A BOOK A DAY BY BRUCE CATTON

"THE PEOPLE'S CHOICE," by Herbert Agar, passes the Presidents of the United States in review, from Washington to Harding, and concludes that the caliber of men elected to that high office has suffered because of the rapid spread of democracy in a country which also elected to go industrial at the same time.

Of the first seven Presidents, says Agar, six were first rate men by any standard—world statesmen of whom any nation might be proud. Then, after Jackson, came a vast extension of democracy. The oligarchy which had governed the country lost its power and the voice of the people became supreme. As a result, he says, only four of the remaining Presidents were truly big men. The rest range from mediocre to worse.

As Agar sees it, a good bit of this trouble arises because the nation tried to combine the Hamiltonian programs at once.

Hamilton's scheme for protected industry, a powerful owning class and a strong federal government was adopted—and so was Jefferson's plan for complete democracy. The old south tried to "preserve Jefferson's agrarian civilization as well, and was crushed in the Civil war. At the same time, Hamilton's profound distrust of the common people was ignored.

"The People's Choice" is a stimulating and valuable book. Published by the Houghton Mifflin Company, it sells for \$3.50.

FALSE TEETH
Tighter and Longer

I've tried several kinds of powders to hold my false teeth. When I tried FASTEETH I found the one powder that does not just sit out or wash away, but stays put all day. It gives a most pleasant feeling, a real sense of security and holds and holds and holds. It is always pleasant. If anyone with loose-fitting false teeth wants all-day comfort and a real stay there fit, insist on FASTEETH at Hook's or any good drug store.—Advertisement.
