

## SCHOOL'S SHARE OF JULY TAX TO BE \$4,000,000

20,000 Teaching Units Will Share in Income Levy Distribution.

Indiana schools will receive approximately \$4,000,000, or \$200 a teacher, July 1, from gross income tax collections.

July gross income tax distributions must be given in approximate figures, according to Governor Paul V. McNutt, because the state board of education has not completed the list of teachers eligible for inclusion in the distribution.

With the July distribution, the state will have exceeded by more than \$488,000 the estimates of distributions from gross income tax collections which were furnished local school corporations last year in order that they might reduce property tax levies for school operation, Governor McNutt said.

### Estimate Exceeded

At that time, the state's estimate of gross income tax distributions was the payment of \$3,800,000 for January, 1934, and a similar sum in July. Actual payments in January were \$4,088,017.

Thus, the total income tax yield for the schools will amount to \$8,088,000 instead of the estimated \$7,600,000, the Governor pointed out.

If the schools had not received this money from the gross income tax, the Governor said, an increase of 22 1/2 cents in the average property tax rate in Indiana would have been necessary to produce the money.

### Twenty-Five Pupils in Unit

The number of teaching units to share in the distribution will be about 20,000, the same as in January, according to Floyd I. McMurray, state superintendent of public instruction.

The law prescribes that a teaching unit shall consist of twenty-five high school pupils or thirty-five grade school pupils in average daily attendance.

However, the state board has the authority to declare emergencies in deserving cases and permit a teaching unit to have fewer than the prescribed number of pupils.

### WORKS BOARD OPENS BIDS ON 4 PROJECTS

Proposals Submitted for Widening Twenty-Second Street.

Bids on three projects were received by the city works board yesterday.

Four bids were submitted for the widening of Twenty-second street from Illinois street to Delaware street; four bids for widening of Ohio street, from Noble street to Pine street, and two bids for sidewalks on New York street, from the Big Four tracks to an alley just east of Dorman street.

The works board will tabulate the bids and announce the contracts Friday. Under the proposed plan Twenty-second street will be widened to forty-five feet.

### CITY MEN NAMED ON NATIONAL FILM GROUP

Council Aims Toward Freedom in Selection of Pictures.

Dr. P. W. Holaday, principal of the Austin H. Brown school here, and L. D. Dickerson, librarian of the Indianapolis public library, have been named members of the Motion Picture Research council, it was announced today by Mrs. August Belmont, New York City, president.

Their appointments come as the council is expanding and seeking additional local chapters throughout the country. The group aims to eliminate allegedly restrictive practices, which rob exhibitors and community groups of freedom in selecting pictures. It is not interested in censorship, it says.

### Fishing the Air

The robust "Brown October Ale" and the tender "Ich Lieb Dich" will be presented in contrast by Phil Duey, featured soloist on the program with Lee Reisman's orchestra, Tuesday at 8 p. m., over WKEF and an NBC network.

Major J. Fulmer Bright of Richmond, Va., and William B. Hartman, former manager of Louisville, Ky., will bring "News From the South" to the screen and your government listeners, Tuesday at 5:15 p. m., over WKBF and an NBC network.

Major J. Fulmer Bright of Richmond, Va., and William B. Hartman, former manager of Louisville, Ky., will bring "News From the South" to the screen and your government listeners, Tuesday at 5:15 p. m., over WKBF and an NBC network.

6:00—NBC (WJZ)—Mystery, Part 1—"The Overhead Kill."

6:30—NBC (WEAF)—Wayne King's orchestra.

Columbia—Accordians—Lyman—Lyman.

7:00—NBC (WEAF)—Ben Bernies' orchestra.

7:30—NBC (WEAF)—Ed Wynn—Graham McNamee.

Columbia—Minneapolis Symphonies.

8:00—Columbia—Caravan—Sleepytime & Budd; Connie Boswell.

8:30—Columbia—Sketch—"Conflict."

NBC (WJZ)—Wagner's Birth-day concert.

8:45—Columbia—Harlem Serenade.

### EVEN A CIRCUS CLOWN HAS HIS MOMENTS

Horace Laird in serious scene.

