●RIGHT—TALKING IT OVER calls for more Camels. Steady smoking reveals the true quality of a cigarette. Prove to yourself that Camels keep right on tasting mild, rich and cool...no matter how freely you smoke them. Camel's costlier tobaccos do make a difference!

## Steady Smokers turn to Camels

"I know of no sport," says Erich Hagenlocher, "that places a greater strain on the nerves than tournament billiards. The slightest inaccuracy, the most fractional miscalculation can ruin an important run. If I were asked to give one simple rule for success, I should say, 'Watch your nerves!' That's why I smoke Camels, and have smoked them for years. I like their taste better and they're milder. But more than that, they never upset my nervous system, and believe me, I smoke plenty."

There is a difference between Camel's costlier tobaccos and the tobaccos used in other popular cigarettes. You'll notice the difference in taste and in mildness—and Camels never jangle your nerves. You can prove this yourself. Begin today!

## IT IS MORE FUN TO KNOW

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. They give more pleasure. Your own taste will confirm this.
