GUIDE BOOK TO HELP STUDENTS AT WASHINGTON

Valuable Information Is Contained in New Publication.

The George Washington Chapter of the National Honor Society is publishing a new booklet entitled "The Gist." This book is named after Christopher Gist, an explorer and early authority on the American frontier, who guided George Washington from Virginia through the forest to the French forts near the Ohio valley. The Gist is intended to guide students in a like manner through their "journey" at Washington high school.

The honor society dedicated the book to the incoming students. It is the hope of this society that the book will give a better understanding of the school organization and a finer appreciation of high scholarships and sportsmanship.

The Gist contains information about all general activities of the school, graduating honors and scholarships, the school history, regulation of school terms, curriculum, organizations which include about nineteen extra curricular clubs, athletics, military training, school songs and yells, and a plan of the building and grounds. It has five illustrations, including a picture of the principal, the Washington coat-of-arms, the school seal, the school parade, and a plan of the building. The cover of The Gist is done in the school colors. It has eighty-two pages and is a convenient size for pocket or purse.
