

GERMAN SPLIT IS SMOOTHED OVER QUIETLY

'Armed Truce' Is Declared
by Conservative and
Nazi Factions.

By United Press
BERLIN, June 20.—A grave split in the government between the Junker-Conservative faction and the more rabid Nazi radicals appeared today to have been smoothed over, at least temporarily.

Chancellor Adolf Hitler refused to take sides openly in the dispute. He upheld the actions of both factions leading to belief that for the present they would feel constrained to get along under a sort of "armed truce."

The public has been blissfully unaware that a crisis has been impending, because the news of what had been going on was not published.

The situation came to a head with a speech at Marburg university Sunday by Vice-Chancellor Franz von Papen, leader of the conservatives. He attacked the radical Nazi campaign to muzzle criticism and insisted that political leaders must tell the people the truth.

Paul Joseph Goebbels, minister of propaganda, had publication of the speech suppressed. President Paul von Hindenburg wired von Papen his congratulations, endorsing the speech.

Von Papen appealed to Hitler, and it was learned today that Hitler affirmed his agreement with contents of the speech, but maintained that the propaganda ministry was justified in withholding it from general circulation by newspaper and radio.

His view was that it was appropriate for a university, where it would be understood, but that the general public might misconstrue it and exaggerate its import.

Fund Seizing Approved
By United Press
LONDON, June 20.—A bill authorizing establishment of an exchange clearing house to seize German funds for the compensation of those affected by the German moratorium of foreign debts was passed on first reading by the house of commons today. It was drafted by Neville Chamberlain, chancellor of the Exchequer.

'Putzy' Attacks Broun
By United Press
BOSTON, June 20.—Dr. Ernest F. Sanftaengl has accepted an invitation to attend the wedding of John Jacob Astor III, New York, and Miss Ellen Tuck French at Newport, R. I., June 30, he said today.

"Unless something develops," he said, "I hope to attend the wedding."

Hanftaengl, here for the twenty-fifth reunion of his Harvard class, was shown a copy of an article by Heywood Broun, famed columnist, in which Hanftaengl was assailed, and laughed off the criticism as "jealousy from an inferior Harvard class."

"He ought to stop being a sour belly," he said. "After all we didn't burn his book in Berlin."

French Drought Ended
By United Press
PARIS, June 20.—Heavy rains sizzled down on forest fires in widely separated parts of the country today to end the forty-seven-day drought. There were eleven fires at one time in the great Fontainebleau forest and soldiers were called out to fight them.

In the fine forests of Hartmann's Weilerkopf mountain, in the Vosges, where 60,000 French and Germans were killed in the early days of the World war, great fires raged and the villages of Heffelsen and Wattwiller were menaced gravely. Fire fighters were in constant danger of exploding shells which had lain in the forest since the war.

Labor to Invite U. S.
By United Press
GENEVA, June 20.—The International Labor Conference has decided to send the United States a formal invitation to join as soon as President Roosevelt indicates his willingness to do so, it was said authoritatively today.

SAMMONS RULING DUE
Gangster Seeks Retrial on Habitual Criminal Charge.
By United Press
CROWN POINT, Ind., June 20.—Judge William J. Murray of Lake criminal court will rule Friday on the motion of James (Fur) Sammons, former Chicago gangster, for a new trial.

Sammons is serving a life term in the state prison on charges of being an habitual criminal. He was convicted in Lake county last winter after attempting to bribe a deputy sheriff.

In the Air
Weather conditions at 9 a. m.: Southwest wind, 18 miles an hour; barometric pressure, 29.94 at sea level; temperature, 81; general conditions, high thin scattered clouds; ceiling, unlimited; visibility, thirty miles.

'SPY SYSTEM' CHARGED
Home Owners' Loan Corporation Uses Espionage Plan, Is Report.
By United Press
DETROIT, June 20.—Existence of a nation-wide "spy system" in the Home Owners' Loan Corporation was charged today by John Hamilton, resigned head of the Michigan state branch. Chairman John F. Fahey has built up a system "that would do credit to soviet Russia," Mr. Hamilton declared.

Heat Just as Important as Air in Saving Lives of Drowning Persons

But Rescuers Must Watch Step and Keep from Burning Victim.

This is the third of a series of five articles by Lewis C. Robbins, director of life saving and first aid at Camp Koscusko, Winona Lake, on treatment of drowning persons.

BY LEWIS ROBBINS
Drowning persons die of cold as well as lack of air. The wet clothes, the exposure to the wind and the contact with the wet ground all contribute to a rapid loss of body heat, especially since heart action is impaired by lack of oxygen.

The patient needs heat almost as much as air, and it must be applied as soon as possible.

Blankets should protect the subject from the cold ground and a blanket should be placed over him. It is not difficult for the operator to work through the blanket.

Hot water bottles then are prepared and, using care that the patient is not burned, since the patient can feel nothing, placed in the arm pits, between the legs, even under the abdomen and wherever heat can be applied.

Hot bricks and glass jars full of hot water can be used, but they must be wrapped well to guard against burning. One emergency case, warmed by corn cobs heated in an oven, recovered from the shock and submersion, but died later of burns.

