## STATE-WIDE NRA DRIVE IS LAUNCHED

Wells Calls Meeting of Various Association Heads for Oct. 6.

### SEEKS BETTER SUPPORT

Complaints of Delegates Will Be Heard at Conference Here.

A state-wide effort to enlist commercial, industrial and labor associations in obtaining better compliance with NRA was announced today by Francis Wells, Indiana representative of the United States department of commerce.

In addition to more than ninety heads of various associations, Mr. Wells has asked the heads of more than fifty compliance boards in cities in the state to attend the meeting at the Lincoln, at noon, Oct. 6.

Albert Stump and Mr. Wells will be among the speakers to address the delegates at the luncheon. A business meeting at which all problems pertaining to complaints and compliance in NRA will be held in the afternoon.

Sitting with full personnel for the first time Thursday, the local complaints board of NRA adjusted fifteen complaints of violations by explanation and persuasion. More than 300 complaints still await action of the board.

Louis J. Bonine, head of the Indianapolis executive committee on NRA, announced Thursday the appointment of Mrs. Carl E. Wood, 2137 North Talbot street, to represent consumers on the complaints board, and Herbert A. Fenwick, 377 South Butler street, shoe salesman, to represent employers.

Appointment of Fenwick was calculated to have appealed labor leaders, who demanded more representation on the local board for workers.

## FAKE BILL SUSPECT DIES AWAITING TRIAL

Don Dubrow, 45, Victim of Diabetes, as U. S. Prepares to Act.

Don Dubrow, 45, Barton hotel, who was awaiting trial on a charge of raising \$2 bills to \$10, died Thursday night in city hospital, a victim of diabetes.

He and four other men were held to the federal grand jury Thursday under \$2,500 bond each by Fae W. Patrick, United States commissioner.

Others accused, who also are alleged to have raised figures on bills, were Edgar Allen, 517 North Delaware street; James Collins, Clarence Hamilton and Ralph Graves, all of 120 West Twelfth street, Apartment 4.

## SUSPECT IS ARRESTED IN BASEBALL LOTTERY

Negro Is Charged With Possession of 49 Books of Tickets.

Clay Morris, 49, Negro, 604 North Senate avenue, was arrested today by police who said he was in possession of forty-nine books of baseball pool tickets.

He is charged with operating a lottery, vagrancy and resisting an officer, the latter, police said, because of a near fight at police headquarters with Sergeant Edwin Kruse.

## LET ROAD CONTRACTS

Award for Work on Highway Near Noblesville Made by State.

Road contracts have been awarded to the McCoun Construction company, Noblesville, for work on state road 34, near Crawfordsville with a low bid of \$29,364.48 and to the J. C. O'Connor & Son Co., Ft. Wayne for work on state road 44, near Connersville, who bid \$127,713.93. It was announced at the statehouse today.

Steps on Bottle; Injured Stepping on a broken bottle Thursday in the yard of his home, Harvard Kessler, 2, of 554 South Warman avenue, suffered a gashed foot.

## Traffic Jam

Truck Crash Strews Load of Jelly on Road.

AUBURN, Ind., Sept. 29.—A real traffic jam occurred on the Cedar creek bridge here Thursday night when a large truck loaded with jellies and jams was wrecked after its driver was blinded by lights from an automobile.

The bridge literally was covered with jam and jelly after many of the glass containers were broken by the impact of the truck's striking the bridge abutment.

## CONDITION OF GIRL SERIOUS AFTER LEAP

Alleged Dealer of Narcotic Cigarettes Is Arrested by Police.

## TENANT RELATES STORY

Two Suspects Held Under \$10,000 Bonds; Hearing Date Set.

Alleged to have been forced to smoke a marijuana cigarette against her will after being mistreated at a party Wednesday night at which she leaped from a third-floor window to escape, Mary Beyerlein, 18, of 26 South Addison street, still was in critical condition at city hospital today.

Acting on a statement made early today by Miss Beyerlein, police arrested Frankie Ralston, theatrical agent, on charges of selling the narcotic cigarettes to Richard Heyman, 30, of 609 East Twenty-fourth street, and William Bowers, 24, of 517 North Illinois street, a soda clerk.

Heyman and Bowers tried to make me smoke a marijuana cigarette," the girl is alleged to have told police, "and when I refused, Heyman forced one into my mouth. Both men threatened me. I had to smoke it, and it made me feel ill."

Tenant Gives Story The alleged statement to the police went on to say that the girl struggled to get out of the grasp of the men, and finally seeing her chance, jumped through a window, landing in a courtyard three floors below.

She was found by police with her clothing torn and taken to city hospital.

Boyd Pressley, tenant of the apartment at 431 North Illinois street where the party came to its tragic end, told police that he loaned the flat to Heyman and Bowers, both employed in the drug store in which he also works.

Held on \$10,000 Bonds He was not at the party and did not see the girl nor know that the party was to turn into a drinking bout, according to his statement.

Heyman and Bowers, who were held on vagrancy charges, were ordered held on \$10,000 bonds in municipal court Thursday. Their bonds were raised from \$3,000 to await the outcome of the girl's condition. Hearing was set for Oct. 3.

In a part of her statement to police, Miss Beyerlein said that Heyman threatened her with "loss of her job" if she did not submit to his advances. The girl told police that she did not know the men were married and had never been to a party in an apartment before.

