OCEAN FREAK BAGGED

Reptile-like Fish Pulled From Puget Sound Waters.

TACOMA, Wash., Aug. 30.—Two Tacoma fishermen hauled a queer catch out of Puget Sound recently.

Their exhibit has the head and body of a reptile and the gills and fins of a fish. Powerful jaws enclose fangs about three-quarters of an inch long.

For about 18 inches behind the head the body is large and muscular. Then it tapers off rapidly into a dark, scaly, reptile-like tail five feet in length. A dorsal fin runs through the length of the tail.

SULLIVAN FLAYS REALTORS FOR BUDGET ATTACK

Board Blamed for Heavy Cuts in Valuations of City Property.

law, was answered by Sullivan with the defiance:

"Nobody is going to bankrupt the city and destroy its credit while I'm mayor."

Today Lawrence G. Holmes, board secretary, dismissed Sullivan's defiance with the comment that it was "exactly what we expected of him."

Holmes continued with the declaration that the peak of the city's debt payments will be reached in 1940, with \$5,111,115 due, and that the refunding program will serve materially to decrease the payment then and in intervening years.

Second line of the board's attack will go into action against the Marion county tax adjustment board, when it meets to pass on the complete city, county, township and school levies.

Appeal might be taken to Governor Paul V. McNutt for support of the \$150 limit law, Holmes indicated, if demands of the realtors are not met by city and county officials.

Sullivan termed as "ridiculous" the demand of \$150 that govern-ment functions be eliminated to accomplish reductions after city officials claimed operating expenses had been pared to the bone.

Upholds All Departments

"Regardless how they appear to outsiders, every department of the city has a vital function to perform in the continued progress of Indianapolis," Sullivan asserted. "The board of health has been subjected to severest criticism."

"Suppose the epidemic of sleeping sickness, now in St. Louis, should strike Indianapolis, with one board of health crippled, dismantled, and unprepared for resistance?" Sullivan asked.

"Even the dog pound has not escaped. But we know that through the sale of dogs to pet seekers, the expense of the dog pound is only \$4,000 a year, a low price to pay for keeping the streets free from stray dogs and their menace to children."

"Any decrease in pay or personnel of police and fire departments would bring loss to property owners far greater than any savings in taxes."

Would Boost Fire Rates

"A depleted fire department would bring automatically an increase in fire insurance rates, and an altered police department would raise burglary and other insurance charges."

"Further lowering of police salaries would be flaunting temptation to corruption in the faces of a group of efficient officers. There is no organized crime in Indianapolis, no racketeering, and no gang killings."

"But even the bribery of petty thieves might be acceptable to policemen whose salaries had been cut below a decent living standard."

"My position is that the 1934 budget is the best that could be made in view of valuation reductions and tremendously increased delinquencies."

Daring Prison Delivery Frees Nazi Chief; Austria Orders Borders Closed

Wardens Chloroformed by Rescuers in Audacious Swoop on Jail.

By United Press

INNSBRUCK, Austria, Aug. 30.—All Austria's borders were closed today after an audacious jail delivery in which three men chloroformed two wardens and rescued Franz Hofer, Nazi chief of the Tyrol-Vorarlberg district.

Seventy Nazis in the Innsbruck neighborhood were arrested as soon as news of the rescue reached police. Hofer was imprisoned as an enemy of the government of Chancellor Engelbert Dollfuss, whose determined fight to keep Austria free of Nazi influence has brought the country into a critical situation with Germany.

Early today, two men clad in the uniforms of officers of the Heimwehr—the home guards, with which Dollfuss is combating Nazi activities—appeared at the prison, dragging a third man between them. The masqueraders announced they had a prisoner, and the door was opened by two wardens on guard. The intruders then seized the wardens, chloroformed them, and forced the wife of the prison director to give them the keys to Hofer's cell.

With Hofer, the three men fled in a stolen motor car. They were reported heading for the Italian frontier.

It was reported later that an automobile traveling on the Brenner highway failed to halt at a gendarme's order and was fired upon. The occupants of the car, the report said, left the car and fled along a path that led toward the Italian border nearby, leaving traces of blood.

Bets Dimes on Ponies to Win \$1,000, Loses It, Recovers It.

By United Press

CHICAGO, Aug. 30.—Tom Mitchell went to a race track with pennies and dimes, won \$1,000 and then lost it temporarily to another unemployed man, he told police today after they had recovered his money.

Mitchell lives in a hotel known as a "flophouse." He is 65 years old and has not worked for years. Recently he had been getting whatever money he could and betting it on horse races. Saturday he took his savings to a race track and came back with the \$1,000.

Today, he told police, he was boasting of his good luck in the lobby of a burlesque theater. A man overheard him, took the money from him, and ran.

In the chase that followed police captured Walter Engel, 28, an ex-convict. Engel had \$1,000 in his pocket. The money was given to Mitchell.

Lifelong Ambition May Be Realized by Washington Man.

By United Press

EVERETT, Wash., Aug. 30.—Boydhood dreams on his father's Wisconsin farm finally have come true for William C. Sweet.

Sweet, who is 50, has completed building and launching a 41-foot boat, in which he plans to travel around the world and satisfy his lifelong love for the salt water and the breeze from the sea of which he dreamed in his youth.

