\$69,000 ANNEX APPROVED FOR RIPPLE SCHOOL

Work Will Be Completed
for Second Semester,
Board Says.

Specifications for a \$69,000 addition to Broad Ripple high school were approved last night by the school board.

The plans provide for a structure making available fourteen additional classrooms. The present gymnasium will be remodeled into a combination gymnasium and auditorium, and a new heating plant also is to be installed.

A. B. Good, business director, was instructed by the board to advertise for bids as soon as possible, but it is not expected that the building will be completed before the opening of the second semester. It will adjoin the present building and will harmonize with the exterior plan of the present building. Vonnegut, Bohm & Mueller are the architects.

Promotion of Jesse McClure, formerly superintendent of janitors, to assistant buildings and grounds superintendent, also was approved by the board. Mr. McClure will receive \$2,500 a year, an increase of \$400 over his former salary. The increase will be absorbed by economies in the department, it was stated.

Pending final approval of the 1934-1935 budget, the board adopted a resolution providing for appropriations to cover expenses of all departments through July, August and September. Although the school budget goes into effect July 1, it will not be approved finally until September, when property evaluations and tax board rulings have been passed upon.
