

FRANCE LAUDS PEACE SPEECH OF ROOSEVELT

Official Statement Pledges
Nation's Support of
Every Point.

(Copyright, 1933, by United Press)
PARIS, Dec. 29.—French statesmen were deeply moved by President Roosevelt's speech outlining America's foreign viewpoint, the United Press was advised officially today.

"France agrees on every point, and is grateful for this evidence of a perfect communion of ideas," said Foreign Undersecretary Francois de Tessan after a thorough study of the speech in consultation with Premier Camille Chautemps and Foreign Minister Joseph Paul-Boncour. "M. Paul-Boncour was particularly moved and characterized the speech as magnificent."

Full Support Pledged

French government leaders were particularly pleased at the President's statement that 90 per cent of the world's people were satisfied with present national boundaries. They expressed pleasure also at his statement in favor of international control of armaments, which France makes an essential prelude to demobilization.

"Making an official statement in the name of the French government I am pleased to report France's happy reaction and full support of every point of the President's speech," said de Tessan.

Without adhering to the League of Nations, the United States now, by parallel action, supports the same doctrines of equality of nations, disarmament and armament control that French people have maintained.

Congratulations Sent President

"President Roosevelt and M. Paul-Boncour are in complete agreement. Nothing stands between American and French foreign policies, except that we are members of the League of Nations and the United States is not. But even then, the United States proves it is as attached to the welfare of humanity as any member of the league."

French Ambassador Andre Delaiblouye will call at the state department in Washington to convey to the President the congratulations of Foreign Minister Joseph Paul-Boncour on the speech, it was revealed.

YOUTH, 20, HELD FOR KILLING OF DEAF GIRL

Seized After 2,000-Mile Flight;
Confesses, Police Say.

By United Press
LOS ANGELES, Dec. 29.—A 20-year-old youth who purportedly confessed killing Margaret Peevy, Michigan deaf-mute, was held in county jail here today, awaiting return to Grand Rapids to face murder charges.

William McMann was arrested in a local telegraph office last night at the end of a 2,000-mile flight from a corn field where he said he left the girl's bullet-pierced body. Police said he readily admitted killing her during a quarrel.

He signed an extradition waiver.

In 1875, the first regularly organized agricultural experiment station in America was established at Middletown, Conn.

Contract Bridge

Today's Contract Problem

South has the contract for four spades. West opens the eight of diamonds. How should declarer play the hand to make game?

♠ J 10 7 3
♦ Q 9 3
♦ J 7 5
♦ A 10 9
♣ K Q 7 4

Solution in next issue. 21

Solution to Previous Contract Problem

BY W. E. MCKENNEY
Secretary, American Bridge League

IT is true that many hands that you bid for game can be defeated, if the opponent can guess the killing opening. But that should not discourage your bidding.

When you receive an advantageous opening, you must pounce upon that opportunity and make the most of it.

Today's is a simple hand, but it brings out a good point in bidding and a simple point in play.

In the constructive system of bidding, when your partner assists your original bid with just one simple raise, he is simply advising you that he has four of your trump and two probable entry cards. One of them may be in trump.

In other words, it is just what might be termed a chance-giving bid.

Then again, he may have an intermediate hand, just between a two and a three bid.

Now, having found a fit with your partner, it is not always advisable to show that second suit, especially if it is a tenace suit and there is any chance of its being opened. I believe, with South's hand, that he is justified in taking the long chance and jumping the hand to four spades.

The declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when

the declarer can see that, if West opened a club and continued with clubs, and if the queen of hearts is wrong, he is bound to lose a diamond, two hearts and a club.

Therefore, as long as the club was not opened, he now must establish a long heart, on which to get a discard of a losing club. So a small heart is returned, and when
