

ARRESTS MADE IN KANSAS FAKE BOND SCANDAL

Mystery Man of Midwest
Finance and Aid Are
Held Under Bond.

By United Press
TOPEKA, Kan., Aug. 10.—Alf M. Landon today promised a "house-cleaning to the last piece of dirty linen" in the investigation of alleged forgery of Kansas municipal and school district bonds aggregating well over a half million dollars.

The state legislative council meets next week to consider and recommended matters for consideration of the special session of the legislature in September.

Landon said the council would be asked to make a thorough investigation of the alleged forgeries and report to the legislature.

Meanwhile, the state treasury was guarded by state troopers, ordered by Landon to take charge of the office after State Treasurer Tom Boyd admitted granting permission to Ronald Finney to take \$150,000 in bonds from the state vaults.

Spectacular Figure Held

Finney, perhaps the most spectacular figure in midwestern financial circles with a wealth and variety of ventures to his credit, was under \$25,000 bond. He was charged with dealing in forged securities.

Lee Caldwell, employed in Finney's office, was arrested Wednesday night on the same charge. After he was taken in custody on order of Lester Goodell, Shawnee county attorney, Goodell left the city for an unannounced destination.

Authorities intimated the possibility of additional arrests today.

The state's most sensational financial scandal of recent years came to light with the discovery that a series of eight bond issues aggregating \$329,000 had been duplicated at least twice.

Bonds Are Duplicated

Two sets, one said to be the original and genuine bonds, were found in the state treasury. The original bonds were in the school fund commission. One set was taken as surety for deposits of three banks now closed. The third was said to be on deposit in Chicago.

The three banks, at Emporia, Eureka and Neosho Falls, closed on announcement of the alleged forgeries. Two were controlled by Finney's father and the third by other relatives.

The state militia was ordered to command the treasury after Boyd admitted giving access to it to a private citizen, and, at the outset of the investigation, trying to deny the same privilege to government officials.

Troops Guard Office

"Boyd's statement, if true, indicates he either was a party to permitting \$150,000 of state bonds to be taken by Finney to Chicago for a purely personal transaction or was a party to sending \$150,000 of forged bonds to Chicago in the same transaction," Landon said in commenting on the military action.

"I have ordered the adjutant-general's office to place guards night and day over the state treasury."

Boyd demurred, pleading for time to get an opinion from the state attorney-general. The plea was ignored.

Mystery Man of Finance

Mystery has pervaded the spectacular financial operations of Finney in recent years. He maintained a sumptuous residence and office in a hotel here. Two airplanes were at his command, with quick flights to Chicago and other cities common.

His commodity ventures were said to have run his profits into the thousands. Purchase of 30,000 head of Texas cattle, his father said, was expected to yield a profit of \$6 a head. But he was listed as a bond broker, and in that field dealt widely.

FIFTY GIVEN JOBS ON NEW BREWERY TANKS

Seventy-Four Storage Vats to Be
Built for Lieber Company.

More than fifty men started work today on the fabrication of seventy-four storage tanks for the Richard Lieber Brewing Corporation. The tanks are being fabricated by the Emerson-Scheuring Tank Company, 2073 Martindale avenue.

Virtually all equipment used, with exception of the steel, which is being rolled in northern Indiana, is being purchased locally. Local foundries will make the gray iron castings and the J. D. Adams Company will furnish the welding wire, the Emerson-Scheuring Company announced.

The Emerson-Scheuring firm has signed the N.R.A. code and is operating three shifts a day, five days a week. Approximately 300 tons of steel will be required for the Lieber tanks and a carload a day is being shipped.

The seventy-four tanks to be installed at the brewery will have a total capacity of 21,593 barrels. The brewery expects to produce a minimum of 175,000 barrels of beer annually.

NAB PAROLED CONVICT AFTER WILD CHASE

Faces Drunk Driving Charge Following
60-Mile-an-Hour Pursuit.

A paroled convict from the state reformatory was arrested by police Wednesday night after a sixty-mile-an-hour chase over north side streets.

