STATE HUNTERS  
GIVEN WARNINGS  
ON ACCIDENTS

Series of 'Don't's' Listed to  
Protect Lives of  
Nimrods.

With the hunting season in full swing a few "don't's" for hunters seems to be in order. Each year many persons are injured and some killed owing to their own carelessness or the carelessness of some one in the party. This condition can practically be eliminated if all hunters would hunt with the thought of safety present at all times. Here is a list of "don't's" for hunters that we hope may be of help when you are in the field.

Don't point a gun at any one, not even an unloaded gun. Treat an unloaded gun exactly like a loaded one.

Don't pull a gun toward you muzzle first through a fence or from a boat. Keep the dangerous end of the gun pointed away from you and keep it pointed away from your companions.

Don't lay a gun on the ground or lift it from the ground, muzzle toward you.

Don't climb over a fence without extracting the shells from the gun or laying the gun on the ground on the opposite side of the fence, or standing it where it can not possibly fall while you are climbing over. It is a courtesy, if hunting with a companion, to hold his gun for him while he climbs over the fence and in turn, hand him your gun while you climb the fence.

Don't carry a loaded gun in the corporation or city limits.

Don't carry a loaded gun in an automobile or other vehicle.

Don't permit the muzzle of the gun to become clogged with dirt, mud or snow.

Don't use high velocity ammunition in a cheap gun.

Don't shoot at a movement in the brush. Always see your game so well that you can positively identify it before you shoot.

Don't, in fun, endanger human life or domesticated live stock.

Some of these "don't's" may deprive you of a shot occasionally, but the fact that you know that you are a safe hunter is compensation for this.

The River Aquatic Club, four miles northeast of Noblesville, on State Road 13, will hold a turkey shoot at the club Sunday, Nov. 25, starting at 12:30 p. m. The shoot will consist of both trap and rifle contests, the trap shooting at sixteen yards. Teams will be made up for the rifle match, contestants being placed according to their ability. Open sights will be used. Ammunition will be furnished contestants at the range, or if you prefer, you may bring your own. Some of the state's leading shots will attend this meet. The club has fifty members and invites the public to be with them for this shoot. Since this club has been in operation all profits made have been used to stop pollution of White river. For this reason the club deserves your support and promises you an enjoyable time if you attend.

Gene White ran into one of those "don't's" for hunters, but the goddess of luck was with him and he escaped injury. While hunting with Charlie Stich in a field that was weedy, White allowed the barrel of the gun to become clogged and the barrel blew up on him. Each of the boys had one rabbit at the time of the accident and then called it a day.

According to Harry Matlock, he and Herb Whitman had some fine sport down in Parke county the other day. Whitman secured five rabbits and one quail and Matlock the limit of rabbits and four quail. Matlock claims that Whitman would have had the limit also, but he ate too much chicken before going into the field.

Hunters are growing careless in the woods and the result is a series of forest fires. It is only the matter of a second of your time to make sure that the match is dead before you toss it away and the same is true regarding your live coals from your fire, cigar, cigarette or pipe. Remember this on your future trips and be sure all fires are out before moving on.

James Jacobs enjoyed his trip to Lebanon and returned with six rabbits. John Batman was another nimrod out for the game and he took three a few miles south of New Bethel.

George Godby, Ralph Bowers and Frank Bauer returned with seven rabbits and four quails from a hunting trip at Nineveh.

John Browning, Sam Crosby and Virgil Birch found the rabbits plentiful and had twenty-four when they returned tired, but happy.

I had periodic pains in my side, and headache. I tried almost everything on the market for this trouble without obtaining relief, but Dr. Pierce's Favorite Prescription made me as well and strong as I ever was in my life."

● And it is all so simple.  
It only seemed yesterday she felt discouraged and so conscious of a pimply skin... now to have it clear... why, of course she is very happy.  
A friend had urged her to do as she had done... reasoned that the "trouble" probably came from within the body—the blood.  
She followed her advice to take S.S.S. Tonic... what happened? First, she felt better. Then replaced a tired, worn-out, down-feeling... she awoke every morning more cheerful and gradually her skin took on a clear, healthy tone. Then when she added powder and lipstick... what a difference! Do you wonder she is happy? No more open dates now.  
You owe it to yourself and associates to try S.S.S. Tonic... it is very old, acceptable, successful product. It will not interfere with any other medicine you may desire to take at the same time.  
S.S.S. is obtainable in any drug store... it is liquid of course... never sold in tablet form.
