

# MADAME CURIE WILL BE BURIED NEAR HUSBAND

World Mourns Passing of  
Radium Expert: France  
Plans Honors.

By United Press  
PARIS, July 5.—All the world to-day mourned the passing of Marie Curie, co-discoverer of radium, one of the greatest of modern scientists, and one of the greatest women of all time.

While her body was being brought back to Paris from the Savoy Alps, where she died yesterday, a movement was under way to bury her and her husband in the Pantheon, which to France is what Westminster Abbey is to England.

Physicians said that the woman whose discoveries saved untold lives and allayed the sufferings of thousands, died a martyr to science. Mme. Curie will be buried first beside the simple grave of her husband, Pierre Curie, in a suburban cemetery. Curie died in 1906. If later both bodies are transferred to the Pantheon, it will be the greatest honor France ever bestowed upon a foreigner. Mme. Curie was a Pole by birth, although she spent almost all her adult years in Paris.

The government indicated it would continue to subsidize the Curie institute which it established and financed on condition Mme. Curie would be its director and supervise research devoted entirely to application of radium in the treatment of cancer and other tissue diseases.

## PREMIER IS EXCUSED FROM PAYING \$15,000

Canadian Supreme Court Denies Damages for Seduction.

By United Press  
EDMONTON, Alberta, July 5.—Prime Minister John E. Brownlee today was excused from paying \$15,000 damages for seduction. Setting aside a jury verdict favoring Vivian MacMillan, 22, and her father, the Alberta supreme court ruled neither had a right to action because seduction had not interfered with Miss MacMillan's ability to serve her father or serve herself. Brownlee's resignation, presented to the lieutenant-governor of Alberta, had not yet been accepted. It was not known if the court action would have any bearing on his political fate.

# INDO-VIN WAS AMAZING TO ME

Indianapolis Lady Says  
Misery of Years Has  
Disappeared; Stomach  
and Kidney Affliction.

"INDO-VIN has been worth a FORTUNE to me. I'm not the same person at all since I got it," said Mrs. Eunice Strandquist, of 1101 Congress Ave., Indianapolis, while talking just a few days ago about this new, scientific mixture of medicinal plants, known as Indo-Vin, which is now being introduced to crowds daily here in Indianapolis by The Indo-Vin Man in person at Hook's Drug Store, Illinois and Washington Sts. This remarkable statement of Mrs. Strandquist is another one of the many UNSOLICITED testimonials being received from throughout this section, endorsing Indo-Vin to all suffering people. Following is her statement:

"For six years I have been a victim of stomach trouble," continued Mrs. Strandquist. "My meals would sour in my stomach and bloat me up with so much gas that I thought my insides were going to burst. This gas also pressed on my heart and filled me with so much pain in my chest that I would get dizzy all over. I kept having terrible sick headaches from this awful condition of my stomach. And my kidneys were so deranged that they got me up all night. I couldn't sleep on account of this constant rising, would hear the clock strike hour after hour and then get up in the morning feeling as worn out as though I had never been to bed at all and would be so stiff and sore across my kidneys that I could hardly stand it. Was also having bowel trouble which had gotten to be chronic with me and I was always taking laxatives for constipation."

"I tried medicine after medicine, but they didn't act on me at all, in fact, I might as well have taken my money and thrown it out into the street, for all the good those medicines did me, but finally I

## PARROTS MUST HAVE PASSPORTS IN STATE

Indiana Joins Federal Drive Against Dreaded Fever.

Since parrots talk, parrots must assume some of the responsibilities of human beings. An order requiring passports for itinerant parrots was issued yesterday by Dr. Verne K. Harvey, state health director, in co-operation with federal health authorities. The passport will give Polly a clean bill of health and certify, on the word of an accredited veterinarian, that she doesn't have psittacosis, or parrot fever. No parrot can cross a state boundary without these new credentials, Dr. Harvey said.
