffin Land, which is above Hudson Bay at the northern end of Canada.

Leaving Holstenberg at 1:20 p. m., they crossed the 200 miles of Davis strait, flew over the barren country and returned at 6:05.

The flight was regarded as important as the Lindberghs are the only people to have flown over the almost unexplored country.

FLYING RATES ARE CUT

"Bargain Week" to Start Saturday at Hoosier Airport.

Bargain week for underweight aviation fans will be observed starting Saturday at Hoosier airport, when passengers will be carried for 1 cent a pound, it was announced today by Harold Brooks, airport official.

The new rates will not prove a bargain for 250 pounds, Brooks said, but will for the lightweight, especially children.

DISTRICT SESSION SET

200 to Attend Mission Session at North M. E. Church.

About two hundred officers and members of the Young Women's and Standard Bearer Societies of the Indianapolis district will attend the district school of missions at the North M. E. church Saturday.

Arrangements are in charge of Miss Geneva Fitch, president of the Young Women's Missionary society of the church. The sessions will begin at 2 and continue until 8.

PARIS, Aug. 4.—Pola Negri emphatically denied reports that she had married Harold F. McCormick, wealthy Chicago manufacturer.

ELECTRIC TAX OFF CONSUMER AFTER SEPT. 1

Producers of Power Must Pay Levy After That Date.

Consumers of electricity no longer will be required to pay the 3 per cent tax for electrical energy used after Sept. 1, according to the statement made by the bureau of internal revenue issued by Will H. Smith, state revenue collector, today.

The electric light companies and other vendors of electrical energy must assume the 3 per cent tax based on the price for which the energy is sold, the ruling states.

The law specifically provides that a publicly-owned electric and power plant will not be liable for tax on the electrical energy it sells, even though such energy is sold for domestic or commercial consumption.

TOURS FOREST CAMPS

State Commandant Reviews Work in Southern Part of State.

After completing a tour of inspection of civilian conservation corps work camps in southern Indiana, Brigadier-General George H. Jamerson, commandant of the state division, returned to Ft. Harrison today.

Chaplain A. C. Oliver Jr., left Ft. Harrison today to inspect the camps
