

5 JERSEY CITY CHILDREN DIE OF DYSENTERY

Medical Officials Seeking Source of Epidemic: 100 Are Ill.

By Times Special
JERSEY CITY, N. J., Aug. 3.—Food sources were placed under strict surveillance today as attacks of dysentery spread to epidemic proportions.

Five children were dead and more than 100 persons, mainly children, battled the disease. Medical authorities definitely diagnosed the stomach ailment the *Flexner* type germ dysentery. They warned it was highly communicable and ordered isolation of all patients.

Peddlers were barred from the streets and tests were being made of frozen confections many distributed in a wide search for origin of the germ. The city water supply was tested thoroughly and given a clean bill of health, although water department inspectors directed tests today to individual outlets looking for contaminated pipes.

Officials blamed impure food. Physicians reported efforts to trace a common agent in records supplied by victims had proved confusing. The first cases, reported two weeks ago, appeared in separated areas, officials said. The disease later attacked all sections. Mothers were frightened. Water boiling remained in vogue despite reassurance of tests.

Forty-six of the stricken under treatment at medical center were to be moved as rapidly as possible to the isolation hospital. Extreme caution against germ spread was advised for victims of the malady under treatment in their homes, and enforced isolation was considered.

Six new cases were reported at the medical center yesterday as a fifth child died there. This William Callahan, 19 months old, stricken the night before.

In the Book Nook

BY WALTER D. HICKMAN
WHEN you read "Secret Ways," by Andrew Soutar, you will become acquainted with a retired English jurist who turns detective.

Judge Cringle was hardboiled with every policeman and detective who ever testified in his court. At the same time, every criminal in London hoped that their cases would not come before Cringle. He had the reputation of throwing the keys away when he passed sentence.

On the other side of the picture, innocent defendants virtually always were acquitted in Judge Cringle's court because the court conducted the examination, exposing the eyes-shut methods of the detectives.

And off the bench and in his capacity as amateur detective, Judge Cringle was more dangerous to London criminals than he was on the bench.

Mr. Soutar has written thirty-two novels and he is considered an expert on creating fictional crimes.

J. B. Priestley

Here is a drawing by Elsa Hartman of J. B. Priestley, whose new book, "English Journey," will be published by Harper & Brothers, Aug. 10.

lengthy conversation, the author is able to create one exciting new situation after another.

The author is not guilty of repeating and if Judge Cringle thinks out loud when he gets into a tight spot, it is only for a second.

This is one of the more intelligent mystery stories. It has literary merit.

"Secret Ways" was released today by Claude Kendall, New York City, and sells for \$2.

The author has nicely balanced conversation and action. This is a quality which so many mystery novels today do not possess. Mr. Soutar is a master at balancing action and conversation.

Another factor in favor of this book is that all the characters strike the reader as flesh and blood individuals.

You will remember Judge Cringle, because the kindly-looking old jurist often appears as a "harmless, meddling old fool."

Because there is not too much

LEGION MEN INVITE CONCLAVE TO CITY

Otto Ray Named Chairman of Committee.

Members of the Twelfth district council, Indiana department of the American Legion, met last night at Forty and Eight hall and decided to invite the 1935 state legion convention to Indianapolis.

Otto Ray, Democratic nominee for sheriff of Marion county, was named chairman of the committee that will extend the invitation at the

1934 convention to be held in Gary, Aug. 25-28.

A large delegation from Indianapolis will attend the Gary convention.

"Franklin Roosevelt Harvard '04"

Back in the days when the indomitable Teddy Roosevelt was busting the trusts with his Big Stick, and heralding the "Square Deal" as the salvation of the little man, his fifth cousin was occupying the editor's chair of the Harvard "Crimson." Today that ex-editor sits in the White House and directs the widespread activities embodied in his "New Deal."

What were Editor Franklin Roosevelt's views on the great political and social problems of his college days? Did his editorials foreshadow the formation of the ideas and ideals he holds today? You'll find the answers in a series of interesting articles written by Dan Kidney, Times Staff Correspondent in Washington. Mr. Kidney's articles are based on an extensive study of Roosevelt's writings as a college editor, pointing out, by liberal quotations, the highlights of Roosevelt's thinking during these formative years. Follow this series from the beginning. You'll enjoy every one of them.
