

SURVEY SHOWS STRONG BACKING FOR PRESIDENT

Policies Popular, People Insist He Be Upheld, Congress Finds.

WASHINGTON, Jan. 8.—Overwhelming support of President Roosevelt was indicated today in a survey of sentiment among senators and congressmen at the end of the first week of the present session of congress.

Disagreement with certain aspects of the President's policies was expressed here and there, but Democrats and Republicans alike testified to Mr. Roosevelt's personal popularity throughout the country. They agreed that to oppose him vigorously now would be to fly in the face of public opinion.

This condition was expected to prevail as long, at least, as economic conditions continue their present favorable trend.

Members Give Counsel

Members of congress who seek their constituents' views have reported that the people want the President supported to the utmost. It frequently is difficult to ascertain the people's views on various issues as they arise. But when the issue is narrowed down, as at present, to the people's attitude toward the President, the task is simplified enormously.

Comment of representative members of both houses:

Senate Majority Leader Joseph T. Robinson—I think the President has justified by the wisdom and discretion of his actions, the power given him by congress.

Senate Minority Leader Charles McNary—It seems to me that we have purchased the semblance of prosperity at an enormous cost.

Senator James Couzens (Rep., Mich.)—I endorse the President's reference to the need of readjusting the machinery of the government. Being an optimist, I feel that in the next six months experiments will show that these adjustments have been made.

Norris Is Pleased

Senator George W. Norris (Rep., Neb.)—I am in entire sympathy with what the President is trying to do. I am not always in agreement with the program, but I believe that his program affords the only hope that I can see for the American people.

Senator William Borah (Rep., Idaho)—The new deal has abolished child labor.

Senator James F. Byrnes (Dem., S. C.)—The people want the President supported and every one seems to feel that the people should have their way.

Senator Roscoe C. Patterson (Rep., Mo.)—We can not spend our way out of the depression, nor borrow ourselves out of debt. The policy of the present administration, if continued, can have but one result, namely, disaster.

House Majority Leader Joseph W. Byrnes—The program is accomplishing the results hoped for. There has been a general improvement in business and agriculture. Millions of people have been put to work and the number of unemployed is rapidly decreasing due to the recovery program. The country is on a steady and certain road to restoration of normal, prosperous conditions.

Minority Leader Bertrand H. Snodgrass—We will support the President so long as we feel his acts are for the country's good.

Chairman Henry B. Steagall of House Banking and Currency Committee—Not the slightest doubt the program is making progress. Of course men may differ as to turning over powers to the President, but there is no doubt it is working out. I favor backing Roosevelt to the limit until we reach the point where it is safe to curtail activities.

Representative Fred A. Britton (Rep., Ill.)—The people are wishing Roosevelt well while reserving their doubts for the time being.

Representative Paul J. Kvale (F-L, Minn.)—My people still look with confidence to the President.

Representative Frank Crowther (Rep., N. Y.)—A slight improvement seems to be here.

Representative Henry Ellenbogen (Dem., Pa.)—The President is more popular now than when he was elected.

Representative Florence P. Kahn (Rep., Cal.)—The President is more popular than parts of his program.

FAMILY CLEARED IN CITY WOMAN'S DEATH

Coroner Clings to Murder Theory Despite Apparent Fall.

While still clinging to a theory that Mrs. Elizabeth Hutchinson, 69, of 3615 North Illinois street, was murdered, and did not die in an accidental fall, Coroner William E. Arbuckle today exonerated members of the family.

Mrs. Hutchinson's body was found Wednesday at the foot of a cellar stairway at her home by a nephew, who had been helping her with the laundry. Detectives are of the opinion death resulted from a fall, but the coroner said an autopsy revealed a skull fracture appearing to have been caused by a hammer blow.
