

Swim Where You Are Protected

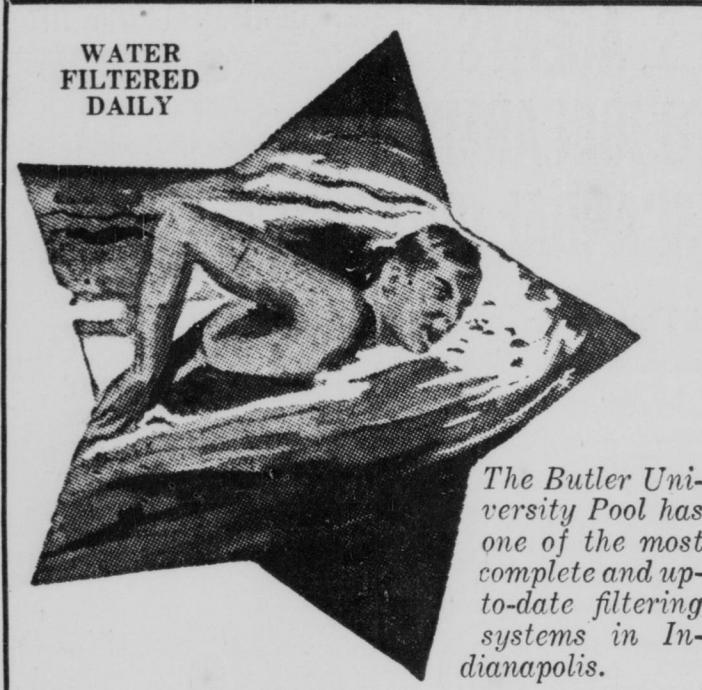

Represented on this page are the swimming places that give untold consideration to the upkeep of their pools. Cleanliness is a vital factor. They spend thousands of dollars every season to assure you of positive cleanliness; because they know the horrors that develop from dirty, bacteria-filled water. They feel that this is a responsibility they owe to their patrons. If you are going swimming be sure to select one of the following places; each of them can afford you safe enjoyment at moderate prices.

INDIANAPOLIS ATHLETIC CLUB POOL

CLEAR FROM HAWAII have come inquiries about the purification system of the Indianapolis Athletic Club swimming pool. Why? Because every ounce of the approximately 150,000 gallons of water required to fill the pool is healthfully pure, and made so without the use of chemicals. Each gallon, before it is pumped into the pool, goes through a series of crystal quartz filters and then through the ultra violet ray purifier where the water is subjected to light treatment. The purification plant runs continually, day and night.

All-year-round swimming privileges, in one of the finest swimming pools in the middlewest is one of the many advantages of a membership in the Indianapolis Athletic Club. A junior athletic membership is now available to young boys and girls in Indianapolis. Call the secretary's office — LI. 4381—for membership information.

CLEANLINESS IS PARAMOUNT AT THE BUTLER POOL