The operator must take charge of the rescue work. He must sense every change in the patient and anticipate every need. After he begins the artificial respiration, he must give directions to intelligent bystanders.

One should be sent for a doctor with the following information: First, the nature of the case; second, what is being done, and third, where the patient can be found.

The last, of course, is most important but it often is forgotten by eager helpers. Better send two along, one to check on the other.

An inhalator, a machine for supplying oxygen and the stimulant to breathing, carbon dioxide, should be procured if possible. In Indianapolis, the fire department emergency squad is equipped with an inhalator and the men are trained in its use.

The inhalator is to be used only with the prone pressure method and artificial respiration never should be withheld pending its arrival.

Another person, or several if possible, should be sent for blankets and hot water bottles. They should be warned strictly of the danger of burning the unconscious victim.

When breathing has become automatic and regular and the subject is conscious, he can be carried (never assisted to walk) to a bed where he must be kept quiet for at least a day. The strain on the heart has been terrific and nothing must be done to increase it. Complete rest for at least twenty-four hours therefore is necessary.

Correct application of prone pressure over a prolonged period of time is apt to be tiring, so it is advantageous to have a change of operators. This must be accomplished with no break in the rhythm.

The relief operator kneels beside the tiring operator and for respirations sways in unison. This enables him to carry on with the same rhythm. Then he taps the operator on the shoulder.

They quickly change places during the rest period and the new man immediately carries on with the prone pressure.

Next—The length of time respiration should be continued.

CITY MINISTER BURIED; 700 AT FINAL SERVICES

The Rev. Gwyn Honored at
Rites Here; Burial
at Reddington.

Funeral services for the Rev. R. T. Gwyn, who died in the Methodist hospital Saturday, were held in Centenary Christian church, of which he was pastor, yesterday.

More than 700 persons attended the services, which were in the charge of Dr. A. E. Corey, executive director of the Disciples of Christ pension fund, and young ministers who had been inspired to the ministry by Mr. Gwyn.

Services were held in Reddington yesterday afternoon, at the Reddington Christian church. Burial was in Reddington.

Hodges Rites Tomorrow
Services for Jesse H. Hodges, 50, of 408 North New Jersey street, who died yesterday in St. Vincent's hospital, will be tomorrow at Linton, Ind., his native city, with burial there. Mr. Hodges was injured fatally Tuesday in a north side automobile accident.

A resident of Indianapolis for twelve years, Mr. Hodges is survived by his widow; a son, Maurice Hodges; his parents, Mr. and Mrs. John Hodges, Linton, and three brothers and three sisters.

Retired Contractor Dead
Following an illness of six months, William H. Swan, 70, retired contractor, died yesterday at his home, 1057 Congress avenue. Mr. Swan had been in the dairy business twenty-four years before entering the contracting business.

Funeral services will be held in the McNeely mortuary at 2 tomorrow, with burial in Crown Hill.

Surviving Mr. Swan are the widow, Mrs. Ida M. Swan; two daughters, Mrs. Scott Wherry and Miss Reba Swan; a son, Russell Swan; two sisters, Mrs. Anna Bremmerman and Mrs. James Hensley; and three brothers, Joseph, Bruce and Oran Swan.

Edward Scott Passes
Funeral services for Edward L. Scott, 55, of 1524 Martindale avenue, who died Monday in the city hospital, will be held at 2 Friday in the New Bethel Baptist church, with burial in Crown Hill.

Mr. Scott was a member of the Knights of Pythias. He is survived by the widow, Mrs. Effie Scott, and a brother, living in Louisville.

City Woman Succumbs
Mrs. Hazel Howe, 31, of 1519 Bradbury street, died early today at her home. The city ambulance was called, but Mrs. Howe was dead before it arrived. Death was due to natural causes.

**LAWYERS' ASSOCIATION
IS INCORPORATED HERE**
Organization of Young Attorneys Formed Five Years Ago.
The Indianapolis Lawyers' Association, an organization of young attorneys formed five years ago, was incorporated yesterday.

The association has a membership of approximately 175 Indianapolis attorneys. Membership is not limited, but applicants to the association must be under 39 when taken in. Chief object of the organization is to raise the general standard of practice at the Indianapolis bar. Grier M. Shotwell is president.

LIQUOR TAX CUT URGED
State Delegates Agree Reduction
Best Weapon Against Bootlegger.
By United Press
CHICAGO, June 20.—Delegates from twenty-three states were agreed today that a reduction in federal liquor taxes is the best weapon against the bootlegger.

A resolution to that effect was adopted at the conclusion of a two-day national conference called by Governor Henry Horner of Illinois.

3 YOUTHS SENTENCED
Trio Gets 180 Days, \$200 Fine in
Street Car Holdup.
Municipal Judge Dewey Myers yesterday sentenced three youths to serve 180 days each and levied fines of \$200 in connection with a \$10 street car holdup.

They are Wilbur Walker, Ward Brian and Conda Rodman. Judge Myers found them guilty of petty larceny and dropped robbery and vagrancy charges.