Officers held Fred Kirk, 22, of 2407 Bethel avenue, after a young woman riding in his car turned off the ignition of the speeding auto after it swung into Fall Creek boulevard at Northwestern avenue.

Kirk told the police he had gained a parole from a sentence of one to ten years for hijacking. He is held on charges of reckless driving, driving while drunk, and failure to stop at a preferential street.

Auto Insurance Picnic Set

A chicken dinner and picnic will be held at Broad Ripple park today by representatives and employees of the State Automobile Insurance Association. More than 450 agents and their families from state cities and 100 Indianapolis employees are expected at the affair.

Old City Hospital Structures Are Doomed

Plans for erecting a two-story building at the city hospital and an addition to the nurses' home.

will result in razing of four old structures on the grounds. The photos show the buildings

which will be razed, with an inset of Earl Wolf, business director of the institution, who is aiding in the plan to obtain \$500,000 for the new structures.

right, the old powerhouse. The lower left photo shows the old laundry and the lower right, the antiquated morgue.

The spring call of the hylas, very tiny tree frogs in Maine, can be heard nearly a quarter mile away.

TIMES' CARRIERS FROLIC AT PARK

Hundreds Attend Annual
Picnic Held Today at
Broad Ripple.

No starting bomb was necessary to mark the beginning of the annual Times' Carriers' picnic at Broad Ripple park this morning. The explosion would have been hushed in the din of approximately a thousand voices which shouted and yelled their owners off to a big day at the park.

The first ride opened was the merry-go-round and the wooden horses, lions and oxen seemed to almost come to life beneath the wave of youthful enthusiasm which swept aboard.

The zoo furnished another good starter for the day's fun, and the pool was thronged with swimming, diving, jumping and wading boys and girls.

The circulation staff of forty men, under direction of C. W. Bevinger, circulation manager, aided by Sgt. Frank Owen, of the police accident prevention bureau, and traffic officer E. Heller, had charge of the day's outing.

Luncheon was served to the carriers at noon.

ORDER HOLDUP VICTIM IN COURT TO TESTIFY

Judge To Free Suspects If Prosecuting
Witness Fails To Appear.

Judge pro tem Carl Wood, superior court, today ordered police to produce James Miller, 62, of 150 West Twenty-ninth street, in his court within twenty-four hours to testify in a habeas corpus action, seeking to free two men accused of slugging and robbing Miller.

The two under arrest, Arthur Hathaway, 21, and Charles Sears, 37, contend, through their attorney, Lawrence Shaw, that they are being held illegally, and that Miller has left the city.

The habeas corpus action named as defendants Judge James Miller, of municipal court, and Sheriff Charles Sumner. Myers granted continuance of the case until Aug. 15, when police asserted that Miller still is suffering from injuries.

Wood today demanded that Miller be brought before him and intimated that if the prosecuting witness could not be produced, he would order the suspects freed.

BURGLARS LOOT HOMES

Revolver, Jewelry and Cash Taken
From City Residences.

A wrist watch valued at \$35 and a 32-caliber revolver were stolen from the home of Mrs. Orville Hensley, 1928 Houston street, Wednesday night, she reported to police.

A burglar who entered by removing a screen from a side window stole \$10 in cash and toilet articles from 1464 North Pennsylvania street. Miss Margaret Ellis reported to police late Thursday night. Two purses, minus the money, were found in an alley in the rear of the house by police.

Burglars broke into the grocery owned by Frank Rector, 1226 East Michigan street, shortly before midnight, but clerks were unable to estimate the loss until stocks have been checked.

SPOKESMAN IS ELECTED

South Bend Man Chosen Delegate
for Freight Code Session.

Maurice Tucker, South Bend, was elected at a joint meeting of the state's three motor truck associations to represent Indiana at the American Highway Freight Association code-drafting meeting in Washington Aug. 23.

Tucker was named by representatives of the Motor Truck Association of Indiana, the Regulated Motor Carriers of Indiana and the Indiana Motor Traffic Association.

BALBO'S CREW RESTS

Prepare to Leave Lisbon, Last Leg
of Flight to Rome.

