

# ENTIRE COUNTRY SWELTERING IN RECORD HEAT

High Temperatures Increase Damage Done by Five Rainless Weeks.

CHICAGO, May 7.—Sweltering heat over the entire country added today to the distress brought by five rainless weeks.

Temperature records toppled everywhere yesterday as the mercury soared to 102 degrees in Phoenix, Ariz., an even 100 in Sioux City, Ia.; 98 in La Crosse, Wis.; 96 in Chicago and New York, and into the 80s at almost all points reporting to the government weather bureau.

Appreciable rains fell only in the lower Ohio and Mississippi valleys, with the clouds drifting to the southeast. The 100-degree mark in Sioux City and 90 degrees in Chicago for that date since the weather bureau was established in 1890.

Little rain, if any, was in prospect for the great farm region between the upper Appalachians and Rockies. Wheat and corn fields shimmered with heat waves today, while even light breezes carried topsoil away in choking clouds.

Threat to milk supplies of middle western cities was seen by Clifford V. Gregory, editor of a farm publication here. Mr. Gregory said that because of poor pasturage the normal milk surplus has been wiped out, and another fortnight of drought would bring an actual shortage.

Damage already done to grain crops has caused 1 to 3 cent rises in prices of the principal grains on the Chicago Board of Trade. Crop experts predicted a shortage amounting virtually to a famine, although government officials scouted the idea that any possible deficit could be dangerous.

## Indiana in Brief

Lively Spots in the State's Happenings Put Together 'Short and Sweet.'

TIPTON, May 7.—Poor relief expense in Tipton county was greater in April than March, the total being \$511.3. Several reasons are cited by relief workers as factors in increasing expense.

They point to end of civil works administration employment and unseasonably cold weather, resulting in bills for fuel and a gain in illness. Another factor is a charge for ambulance service imposed by undertakers, who under their recently adopted code, can no longer give such service free.

# "I know how Steel Protects You in a Warship or a Car"

A CERTIFIED INTERVIEW WITH M. E. MERRITT, NAVY YARD, CHARLESTON, S. C.

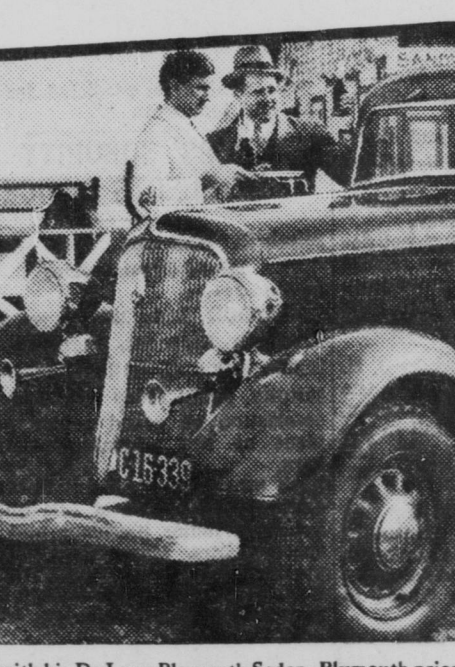

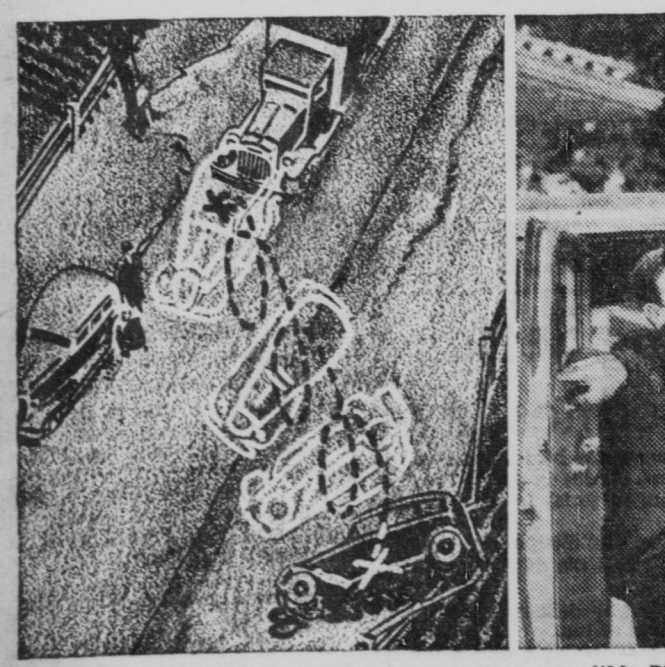

## "I picked Plymouth for its Safety-Steel Body... It was lucky I did!"

YOU'VE SEEN THE STEEL ARMOR ON warships. It's Merritt's job to help make it. He knows how strong it is. Small wonder that, when he wanted a car, he picked Plymouth for its Safety-Steel Body. But he never thought that this precaution would ever save his life! The drawing shows what happened. A parked car. A sudden stop. Rammed by a truck from behind... catapulted into the air. Smashing down! Turning over and over!

Then, they made Plymouth more comfortable! With patented Floating Power engine mountings that keep all motor vibration away from the frame and body. With Individual Wheel Springing that makes each front wheel "step" right over bumps. **PLYMOUTH IS THE ONLY CAR in the lowest-price field that has all of the vital features you need.** So "look at All Three" low-priced cars. You'll see why Plymouth offers extra value. Any Dodge, De Soto or Chrysler dealer will gladly demonstrate.

1. "One night it happened! I'd stopped behind a parked car. A truck tore out of the fog and sent me sailing. But, I lived to tell it!"

2. "There's nothing but steel plates on the hulls of today's warships. And steel is what I wanted in the body of the car I picked."

3. "One night it happened! I'd stopped behind a parked car. A truck tore out of the fog and sent me sailing. But, I lived to tell it!"

4. "My Plymouth saves my money, too. It gets me by on a tankful of gas a week. And it never needs any extra oil between drainings!"

5. Merritt with his De Luxe Plymouth Sedan. Plymouth prices begin at \$530 at the factory, subject to change without notice. Convenient time payments on the Chrysler Motors Commercial Credit Plan.
