NOBLESVILLE, April 30.—Russell Barker, charged with assault and battery on Dr. Robert Harris, secretary of the Noblesville city board of health, will be tried Thursday in city court.

Dr. Harris was treated at a hospital for a broken nose and fractures of bones surrounding an eye. It was said he was struck with an iron pipe, but police said they found no weapon in an alley where the attack is alleged to have occurred.

The incident was an aftermath of the arrest of Arza Barker, son of Russell Barker, on a charge of violating the city milk ordinance. It is alleged the younger Barker did not have his cows properly tested for tuberculosis.

NEW YORK, U.S.A.

PROGRAM SET FOR FIRST OF CHILD MOVIES

Jackie Cooper Film Heads
Experiment Saturday at
the Indiana.

Thrills, laughs and plenty of action are promised to Indianapolis children, in the first of the children's programs to be presented at the Indiana theater at 9 Saturday morning.

The special children's show, planned by M. D. Cohn in response to an editorial in The Times will show Mickey and Minnie Mouse and the dog, Pooch, in "Steamboat Willie." Following this, the first chapter of a new serial adventure picture, "Pirates' Treasure," will show Richard Talmadge and other stars. The feature picture will present Jackie Cooper, Robert Coogan, Mitzi Green and Jackie Searl in "Skipper." As a special feature pupils of the Stockman dancing school will offer singing and dancing acts with a

broadcast over radio station WFBM at 9:30.

Following the show, a representative of the Lifesaver Company will present each child with a package of fruit drops.

Arrangements have been made to have firemen, policemen and a nurse at the theater, to assure parents that the children will be well taken care of. Doors will be open at 8:45 a. m. in order that the audience will have time to secure seats before the show begins.

The show is scheduled to run from 9 to 11, and is one of a series of movie programs arranged to give proper entertainment for children. The plan is a follow-up of a movement started by the Youth's Movies Association, which has experimented for several weeks in two neighborhood theaters with special programs for children.

Inspired by the association and The Times' editorial, Mr. Cohn has arranged with exhibitors and producers in Hollywood to secure pictures especially adapted to children's programs.

INDUSTRY GAINS ARE REPORTED

Per Capita Weekly Earnings
On Increase, Says
Miss Perkins.

Miss Francis Perkins, secretary of labor, announced today in Washington that increased industrial activity in March was reflected in gains in per capita weekly earnings in both the manufacturing and non-manufacturing industries.

"Sixty-two of the ninety manufacturing industries reporting to the bureau of labor showed increases in per capita weekly earnings in March as compared with February," Miss Perkins said. "The weekly increase for all factory employees averaged 2.9 per cent over the month interval."

One of the most outstanding gains occurred in the iron and steel industry, where per capita weekly earnings in March were 8.8 per cent higher than in the preceding month.

"The automobile industry reported a gain of 7 per cent. Other industries of major importance were men's and women's clothing, sawmills, foundry and machine shop products, electrical machinery and cotton goods."

blood will tell—

ONE of the mysteries of life is how much care a man will take of his body. Animals—note when they are "off"—and tending them back to the "pink of condition" to increase their daily usefulness—yet will shamefully neglect his own run-down condition.

Certainly, there is a pardonable pride in an animal's healthy appearance... but human beings are more important than animals. Yet some people just hope when "run-down" that they will "come around."

It is just good "horse-sense" to reflect and reason that your so-called "tired feeling" may come from a lowered red-blood-cell count and the hemo-glo-bin in these cells.

There is a remedy specially designed to bring back strength to weakened blood... and no one can be strong, healthy, happy, and full of vitality when in a run-down condition.

S.S.S. Blood Tonic is a time-tested remedy for restoring deficient red-blood-cells and a low hemo-glo-bin content.

If you suspect an organic disease consult your physician... if you feel weak... lack a keen appetite... if your skin is pale and off-color... try S.S.S. as a part of your regular daily diet. Take it just before meals. Unless your case is exceptional, you should soon notice a pick-up in your appetite... your color and skin

should improve with increased strength and energy.

S.S.S. is not just a so-called tonic but a tonic specially designed to stimulate gastric secretions, and also having the mineral elements so very necessary in rebuilding the oxygen-carrying hemo-glo-bin of the blood to enable you to "carry on" without exhaustion as you should naturally.

S.S.S. value has been proven by generations of use, as well as by modern scientific appraisal. It is truly a blood and body tonic. You will find it at all drug stores in two convenient sizes... the larger size is more economical.