By United Press
LISBON, Portugal, Aug. 10.—General Italo Balbo and the crew of his fleet of seaplanes rested today and prepared to take off for ancient Ostia, the seaport of Rome, Saturday morning, on the last stage of the greatest mass flight in history.

CITY BREWERS WILL ATTEND CONVENTION

National Meeting to Be Held at
Chicago in September.

Several Indianapolis brewers plan to attend the national convention of the Master Brewers' Association of America, Sept. 24 to 28 at Chicago.

Tribute will be paid at the convention to memory of two men regarded as fathers of the brewing industry in America—Dr. J. E. Siebel, Chicago, and Anton Schwarz, New York. Busts of these men will be unveiled in the Hall of Science at A Century of Progress Sept. 27.

The memorial committee is headed by Albert Lieber, former president of the Indianapolis Brewing Company.

Research work of Dr. Siebel and Schwarz led to development of a new type of beer, as compared with the old European beverages, Lieber said, and they were largely responsible for development of the science of fermentation, as well as mechanical refrigeration.

CHURCH CLASS GROWS

Southside Fellowship Group to
Stage Members Drive.

The Christian Fellowship Builders, an interdenominational bible class meeting in the Fountain Square theater each Sunday morning at 10:45, is showing considerable gain in attendance over the last few weeks. E. J. Johnson, vice president of membership, has his organization working in the entire south side, and has appointed a special delegations and events committee, composed of five men, to contact Indianapolis industries, merchants, banks and various trades associations, to have delegations each Sunday and on those days set aside for the respective organizations.

Harry Ochiltree, teacher and leader, will be in charge Sunday, and Oscar Fields, vice president of the social committee, will provide special music.

New Odorless Way Ends Body Odor Best

Research chemists have discovered that the cause of body odor is not fresh perspiration, but stale perspiration—calcium, salt and particles of fat—lodged deep in the pores.

Most ordinary toilet soaps curdle in hard water. This curdled soap works into the pores, dams up the stale perspiration. Body odor results.

That's why deep-pore cleansing is needed in this hard water. Kirk's Coco Castile, a 100% pure vegetable oil soap, mixes with the particles of perspiration curds, loosens them, then rinses out completely—the only real way to end body odor.

"Nothing Like It for Our Hard Water"—says citizen of Sarasota, Florida, where water is hardest in the state.

Try Kirk's Coco Castile today. It's odorless. And half again larger than average toilet soaps—an exceptional bargain. Be sure to ask for Kirk's by name.

HOME BUYERS MAY STICK TO BOTTLED BEER

But Draught Brew Likely
to Be King in Cafes
Downtown.

Legalizing of draught beer, expected next week, probably will result in a sharp cut in consumption of bottled beer, particularly in the downtown district, it was forecast here today.

Grocers in the residential districts, however, were anticipating only a relatively small reduction in their present sales of bottled beer.

"In places where beer is consumed on the premises," one dealer said, "draught beer probably will be king, and bottled beer sales will be comparatively small."

However, most customers who now buy beer from groceries and drug stores by the bottle or case to take home will continue to do so, as few can afford to buy it by the keg and buy or rent the necessary draft equipment.

Clauer said his firm expects to have draught beer ready for distribution shortly after it is legalized, probably by the next day.

Brewers still are experiencing difficulty in obtaining an adequate supply of barrels and kegs, he said, some of them being forced to use metal kegs, and others finding it necessary to import cooperage from Germany.

Companies handling tanks and pumps used in dispensing draught beer reported they were swamped with calls from beer permit holders for equipment, ranging from the type attached to ordinary saloon bars to small portable sets suitable for restaurants and similar establishments.

Some demand was reported also for small, inexpensive sets suitable for home use.

Camden, N. J., has an outdoor moving picture theater, where patrons can watch the show from parked cars.

A Message To Foot Sufferers

Leg pains, backaches, headaches and some systemic disorders can be traced to foot troubles. The INDIANA FOOT CLINIC scientifically treats all foot ailments, so come in today for a FREE EXAMINATION and learn your trouble. It may be dangerous to delay. Burning sensation in the front part of the foot with periods of numbness is the starting of trouble; it is a warning to you.
