WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep the body healthy. That is why you should wash out the bladder 3 pints of fluid a day which contains 4 pounds of waste matter.

If you have trouble with bladder irritation, kidney trouble, or any trouble with the 15 MILES of kidney tubes need washing out this is a great sign that the beginning of a kidney trouble may be the beginning of a kidney trouble. Leg pains, loss of pep and vitality, getting up nights, having to get up to urinate and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter you will have trouble with the kidneys causing serious trouble. It may knock you out of your job for months, even months. Don't wait. Ask your druggist for DOAN'S PILLS. This has been successfully used by millions of kidney sufferers for over 40 years. They give quick relief and will help wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called kidney tonics. They can't fix you up in 15 minutes. Your common sense will tell you that this is impossible. Try DOAN'S PILLS. They may seem to injure and irritate delicate tissues. Ingest on DOAN'S PILLS. The old reliable relief. Come on no "drops" or "elixirs" or "drugs." Be sure you get DOAN'S PILLS at your druggist. KARL DANE, 47, OF FILM FAME, KILLS HIMSELF

Driven Out of Movie Jobs by Talkies, Actor Ends His Life.

By United Press
HOLLYWOOD, April 16.—Karl Dane, 47, who left a small machine shop to become famous in the moving pictures, is dead.

Despondent because the talkies held no place for him, he killed himself with a revolver in his tiny apartment early yesterday. Miss Frances Leaks, 28, who had befriended him in the final dark days of his life, found him dead, sprawled in a chair. A note lying on a nearby table said:

"To Frances and all my friends, good-bye."

To Hollywood police, it was an old story, written frequently with gun and poison by men and women whom fate denied the success, or even a job, they coveted. W. T. H.

Dane was it only a job. Born Rasmus Karl Thekelsen Gottlieb, in Denmark, the tall rawboned actor won film prominence in his first vehicle, "The Big Parade." A casting director found him in a small southern California town, operating a machine shop.

The inmates here were Betty Lou Meyer, Dorothy Ellis, Ruth Long, Rosemary Rocap and Marigrace Molomniere, Virginia Garry, president of the Butler university chapter; Dorothy Davis, Rebecca Allen and Miss Helen Cade, sponsor of the organization, will have charge of the services.

Dorothy Helmer, a member of the class of '28, will talk to the group on "The Training and Duties of an Interior Decorator."

about Cigarettes

As to
the cigarette paper
on Chesterfields

THIS reel of cigarette paper is sufficient to make 42,000 Chesterfield Cigarettes. It is of the finest manufacture.

In texture, in burning quality, in purity, it is as good as money can buy.

Cut open a Chesterfield cigarette. Remove the tobacco and hold the paper up to the light. If you know about paper, you will at once note the uniform texture—no holes, no light and dark

places. Note also its dead white color.

If the paper is made right—that is, uniform—the cigarette will burn more evenly.

If the paper is made right—there will be no taste to it and there will be no odor from the burning paper.

Other manufacturers use good cigarette paper; but there is no better paper made than that used on Chesterfields. You can count on that!
