PWA FUND TO BE USED FOR SEWAGE WORK

Sludge Plant Completion Planned: Board Head Lauds Van Nys.

Money appropriated by the public works administration Saturday to the Indianapolis sanitary board will be used to complete the activated sludge unit of the sewage disposal plant, Maurice E. Tennant, board president, said today.

Between 250 and 400 men will be given employment on this project,

Mr. Tennant estimated. The board asked \$395,000 for completion of the sludge plant, on South Harding street, which the city long has needed, and received the entire amount.

"I feel that Senator Frederick Van Nys has been very helpful in obtaining this money for us," said Mr. Tennant. "The board has been contemplating this project for some time, but we had no assurance that it would go through."

Mr. Tennant said that preliminary plans had been worked out by the board, and that it is prepared to advertise for bids just as soon as the PWA notifies them when