### Fun-Making Has Its Serious Side, Too; Circus Here Thursday.

Clowning has its serious side as you can see in this scene outside the dressing rooms of the Great Hagenbeck-Wallace circus, coming to Indianapolis Thursday.

Here we have Horace Laird, who has ceased the noble business of making people laugh for the nonce so that he may assist pretty Vera Bruce, leaper in the famous Flying Codona act, in a bit of bodice lacing, or hooking.

Well, maybe it isn't a bodice, but—oh well, never mind. Anyway, Horace has come to Vera's rescue, but if he hadn't, there are seventy-four more clowns with the big show who would jump to help the little lady.

Not long after this picture was made Vera married Alfredo Codona, star of stars of the aerial displays since 1926.

10:15—Gene and Glenn (NBC).  
10:30—Duke Ellington orchestra (NBC).  
11:00—Clyde Lucas' orchestra (NBC).  
12:00—Midnight Sign-off.

#### POSTAL RULES LISTED FOR MEMORIAL DAY

No Mail to Be Delivered in City or on Rural Routes.

Postal regulations for Memorial Day, May 30, were announced today by Postmaster Adolph Seidensticker.

There will be no delivery by carriers either in the city or on rural routes.

Special delivery and lock box service will be open all day. General delivery will be open from 8 a. m. until noon and parcel post from 8 until 10 a. m.

Outgoing mail and special and perishable goods will be handled as usual. The regular holiday delivery and collection schedule will be in service in hotels.

### CANCER CURE DESCRIBED BY NOTED DOCTOR

500 Physicians Hear Talk on Deep X-Ray at I. U. Meeting.

Graduates of the Indiana university medical school will hold a homecoming meeting tomorrow night in the West Michigan street Medical center as one of the features of the current two-week post-graduate course being conducted by the school.

Dr. Byrl Kirklin, head of the famous Mayo clinic's X-ray department, and Dr. William Green, of the Harvard medical school faculty, both I. U. graduates, will be the speakers at a scientific session to follow a reunion dinner.

Last night Dr. Joseph C. Bloodgood, of the Johns Hopkins university medical school, described to the 500 physicians and surgeons attending the post-graduate course the latest developments in medicine's incessant war against cancer.

Dr. Bloodgood described the workings of what is known as the "deep X-ray," and said that if applied at an early enough stage of the disease, it could cure cancer of the bone.

The exact qualities of the deep X-ray are not known to the profession, Dr. Bloodgood intimated.

The specialist urged education against cancer by medical societies, the government and the news papers, saying that the great value of early diagnosis by a competent person could not be overestimated.

#### Curve Increase Shows

"Every parent and every teacher should know that, if a child or young adult limps or complains of tenderness in the region of a joint or a bone, an X-ray should be made at once," Dr. Bloodgood declared.

"If the X-ray shows anything suspicious, the bone involved should be treated at once with deep X-ray or radium."

Cures have increased from 4 per cent to 30 per cent in the last sixteen years, he announced.

#### Other Diseases Discussed

Dr. Bloodgood said that one of the remarkable things about the deep X-ray, which is coming into ever wider use because of the scarcity of radium, was that its irradiation did not harm the use of normal cells while destroying cancer cells.

Arthritis, painful and semi-paralytic disease, was discussed at a round-table of 173 physicians from all over the country. Its source was traced to simple infections in many case histories and the method of combating it with surgery was explained.

Tonight Dr. Dean Lewis, surgeon-in-chief at Johns Hopkins, will discuss cancer of the breast before those attending the post-graduate session and members of the Indianapolis Medical Society.

**DARROW REPORT O. K.**  
CITY SOCIALIST SAYS

Talk of Anything Else Is Folly, Ed Henry Asserts.

Clarence Darrow's sensational report on NRA was upheld by Ed Henry, a local representative of the Socialist party.

He stated, "We Socialists are fighting, teaching and campaigning for the collective ownership and control of production and distribution of land and industry.

"So talk of anything else is folly. To carry on with the NRA, business of all kinds is regimented to the control of capitalism or trusts because they control every movement of life directly or indirectly.

"To talk of anything else is folly. To carry on with the NRA, business of all kinds is regimented to the control of capitalism or trusts because they control every movement of life directly or indirectly.