Whether a second request for national guard troops will be made depends upon further outbreaks, the prosecutor said.

Major Earl Weimar has been on hand as observer for Governor Paul V. McNutt since Judge Dale Eby of Gibson circuit court asked the Governor to send troops early Thursday.

## BAILEY CASE WILL GO TO JURY TODAY

Fate of Ten Defendants Soon to Be Known.

OKLAHOMA CITY, Okla., Sept. 29.—The fate of ten defendants on trial for the \$200,000 Urschel kidnapping will rest with the jury of small town business men today.

Closing statements of attorneys for the Twin Cities "money-changers" and of Herbert K. Hyde, United States district attorney, opened the tenth day of the sensational trial in the closely guarded federal building.

Only Judge Vaughn's charge to the jury remained.

## Pet-ty Case

Loses 7 of 37 Dogs; Has Neighbor Arrested.

MISS WILHELMINA P. ADAMS, 2502 Churchman avenue, is used to having a lot of dogs around the house, but when her pack of thirty-seven dwindled to a mere thirty, she began to suspect "dirty work afoot" on Churchman avenue.

Brought into municipal court on charges of keeping annoying dogs, Miss Adams in turn charged Howard Rideaux, 2475 Churchman avenue, with shooting seven of her pets and giving them dishonorable burial in his backyard.

Floyd Mannon, judge pro tem, continued the case to Oct. 25, but advised Miss Adams to get rid of the dogs to quiet neighbors' protests.

## Probe of Prison Break Is Resumed; Search Goes On

Hope of Finding Convicts in Northern Indiana Is Abandoned.

MICHIGAN CITY, Ind., Sept. 29.—With every one but witnesses and principals barred, trustees of the Indiana state prison resumed their investigation today of the escape of ten convicts last Tuesday.

Meanwhile, hope of finding the criminals in northern Indiana was abandoned. National guard troops which assisted in the search were dismissed and members of the state police force who had assembled in this vicinity were ordered back to their various posts.

Captain Matt Leach of the state police expressed the belief the con-

McNutt Charges Ickes Is at Fault by Tight-Fisted Money Policy.

### 'RED TAPE' ASSAILED

Indiana Ready for Months, Asserts Executive in Denying Charges.

Governor Paul V. McNutt today cited the state highway commission record to show that Indiana was one of the first states to submit a highway construction program to the federal government and delay is at Washington, not here.

The record, Governor McNutt said, will disprove the charge made by the national public works administration that Indiana is one of fourteen states which have delayed collection of federal funds for highway use.

A Washington dispatch set out that the public works administration is displeased with the failure of the fourteen states to use the funds and is considering their withdrawal.

Indiana's allotment is \$10,037,843.

Plan Was Developed As soon as the federal plan of full payment was announced, the state highway department developed a plan of expenditure, the records show. It provided for use of 47 per cent on state highways in the various counties, 48 per cent in cities and towns of more than 3,500 and 5 per cent on feeder roads.

The program was sent to Washington for approval. Months passed. First a county program was approved and bids for construction received. Three weeks ago, the cities program was given the federal O. K.

But after the approval came from the federal public works administration, it was necessary to send detailed plans of each project back to the federal bureau of roads for final authorization.

Governor McNutt pointed out that this "red tape" is the real cause of delay and that much time could have been saved, if the commission was permitted to proceed when the general plan had been approved.

The "heat" on Interior Secretary Harold Ickes' "close fist" policy in carrying out the public works expenditure is blamed by state administration leaders for the delay in the entire public works construction program.

Little of the cities work will be done before spring since approval of plans have not yet come from Washington, according to Chairman James Adams of the highway commission.

This program was the largest submitted by any state, it was said.

## FAUCET PROVIDED WINE AT GOLF COURSE HOLE

Hose Led to Vat From Which Beverage Had Been Missed.

STOCKTON, Cal., Sept. 29.—The eighteen hole of the Woodbridge Golf and Country Club here suddenly erupted the post-prohibition popularity of the famed "nineteenth hole." At the peak of this popularity managers of a nearby winery discovered their sherry vat was empty.

After superintendents allowed 8 per cent for evaporation, 10 per cent for the night watchman and 16 per cent loss through leakage, the shrinkage still was too grave.

Investigation revealed a rubber tubing leading from the vat to an underground pipe that bubbled up "miraculously" at the eighteenth hole with a faucet conveniently attached.

## 'Prohibition's Betrayal' Flailed at M. E. Parley

Strict Compliance With NRA Is Urged by Dr. Fifer at Conference.

Indiana Methodist ministers and laymen, in convention here today were called upon "not to support any recovery program that gets support from brewers and distillers," in a report of the committee on state of the country, which was read by Dr. Orin Fifer, committee chairman.

Dr. Fifer declared in his report that "the revenue from these sources will be justified," on the grounds that these agencies destroy every form of Christian character and living.

The committee urged strict compliance with the NRA and its provisions of the program, which "establish a better social, economic and industrial order."

Dr. Fifer reported "our conviction that the industrial order of this state and the union should express justice and fraternity in keeping with the following principles:

"We record," Dr. Fifer reported, "our conviction that the industrial order of this state and the union should express justice and fraternity in keeping with the following principles:
