

CITY COP SAYS HE HAD BATTLE WITH DILLINGER

Police Story of Fight With Outlaw Here Stirs Dispute.

Dispute was rife today at police headquarters and it all centered on Patrolman Omer Lee and whether he actually had John Dillinger by the nape of the neck Saturday night, or was mistaken in his identity.

Calls flooded headquarters throughout Saturday afternoon to the effect "Dillinger is in town."

The most tangible clue to his presence is the report of Patrolman Lee that he struggled with a man he believes to be Dillinger in the 1100 block on West Washington street.

Ran Traffic Light
Patrolman Lee, off duty and unarmed, was driving his car with his wife and son as passengers. He saw an auto run a spotlight at Senate avenue and West street. Lee chased the car and forced it to the curb in front of the West Washington street car barns.

He said he leaped out of the car and demanded of the driver why he didn't stop at the light, and that the driver said: "You don't look like a policeman to me."

Lee said he then recognized the man as Dillinger and seized him about the neck but that the man broke his hold and shoved him from the running-board. Lee fell in the street. The man, he believed to be Dillinger, drove away. Lee said the car's number was 37-183, Ohio license.

Mary Kinder Questioned
A check of that number revealed that it belonged to a Cleveland man. The car was located in Cleveland.

Credence was given Lee's report in that tips had been received that Dillinger was in the city.

Immediately upon hearing of the alleged struggle, police went to the home of Mary Kinder. They questioned the sweetheart of Harry Pierpont.

Search continued today in the hopes that Dillinger might have returned to the city.

PRODUCERS CRITICISE NEW MILK AGREEMENT
Charge Benefits Will Accrue to Distributors.

The milk distributors' licensing agreement for the Indianapolis area, which was approved by the department of agriculture, will benefit distributors rather than producers, it was charged at a meeting of the Indianapolis Dairy Producers' Council in the Indiana Pythian building Saturday.

Under the new agreement, profits on 100 pounds of fluid milk destined for public consumption will be 46 cents, of which distributors will receive 36.4 cents, while producers will receive 9.6 cents, it was alleged.

The agreement which was approved at Washington increased the fluid milk price to producer from \$1.52 to \$1.85 a hundred pounds, it is generally understood that this will raise the retail price of milk from 9 cents to 10 cents a quart.

ENGINEERS WILL MEET
Emmett G. Fowler to Speak on Code Revisions.

Emmett G. Fowler will report on revisions in the tentative professional engineers' division of the construction industry code at a meeting of the Indianapolis Engineering Society at 8 Tuesday night in the Architects and Builders building.

ASYLUM PROBE BRINGS REFORM

Wisconsin Plans New Type of Administration to Check Abuses.

This is the last of a series dealing with discovery of abuses of patients in Wisconsin state institutions and reforms which are expected to result.

MADISON, Wis., March 26.—Disclosures of abuse of patients in Wisconsin's penal and charitable institutions today was expected to lead to an entirely new system of caring for the state's unfortunates.

Investigatory charged that charges of brutality against inmates in the past were ignored. Failure to inspect institutions led to the growth of liquor and dope smuggling rings in state institutions. One superintendent was forced to resign and his staff was suspended.

Dr. Lorenz is known to favor the present institutional setup in New York as to administration details. Governor Schmedeman also is known to favor the New York plan with a single responsible commissioner over all penal and charitable institutions.

One of the most radical departures to be proposed will concern first contacts of insane persons with institutionalization, treating them like sick people rather than criminals.

Senate Approves Pay Cut
WASHINGTON, March 26.—The senate concurred today in house federal pay cut amendments to the controversial independent offices bill.

Francis B. Sayre, son-in-law of President Wilson and a specialist in international economics, will discuss the administration's proposed tariff bill during the National Radio Forum over WFBM and an NBC network Monday, at 9:30 p. m.

investigating committee revealed evidence of numerous deaths caused by brutality of attendants and other improper treatments of inmates in insane hospitals.

Dr. William F. Lorenz, nationally-known psychiatrist, headed the Governor's investigators.

One certain development seems to be the periodic inspection and detailed examination of each institution by an outside, independent group such as the present investigators.

Investigatory charged that charges of brutality against inmates in the past were ignored. Failure to inspect institutions led to the growth of liquor and dope smuggling rings in state institutions. One superintendent was forced to resign and his staff was suspended.

Dr. Lorenz is known to favor the present institutional setup in New York as to administration details. Governor Schmedeman also is known to favor the New York plan with a single responsible commissioner over all penal and charitable institutions.
