

# CWA WILL GIVE JOBS TO 10,000 MORE HOOSIERS

Federal Authorities Add to State's Quota: Total Is 84,000.

Ten thousand more men in Indiana will be given employment under the civil works program, as result of the federal government increasing the state's jobs quota.

The increase was announced in a telegram received by William H. Book, state unemployment relief commission secretary.

The government requested that the additional men be used on city and county, rather than state projects, if cities and counties are able to develop good projects without delay.

The additional men will be apportioned to the counties which have made the best record in putting men to work under their original quotas.

County administrators have been instructed to report by Friday noon the number of men on their pay rolls at the close of the pay week Thursday, and these figures will be used in apportioning the new quota. The 10,000 quota increase brings the state's quota to 84,000 men full time.

Civil works administration figures show a total of 2,608 projects approved, employing 95,298 men, with total wages of \$14,888,964.

The difference in figures results from the fact that the government quota is for full time work, whereas the Indiana administration estimates the number of men who actually will be on the pay roll some time during the program.

WHO TAUGHT YOU HOW TO ADD?

Are jangled nerves making you a grouch?

You are really another person when you are suffering from jangled nerves... You snap out sharp comments, make unreasonable criticisms that sting. Of course, you are sorry later—but you may have alienated your family, a loyal employee, or a good friend... Watch your nerves. Get your full amount of sleep every night. Eat regularly and sensibly. Find time for recreation. And smoke Camels... For Camels' costlier tobaccos never get on your nerves.

COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand of cigarettes!

How are YOUR nerves?

CAMEL

Hold your pencil about two inches above the point... Lift your wrist and arm so they don't touch the table... Place the point of the pencil on the first dot... Close your eyes and draw a line exactly four inches long... Repeat the process a second time, then a third time. See how nearly correct your lines are. A good score is within one-eighth of an inch for each line.

Hugo Johnson (Camel smoker), Paramount News cameraman, drew two perfect 4-inch lines and one line only 1-16 of an inch off on the first try.

CAMELS—THEY NEVER GET ON YOUR NERVES!