Three years ago Sweet finished plans for his craft and recently completed construction of it. The ribs are made of 2x2½-inch oak and the planking on the deck and cabin is 1½-inch select fir.

The ship has a 32-horse power auxiliary motor with a 400-gallon fuel capacity and carries between 800 and 900 feet of sail. He's named it the Mystic.

NEW CHIEF OF STATE LEGION HITS POLITICS

Armstrong Vows He Will 'Break Back If Needed' to Keep Pledge.

By United Press

EVANSVILLE, Ind., Aug. 30.—Disapproval by the rank and file of Indiana American Legion members of the practice of using office in the service organization as a stepping stone to leadership in partisan politics was credited today with having won the state commanderyship for V. M. Armstrong, Indianapolis attorney.

In a speech after his election at the close of the annual state convention here Tuesday, Armstrong promised to "break my back if necessary, to keep the legion out of politics."

His unanimous election was made on the first ballot, almost unprecedented in department history, and was reported to have been a direct result of a change in election laws voted during the convention.

At the end of the first roll call, Armstrong had 236 of the 274 votes necessary for election, and his selection was assured when the Ninth and Eleventh district delegations swung him their support.

The election was made unanimous on motion of other candidates.

RECORD CROWD FOR FAIR IS INDICATED

Advance Ticket Sale Far Exceeds Estimates.

Indications of a record-breaking crowd at the Indiana state fair were seen today from the reports of the advance sales of tickets for the annual event which opens Saturday morning.

Officials of the state board of agriculture declared that the sale of 20,000 tickets is the largest advance sale in the history of the fair. More than half of them were sold in Indianapolis, they said.

More than 3,200 persons have entered products in the various exhibits at the fairground. Members of the 4-H club contributed 2,016 different items in exhibits ranging from prize winning hogs to party dresses.

A 10 per cent increase in concessions over last year is reported by U. S. Brouse, of Kendallville, director in charge of amusements.

Borinstein Visions Great Gain to U.S. in NRA Plan

Business Will Revive, Many Will Get Work Through Program's Success.

By United Press

LOUIS J. BORINSTEIN, chairman of the Indianapolis NRA committee, stated the city's part in the recovery program today.

"The NRA plan," said Borinstein, "is designed to put 5,000,000 men back on the pay rolls in a short time."

"When this is done, 20,000,000 people (assuming four to each wage earner's family) suddenly will be placed in a position to buy the normal necessities of life. That means the total trade volume of the nation will, upon complete acceptance of the plan, be lifted from 10 to 20 per cent."

Responsibility for All

"In Indianapolis every employer and every consumer has a definite responsibility to assume."

"The NRA calls upon every employer to shorten hours of labor, to make room for more employees."

"Until every industry adopts its own code, all employers are asked to sign the President's agreement and to meet the hours and wages established in that agreement."

"Success of the NRA, therefore, calls for the co-operation of every employer."

Gain for Employers

"Every employer should sign the President's agreement at once, because more people working with bigger pay rolls will increase the market for his goods."

"Every individual, man or woman, who buys anything, owes it to himself, his community, and the nation to buy only from those employers who have taken the increased burden of increasing pay rolls to bring back prosperity."

"Indianapolis must do its part in this great plan. It never has failed when the nation called and it will not fail now."

SEVEN INJURED, TWO BADLY, IN AUTO MISHAPS

Long Fight to Beat Death Is Lost by Youth

Funeral services will be held Thursday afternoon for Mino Foster, 17, son of Mr. and Mrs. George M. Foster, 353 North Kenyon avenue, who died in Methodist hospital Tuesday of injuries incurred June 2 when he struck rocks as he dived into a gravel pit.

Rites will be held at 1:30 at the residence and at 2:15 at Barth Place Methodist church. Burial will be in Washington Park cemetery.

The body was to be at the home at 1:15 afternoon and after that hour friends of the family may call. The youth's neck and back were broken as a result of a dive while swimming with a party of friends in a gravel pit on the Brookville road six miles from the city. Although physicians from the first said that death was certain, the youth made a valiant fight for life.

He was to have been graduated from Technical high school in June, 1934, and had planned to take a course in electrical engineering at Purdue university.

Father Can't Explain Accident

The boy was with his father, Paul Wesley Walker, at the time of the accident.

"I looked to the north and the south just before we left the curb," the father said today. "I can't understand how it happened so quickly."

Serious injuries were incurred by James Martin, 51, of 2924 Park avenue, when his automobile struck a tree after leaving Road 52 near Thirtieth street. Martin, who is in Methodist hospital, suffered a fracture of the right arm and cuts. He told police he fell asleep while driving.

Hit by Bicycle

Struck by a bicycle at Market and Capitol avenue, Mrs. Clara Ewing, 50, of 54 West drive, Woodruff Place, suffered cuts and bruises. John McDonald, 20, of 519 South Tibbs avenue, was riding the bicycle.

David Fouts, 45, of 2443 North Dearborn street, who incurred cuts and bruises when his automobile crashed into a stone wall after jumping a curb at West drive, Woodruff Place, and Tenth street, was arrested by police on a drunken driving charge.

Right Arm Is Fractured
