

NRA CODE TO OPEN JOBS IN STATE HOTELS

Thirty Per Cent Increase in Employment Predicted After Monday.

Thirty per cent increase in employment in Indiana hotels is expected Monday when the permanent national hotel code will become effective, according to William H. Caldwell, secretary of the Indiana Hotel Association.

Mr. Caldwell said actual figures on the increase in employment would be made known after the state hotel body holds its annual convention here Dec. 1 and 2.

Hotels in the smallest cities and towns will be forced to add two or three maids and one or two clerks because of the code, Mr. Caldwell believes.

The code provides for a fifty-four-hour week with a minimum wage of \$14 a week. Tips are included in wages. The employer is permitted to deduct 25 cents for each meal the employee takes on the premises and \$2.50 for his weekly room rent, if he lives at the hotel.

The hotel association's annual meeting will be held in the Severin, Lincoln and Claypool hotels with the annual banquet in the Lincoln.

PERSONALITY STUDY USED IN BOOZE CURE

Habit Training After Analysis Is Recommended by Doctor.

By Science Service

RICHMOND, Va., Nov. 22.—Personality analysis and adjustment, combined with habit training and strict abstinence, were recommended for the treatment of chronic alcoholism by Dr. Oskar Diethelm of the Johns Hopkins hospital, Baltimore, at the meeting of the Southern Medical Association here.

This is the only treatment that can be effective in all cases and can be adjusted to the patient's individual needs, Dr. Diethelm said. The reason why the patient drinks, whether to gain social confidence or to chase away the "blues" or to forget disappointments, must be determined and explained to the patient. When he understands the situation, he will co-operate in the treatment which consists in taking away his alcohol and re-educating him so that he learns to face his difficulties without recourse to alcohol.

A cure has been achieved when the patient no longer needs alcohol and has confidence in himself because he does not have to drink, Dr. Diethelm stated.

NEW WAY FOUND TO FIGHT SCARLET FEVER

Doctors Get Fine Results in Louisville Epidemic.

By Science Service

RICHMOND, Va., Nov. 22.—A new method of giving children resistance to scarlet fever was reported by Drs. J. D. Allen, Jessell Love and E. H. Sandlin of Louisville, Ky. The method is said to develop the children's resistance more quickly and with fewer and smaller doses than the method now in use and the resistance is said to last longer.

Instead of using a toxin produced by the scarlet fever germ to develop the resistance to the disease, the Louisville physicians have developed a preparation that is akin to the bacteriophage or "germ eater." They call it "phagoid."

The preparation was tried during an epidemic of scarlet fever in Louisville schools, at the request of the city health officer, Dr. C. H. Harris. None of the children developed scarlet fever after receiving the first dose and the epidemic was immediately controlled in every school.

CLUB CANDIDATES 'STRUTTING THEIR STUFF'

Candidates on administration ticket No. 1 of the Universal Club presented a dramatic skit, "Strutting Our Stuff," at the luncheon meeting in the Columbia Club yesterday at noon. Horace Riggs, left, past president and candidate for director, poses as "an honest plumber," while Max B. Merritt, right, candidate for president, impersonates "the modern money king."

The annual election will be held Dec. 5 at the Columbia Club. The "Real Pals" ticket will stage its campaign program next Tuesday at the noon meeting.

QUEBEC IN DRIVE ON LOW-TYPE CABARETS

"Blind-Pigs" Closed for Violations of Liquor Laws.

By United Press

MONTREAL, Nov. 22.—A vigorous drive against "blind-pigs" and certain types of cabarets and cafes has been started here by Quebec liquor commission police.

During the past year, scores of blind-pigs have sprung up and unchecked by police, many of them have been operating "wide open."

They have become so numerous that police found, and raided, thirty-eight during the first two days of the campaign.

The licenses of several of the lower class types of cabarets and cafes have been cancelled because of offenses against liquor laws and several others are operating under close surveillance.

RAREST METAL FOUND IN DESERT NEAR SEA

Tantalum Discovered in Considerable Quantity by Russians.

By United Press

MOSCOW, Nov. 22.—The rarest metal known to science, tantalum, has been discovered in substantial quantities by a geological expedition in the desert of Kail-Kum, near the Aral sea, the Academy of Science has revealed.

Heretofore tantalum was extracted only in the deserts of Australia and America. The location of a Russian source is regarded as important.

PROBE PLOT TO BLAST BOILER AT APARTMENT

Discover Act of Vandalism, Apparently Intended to Cause Explosion.

Police today were searching for persons responsible for an attempt to blow up a boiler in an apartment house at 108 East St. Clair street.

The steam boilers in the apartment were found drained yesterday and the emergency valve bent so it would not operate. The vandalism would have resulted in a boiler explosion and wrecked the building, police say.

The attempt to blow the boilers is linked by police with the slugging of Daniel Pendleton, Negro custodian of the apartment, who was found Sunday in a semi-conscious condition in the basement of an apartment at 1309 North New Jersey street.

It is believed that the East St. Clair apartment's boilers were molested in the hope that an explosion would injure Pendleton or cause loss of his job.

Mrs. J. H. Boswell, apartment owner, reported the vandalism to police.

GIVEN 60 DAYS FOR TAPPING LIGHT WIRES

City Man Pleads Guilty, Gets Fine, Farm Term.

By United Press

Pleading guilty to charges of unlawfully diverting electric current, Raymond McHugh, 121 North Sheffield avenue, was fined \$5 and costs and sentenced to sixty days at the state farm by Judge Dewey Meyers in municipal court three today.

C. H. Cunningham, representative of the Indianapolis Power and Light Company, testified that McHugh tapped electric wires and connected with a meter at 1217 North Sheffield avenue, a vacant house, thus creating a serious fire hazard.
