

NEW CARS TO BE IN STREET SERVICE SOON

Delivery of Both Regular and Trackless Types Will Be Made.

Installation of wires and poles is being pushed by officials of the Indianapolis Railways, Inc., in order to place in service before Christmas a part of the new equipment, recently ordered.

The company expects delivery of a large number of the eighty trackless trolleys and fifty modern street cars within a few weeks.

Trackless trolleys will replace street cars on the following lines: Northwestern, Pennsylvania, Columbia, Brightwood, Brookside, English, Prospect, South East, West Indianapolis, West Tenth, West Michigan, East Tenth and Indiana.

Wire to Cost \$375,000

Cost of construction of the necessary overhead wires for the new service is estimated at more than \$375,000 by company officials. Work has progressed rapidly during this month on Northwestern, West Tenth, West Michigan, East Tenth, Prospect and West Indianapolis lines.

More than fifty new employees have been placed on this work. To date, 646 new steel poles have replaced the old iron type.

Bases for three hundred additional poles also have been installed and a large number of feet of new span wire and cable has been replaced, consisting of 133 miles of trolley wire, 21,000 trolley ears and hangers, more than 233,000 pounds of weatherproof cable, 106 miles of span wire and 20,000 insulators.

Routes Changed

Trackless cars on the West Tenth line will follow the present route, but on the West Michigan line, service will be extended to the

On the West Indianapolis line trolleys will follow the present route except service will be provided on Belmont avenue instead of

VOTING URGED ON CITY-OWNED WATER PLANT

Federation of Civic Clubs Sponsors Petition for Election.

A campaign for municipal ownership of the Indianapolis Water Company will be developed today by the Indianapolis Federation of Community Civic Clubs.

The committee composed of William Bosson, attorney, chairman; Edward Sneathen and Oscar Smith will meet to discuss methods for circulating a petition calling for a special election of voters.

This action comes as a result of favorable sentiment concerning municipal ownership shown at recent meetings of the Indianapolis Federation and the North Side Federation of Clubs.

Sherman Minton, public counselor for the public service commission, fired the spark for the movement when he described utility conditions throughout the state at a meeting of the Indianapolis federation.

Forecasting his plans, Mr. Bosson

hopes that the necessary signatures of one-fifth of the voters participating in the last election may be attached to the proposed petition.

The committee has pointed out that municipal ownership would occasion a decrease in water rates. Instances of successful ventures of this nature were cited in other Indiana cities.

About nine-tenths of the coal mined in Bulgaria is produced by the state-owned colliery at Pernik.
