'Party Girl' Attacked by Pervert, Is Alibi in Coast Trial.

By United Press
SAN FRANCISCO, July 12.—Pretty Louise Jeppesen was murdered by a pervert in Golden Gate park, and not by Millard Hickman, defense attorneys were prepared to contend today in the trial of the middle-aged engineer.

Defense Attorney Harry McKenzie announced he would summon three women who admitted being assaulted in the park.

He said they were attacked in a manner similar to that which caused death of the 23-year-old Utah Sunday school teacher who dyed her hair red and became a San Francisco "party girl."

Hickman contends Miss Jeppesen left his apartment alone about 3 a.m. and that he left alone sometime thereafter and returned with Blanche McKay, who was prepared to testify she spent the night with him.

Upon the time element and Miss McKay's testimony Hickman hoped to escape the death sentence for Miss Jeppesen's murderer.

Meantime, state's attorneys sought to show that the middle-aged engineer left his apartment with the Utah girl. Paterno Natividad, Filipino elevator boy, testified late yesterday that Hickman left the hotel with the girl one hour and three-quarters before her lifeless body was found in a pedestrian tunnel in the park.

Thousands Cheer President on Inspection of Panama City.

By United Press
PANAMA CITY, July 12.—President Roosevelt devoted a day of his vacation to seeing historic Panama City today as the guest of President Harmilo Arias. In a speech last night, he said both Panama and the United States were on the way to economic recovery.

Early tonight he will leave on the cruiser Houston for Hawaii. The cruiser New Orleans, which joined the Houston in the Canal Zone yesterday, will be the escort.

Mr. Roosevelt was accorded the most enthusiastic reception of his tour last night. Thousands of Panama citizens massed about the executive palace and cheered Mr. Roosevelt.

The Houston arrived at the canal entrance yesterday in heavy rain. George H. Dern, secretary of war, and Governor Julian L. Schley of the Canal Zone met the ship, and the President inspected the canal from the Houston's deck. At the Pacific side, which was reached late in the afternoon, the New Orleans fired a presidential salute.

Arno Wade

Entrants in the sixth annual Times-Broad Ripple free swimming course will be under the direction of Arno Wade, head life guard at the pool.

"We want to teach swimmers confidence in the water first," Mr. Wade said, outlining the course. "Then we will teach them the strokes of the crawl, which is considered the best swimming stroke. At the end of the course of lessons, swimmers will be given tests. Those passing will be given Red Cross certificates."

Last year, hundreds of Indianapolis persons learned to swim during the free course. Classes are divided into three groups. Children under twelve will be given instruction at 10 or 2:30; children from 12 to 18 will enter classes at 10:30 and 3, and adults will be given instruction at 11 and 3:30.

3:30, A class for persons employed during the day will be held at 8:30 each night.

No fee other than entrance fee into the pool is required. The course is open to persons clipping the coupons from The Times.

WALLACE MAPS FARM-INDUSTRY RECOVERY ROAD

Distribution of Sacrifices Between Two Needed, New-Dealer Says.

By United Press
MADISON, Wis., July 12.—A "middle of the road" course between the demands of agriculture and industry was predicted by Henry A. Wallace, secretary of agriculture, as the New Deal's probable answer to its most difficult problem.

The secretary told convention delegates of the American Institute of Co-Operation last night that he saw no better "pain killer" for the drastic operations necessary on agriculture and industry than the distribution of sacrifices between the two.

Industry, he said, probably will see tariffs decreased to permit importation of \$200,000,000 more of goods than the United States now buys outside the country. At the same time, he predicted, some 50,000,000 acres of poor land, or half that area of good plow land, must be permanently retired from production.

"The only alternative is a nationalistic course that would mean economic sacrifice and perhaps extreme resentment," he said.

Mr. Wallace predicted that the present agriculture adjustment act must be retained for at least five years, and possibly ten.

"Each of the courses open to us,"

42 From County Will Be Asked to Attend.

JOLIET, Ill., July 12.—Intelligence tests for guards is the most pressing need in the modern penitentiary, convicts in the state prison let it be known today.

Warden Frank Whipp found a letter to that effect, signed by "the class of '45," on his desk as plans were being made for a new \$2,000,000 prison.

"The intellectual plane of the institution," the letter said, "would be immeasurably uplifted to the resultant benefit of the inmates thereof if the guards were required to pass intelligence tests."

"Furthermore, since, with the lack of work in the shops of the penitentiary, we spend about half of our time sleeping, it would be logical for the state to provide inner-spring mattresses instead of the hard ones now in use."
