

COPS KEPT ON JUMP BY PETTY ROBBERY SERIES

Two Burglary Suspects Held for Explanation of Goods in Car.

A series of small burglaries in various parts of the city and the arrest of two men held on suspicion of having transported stolen goods, occupied the police last night and early today.

Early today police came upon a sedan parked on the Cold Spring road one-quarter mile north of Road 52, in which two men were seated. Police searched the car and found four new typewriters, fountain pens and a quantity of clothing.

The men, who gave their names as Dallas M. Spurgeon, 30, and Horace Glover, 32, both of Hillsburg, Ind., were arrested on vagrancy charges and held under high bond.

Served Larceny Term
Glover told police that he obtained the goods in a trade in Cincinnati, Glover said, according to the police, that he had served six months at the penal farm for petty larceny. Spurgeon, according to the police, admitted that he once had been fined \$100 and costs and served sixty days for printing obscene literature.

An undetermined amount of groceries was stolen from the grocery owned by Leonard Meisberger, at 1146 South West street, early today. The cash register was open but nothing was stolen, according to the police. Entrance was gained by breaking the glass in the front door.

William Howard, 1344 West Thirtieth street, told police that he fired three shots at a man who stole six chickens, valued at \$5, from his garage.

Vernon Leberer, 1514 East Nineteenth street, reported clothing valued at \$4 was stolen from his home last night.

Twelve packages of tobacco and three cartons on cigarettes value at \$4.35 were stolen from the bakery owned by Theodore Repenack, 2002 Hillside avenue, last night.

Grocery Window Broken

Three rocks were thrown through the window of a grocery at 1104 East Seventeenth street, owned by Essex Curtis, last night, according to police. Nothing was stolen.

Mrs. Robert B. Holland, 2031 Park avenue, reported that a man who raised the screen of her rear window attempted to get into her house early today. When she asked him what he was doing, he ran away.

Anthony Orr, 3710 Arthington boulevard, reported his home ransacked and a strong box containing valuable papers stolen during his absence last night.

DISTILLERIES PREPARE FOR HOLIDAY DEMAND

U. S. Supply Inadequate, Imports to Be Necessary.

CHICAGO, Oct. 13.—American distillers are preparing for a big Christmas trade, and hoping their supply lasts through the holidays. Liquor to quench the American thirst after the first big "sprung" will have to be imported, distillers say. American distilleries can not possibly catch up with the demand before next spring, they believe.

One European firm, it was learned, has announced it is ready to start 20,000,000 bottles of champagne to the United States as soon as repeal is effective.

The price which the consumer will be required to pay for the present American supply and that imported has not been decided upon, but one distiller predicted the price would be about \$4 a quart for the best grades.

What SHE TOLD WORN-OUT HUSBAND

SHE could have reproached him for his fits of temper—his "fall in" complaints. But wisely she saw in his frequent colds, his "fagged out," "non edge" condition the very trouble she herself had whipped. Consumption! The very morning after taking **NR** (Nature's Remedy), as she advised, he felt like himself again—keenly alert, peppy, cheerful. **NR**—the safe, dependable, all-vegetable laxative and corrective—works gently, thoroughly, naturally. It stimulates the eliminative tract to complete, regular functioning. Non-habit-forming. Try a box, 25c—at druggists.

Why-Er Eric

Current Wonder Startles Blase Reporters.

MONTREAL, Oct. 13.—Eric the Robot, a two-ton mechanical "brain child" of a British woman inventor, has just granted his first Canadian "interview."

Brought here for exhibition at the radio show, the mechanical marvel held a group of newspaper men in awe for fifteen minutes by his uncanny ability to answer questions and obey commands.

Greeting reporters with outstretched hands, Eric led them to seats, sat down himself, and told them he was 6 years old, unmarried, liked blonds and beer and lived on "electric currents."

Frequently during the interview, at the command of reporters, the robot got up, walked around the room, waved his arms and even managed a weak hic-cough when asked what happened when he "drank too much beer."

A cleverly constructed assembly of metal resembling a human being in armor, Eric is like a modern Frankenstein. He is the creation of Professor Miriam Holden of England, a prominent physicist.

A. & P. WEEKLY TONNAGE SALES DOWN SLIGHTLY

Four-Week Period Shows Decline of 4.67 Per Cent.

Sales of the Great Atlantic & Pacific Tea Company for a four-week period ending Sept. 30 were \$60,661,476. This compares with \$63,634,883 for the same period in 1932, a decrease of \$2,973,405, or 4.67 per cent.

September sales expressed in tons were estimated at 357,638 this year, compared with 391,865 in the same period of 1932. This is a decrease in quantity of merchandise sold of 34,227 tons, or 8.73 per cent.

Average weekly sales in September were \$15,165,370, compared with \$15,908,721 in 1932, a decrease of \$743,351. Average weekly tonnage sales amounted to 89,410, compared with 97,966 in September last year, a decrease of 8,556 tons.

DISCOVER SITES OF PRIMITIVE INDIAN TOWNS

Excavations Made in Ohio Reveal Bones of Tribesmen.

CINCINNATI, O., Oct. 13.—Clarence Anderson and Franklin Reichert, residents of Sharonville, near here, believe they have discovered the site of three primitive Indian villages.

Their recent excavations, resulting in disinterment of a skull and skeletons of two braves, promise to attract expert archeologists, and to produce missing secrets of the Redman's life in this part of the country.

The skeletons and skull were found at the bottom of a mound situated high on a promontory, overlooking the Milcreek Valley near Sharonville. The mound rose

Plan for Farm Settlement Urged Upon Canada

Land Would Be Cultivated by British Immigrants for Five Years.

MONTREAL, Oct. 13.—An ambitious settlement scheme, which, if adopted, would transform huge tracts of land throughout Canada into small farms, occupied by immigrants from Great Britain, has been advanced by Brigadier-General Hornby of Alberta.

General Hornby has placed his about eight feet above the general level of the promontory.

It was believed the skeletons were those of men of a primitive race which preferred the spear to the bow and arrow, since several flints were found, measuring from six to eight inches in length. They had been pressed to a sharp edge, rather than ground.

The discovery was made as Anderson and Reichert were leveling off the property.

REMOVAL OF CLAM BAN BRINGS WORK

Old Industry Is Revived to Aid Unemployment.

BELOIT, Wis., Oct. 13.—Removal of a fourteen-year ban on clamming in the Rock river to relieve unemployment has revived an old industry here.

The smell of cooking clams and huge piles of shells mark the location of scores of camps along the river banks.

Five or six bushels of shells a day is an average catch. They bring about \$35 a ton "on the bank" or as much as \$65 a ton delivered in the city. The shells run about forty bushels to the ton. Wilbur Hoffman, Rockford, Ill., who collected five tons of shells in ten days, has the record catch to date.
