Our "Corliss" Shoes Comply With . . .

FASHION'S Footwear Code

... and Give Extra Value at This Anniversary Price!

\$3.29

Very smart feet are wearing "Corliss" Footwear for fall . . . the footwear that's making so much fashion news in town—because it's in line with the new fall code for shoes . . . "a maximum of fashion with a maximum of comfort for wearers!"

HERE'S THE CODE:

1. Shoes—More than ever—are in keeping with the costumes with which they are worn.
Well dressed women will not make one pair of shoes do for wear with all their different fall suits, coats or dresses.
2. Most Popular of All Styles Are Oxfords.
There are two reasons for their popularity. One—the importance of the Tailored Costume. The other—the desire of women to be in fashion, yet be comfortable.
3. Two Leathers in a Shoe are Just One Way in Which Fall Shoes Gain Individuality.
Here are the best combinations: Shiny-dull combinations or rough smooth combinations . . . Suede and calf, suede and kid, suede and patent.
4. 1890 Fashions Are Reflected by Fall Shoes.
Shoes have height—to match the height in shoulders of dresses and coats.
