

SCHOOL BUDGET \$30,894 OVER 1933 FIGURES

Tentative Schedule Accepted
by Board; Back Pay
Is Approved.

A budget, tentative until valuations of taxable property in the city are completed, and providing for \$5,916,038.40, was approved last night by the Indianapolis school board. This figure represents a net increase of \$30,894 over the present budget.

The board also adopted a resolution calling for payment of an estimated \$145,000 for seven days' pay to teachers who lost sixteen days' pay in 1933. Checks issued on frozen banks during the bank holiday have been liquidated, making possible the payment.

Figures for 1934-35 show an actual budget increase of \$160,454.65 over last year, but a \$129,560 judgment returned against the schools represents the larger portion of that amount.

The judgment was obtained as the result of the board's failure to pay for school 1, thirty-six and Gale streets, at the time of its annexation several years ago.

Good Explains Budget
Presenting the tentative budget to the board, A. B. Good explained various increases and decreases.

Personal service in the administration department shows a net increase of \$4,327. A public information department has been added at an estimated cost of \$6,208. Difference between these two figures is offset by reductions in other departments, Mr. Good said.

Personal service increase in the educational department amounting to \$17,370.00 is for employment of additional high school teachers, additions to the superintendent's staff and salary differentials. Elementary teachers and principals appropriation remains about the same, Mr. Good said.

Mr. Good said that salary schedules of last year were maintained and increases and decreases are in number of persons employed or extensions of months of service.

Removal Is Reconsidered
The board also decided to reconsider removal of Principal Gertrude Buscher, school No. 91, at 4601 North Keystone avenue following appeal by a delegation of school patrons.

A delegation of P.-T. A. members and George Washington Club members from Washington high school waited upon the board with a verbal petition that the board take action about overcrowding of that school.

Spokesmen for the delegation said that there now are 2,018 pupils in the school, built to house 600, and capable of holding 1,000 to 1,200 maximum. They said that an additional 200 pupils are expected at the school this fall.
