BOAT OWNERS CLEAR IN WORLD FAIR CRASH

Killing of Three Found Accidental
by Coroner's Jury.

CHICAGO, Aug. 29.—After listening to three and a half hours of conflicting testimony, a coroner's jury Monday decided that the boat crash in which John H. Schultz, Cleveland attorney, his wife, and 7-year-old son were killed, was accidental.

The three were visiting A Century of Progress and had taken a ride last Friday night in a speedboat piloted by Walter Pomper. When the speedboat collided with a private yacht, owned and piloted by Anthony O'Malley, all three members of the family were thrown into the water and drowned.

Fourteen witnesses to the crash testified at the inquest. Both Pomper and O'Malley were absolved of blame.

COUNTY COUNCIL TALKS TAX RATE

55-Cent Figure Is Reported
Likely When Action Is
Taken Tuesday.

County council members are in informal session today for tax rate and budget discussion as a step toward final figures to be decided at their regular fall meeting to open Tuesday.

As it now stands, the budget calls for a 76-cent tax rate. The rate last year was 41 cents. It is believed that after all budget paring has been completed, a rate of not less than 55 cents will be required.

Funds required for payment of old age pensions and expenses of voter registration and an election next year account for most of the tax rate increase. Delinquency and lowered property values are other factors.

Gustave Schwab, 2601 Kessler boulevard, a truck gardener, was elected a member of the council today, succeeding Walter C. Beecher, who resigned as council president to head the city works board.

There are now three truck gardeners in the council membership of seven. Besides Schwab, the gardeners are Harry Hohl and Charles Hafer.

HITLER STARTS NEW DRIVE TO INSURE POWER

Vital Changes in His Party
Structure Expected to
Tighten Control.

BY FREDERICK OECHSNER
United Press Staff Correspondent

BERLIN, Aug. 29.—Chancellor Adolf Hitler has embarked on a new bold scheme to minimize the overlap in the Nazi regime's machinery and tighten his dictatorial control on Germany, it was indicated today.

The Nazi chancellor's recent conferences with Nazi leaders at the summer chancellery at Berchtesgaden, were regarded by well-informed observers as pressing vital changes in the party structure, tending to reduce overlapping bureaus in the party and government.

Steps already taken toward simplifying the government and strengthening its position include:

1. Revision of rules of legislative procedure to curb law-making prerogatives of individual members of the cabinet.
2. Withdrawal of economic commissars.
3. Dissolution of militant small retailers' protective association.
4. Dissolution of auxiliary police.
5. Formation of a senate of "Nazi Elders"—corresponding to the grand council of Fascism in Italy. All important features of Nazi policy are to be submitted to this senate for final approval.

It lately has become increasingly plain that Hitler himself has been surprised at the ease with which he has Nazified Germany. Contrary to his expectation that after the party seized technical leadership last January he would have to fight and maneuver for a year or more before he had consolidated the Nazis in power, Hitler has observed all opposition melt swiftly away in the first six months of his regime.

Preliminary diplomatic conversations already have been held by representatives of the two governments.
