

TAX GROUPS TO BRING PRESSURE ON LEGISLATURE

Experts Declare Gasoline Fund Is City's 'Worst Budget Offender.'

BY AL LYNCH
Times Staff Writer

With the duplications of salaries said to be contained in the 1933 city budget which were the result of legislative action, civic organizations and tax reform groups of the city have vowed "additional interest" in proposed laws and amendments to present bills that will be thrown into the next legislative assembly.

Made a political "football" for many legislative sessions, the gasoline tax fund, derived from special state automobile license and the 4 cents a gallon tax on gasoline, is the worst offender, it is said.

Upon discovery of the alleged duplication it was found that practically every office position of the city engineer's office and some of those in the street commissioner's office have two separate salary checks each month.

In a breakdown of the gasoline fund and its budget, the duplication of salaries is revealed by tax experts. Payment of this duplication of salaries in the office instead of for labor, increases the tax bill of the city many thousands of dollars, it is said. It is pointed out by tax experts that special street bonds follow such practice, but a check reveals that no special street bonds have been requested by this administration.

Tax experts realize that under the present city budget, a saving of one-half the salaries was made by taking the other half of the salaries from the gas fund. However, it is said to be the contention that the salaries are twice what they should be for work accomplished under these economic conditions.

Straight salaries, as set out in the city budget for the engineer's department, include:

SYMPHONY TO CLOSE DRIVE FOR MEMBERS

Campaign Will Be Brought to Finish Tomorrow at Luncheon.

The membership campaign of the Indiana State Symphony Society will be brought to a close tomorrow at the final report luncheon at the Athenaeum. Prizes will be given those team captains who have brought in the largest number of subscriptions for the season.

Drive leaders made a final appeal yesterday to city music lovers to give their support to this civic enterprise.

"The Indianapolis Symphony orchestra," asserted Sidney Sullivan, "is a self-supporting, co-operative institution. It is composed of musicians who believe that the city needs good music to round out its cultural experience and who are willing to sacrifice their time and effort in rehearsal, study and public appearance for an incredibly small amount of money."

"Our orchestra played last season," said Mr. Sullivan, "five major concerts of full symphony caliber and length, in Indianapolis; two similar concerts in cities outside Indianapolis, and four children's concerts for the musical education of

the STAR OF THE SEASON

EATMOR CRANBERRIES are in the spotlight. Sauces—puddings—pies—cakes—cocktail—all become stars of the meal when made with Eatmor Cranberries.

Here is a simple recipe for fresh cranberry sauce—

"10-Minute" Cranberry Sauce (Stewed Cranberries)

Boil 2 cups of water and 1 1/2 to 2 cups of sugar together 5 minutes, then add 4 cups Eatmor Cranberries. Boil without stirring (5 minutes is usually sufficient) until all the skins pop open. Remove from fire when the popping stops, and allow the sauce to remain in vessel undisturbed until cool.

Your grocer or fruit dealer will be glad to give you Eatmor Cranberry recipe cards which contain many other interesting recipes for Eatmor Cranberries.

school children, at which attendance was 10,000.

"Applause is the artist's bread. The orchestra wants a full auditorium for every performance. This can be assured by complete and full subscription to every one of the seats available."

Headquarters of the society, which sponsors the orchestra without profit, are at the Wilking Music Company.

DEW HINDERS BUTLER MOONLIGHT FOOTBALL

Pigskin Artists Don Mud Cleats for Dampened Field.

The dew is on the pumpkins and it's coming out of the Kentucky mountains and the hills of Clinton, Ind., to warm up football crowds, but the dew at Butler stadium is of

a nocturnal brand and it's causing trouble.

The dew faced by the Butler bulldogs when they play moonlight games at the stadium has resulted in the university's gridiron warriors donning heavy mud cleats to amble down field.

"It looks like a misspent rain and feels like a wet blanket in a scrimmage," declare Butler pigskin artists.
