

DOLFFUSS RITES ARE FEATURED BY NEWSREEL

Roosevelt Visit on Coast
Also Shown: Storm in East Pictured.

President Roosevelt's arrival at Portland, Ore., where he is greeted by Mrs. Roosevelt and the cheers of a huge crowd as he steps from the gangplank of the battleship Houston before setting out on a tour of government-owned power sites in the northwest, is shown in the current issue of The Times-Universal Newsreel. As the big ship docks, Mrs. Roosevelt makes her way through the crowd and the party passes from the city to Bonneville dam, where the chief executive of the government's plans to supply cheap electricity to the Pacific northwest.

Other important events shown in the reel are the impressive rites marking the funeral of Chancellor Dolfuss of Austria; views of the wreckage caused when the Connaught river, swollen by a cloudburst, tore through Brigetton, N. J., wrecking bridges and homes; views of the thrilling race on Lake George for the gold cup, motorboating's classic prize.

Scenes of "civil war" in New Orleans are also shown as the mayor recruits armed special deputies in opposition to the national guardsmen poured into the city during his "battle" with Senator Long; the visit of one of America's largest families to A Century of Progress exposition; the midnight start of the national balloon race at Birmingham, Ala.; the tragic death of Mrs. Frances Marsalis during the women's national air races at Dayton, O.; views of the first mail-carrying glider train leaving New York and arriving in Washington, and of workmen repairing the White House from top to bottom.

PASTORS MUST SWEAR LOYALTY TO HITLER

Battle Against Nazis Regarded as Hopeless.

By United Press
BERLIN, Aug. 10.—Pastors in opposition to complete Nazification of the Protestant church in Germany prepared today to wage a losing battle against the dictatorship set up by the Hitler regime.

The national synod of the Evangelical church voted at an emergency meeting yesterday for a project setting up Reichsbeauftragter Ludwig Mueller as supreme ruler of the church. Pastors must take an oath of loyalty to Hitler.

It was expected pastors resisting the new regime would be disciplined severely and perhaps suppressed if they continue to resist.

Indiana News in Brief

By United Press

LOGANSPORT, Ind., Aug. 10.—Faced with the prospect of one of the worst water shortages in the history of the city, Logansport officials have taken drastic steps to conserve the rapidly diminishing supply.

Eel river, chief source of the city's drinking and commercial water supply, is the lowest in years. Small creeks which feed the river are dry and wells throughout this section are reported dangerously low.

Although there is no city ordinance prohibiting sprinkling in an emergency, city officials appealed to all residents to conserve water as much as possible.

Sprinkling in parks and at fire stations was halted two days ago and wading pools in city parks have not been refilled.

Construction of a coffer dam across Eel river here was started this week. The regular dam is to be raised ten inches to store water should rains swell the river in the next few days.

City officials expressed fear that the entire city would be endangered should a fire break out.

Beaches Century Mark

By Times Special

HUNTINGTON, Aug. 10.—Christopher Speth, who was 100 years old on Wednesday, will be guest of honor Sunday at a family reunion at the summer home of his daughter at Barber lake. Mr. Speth, a resident of this city, spends his summers at the lake and is still an ardent fisherman.

Born in Germany, he came to this country with his parents at 6. They settled in Ohio. He fought on the Union side in the Civil War, is an ardent Democrat and is looking forward to casting his vote in the November election.

The centenarian reads without difficulty and writes in a clear, legible hand. Mr. Speth is believed to be the oldest Civil war veteran in Huntington county, if not in the state.

Horse Damages Car

By Times Special

SHELBYVILLE, Aug. 10.—The automobile of Wesley Crosby, DeLand, Ill., was damaged recently in a collision near here with one of several horses which were being driven along the road. The animal was only slightly hurt but Mr. Crosby's car suffered dents in radiator and fender.

It was expected pastors resisting the new regime would be disciplined severely and perhaps suppressed if they continue to resist.

CONNSVILLE, Aug. 10.—Reports that school bus owners are carrying passengers for his in violation of the law are under investigation here by Harry U. Davis, motor vehicle inspector, as part of a wide drive ordered by Al Feeney, state safety director.

Owners of the school buses, who receive the benefit of a small license fee in order to keep down the cost of transporting pupils, have

been "chiseling" in on the regular bus routes, according to reports received by Mr. Feeney. Complaints have also been heard that owners of private passenger are also carrying passengers for hire without necessary authority.

Hog Checks Ready

By Times Special

BRAZIL, Aug. 10.—Clay county farmers soon are to receive more than \$35,000 in federal corn-hog dividends, it was announced here today. County Agent H. L. Royce has notified farmers to collect first payments due under the corn and hog reduction program. It is expected that approximately \$104,000 will be paid eventually to farmers in the county, a second installment being due in November and the last

DAIRY ISSUES 'DEFI' TO U. S. IN MILK CASE

By Times Special

THE GREENWOOD DAIRY FARMS organization is waiting impatiently for the agricultural adjustment administration to start its threatened injunction suit against the dairy and it doubts that the government has the nerve to go into federal court with the matter.

This was the gist today of a strongly worded "defi" issued by Arthur Admire, adviser to the dairy.

The AAA revoked the dairy's license last Saturday following a hearing here at which it had been testified that the dairy refused to pay the fee prescribed under the local marketing agreement for support of the office of the local administrator, Herman Christiansen.

Since then the dairy has continued to operate without license, re-

gardless of the \$1,000 fine provided for each day of unlicensed operation. Mr. Admire insisted today it would continue to operate. The AAA has said an injunction suit will be filed in the near future.

"We're not afraid of any \$1,000 fines as anything they (the government) can do now or any time in the future" Mr. Admire declared.

"Eighty-five per cent of the distributors in the Indianapolis area are against this licensing business," he added, "but they haven't the strength of mind to protest against it. They're just waiting to see how we make out."

Mr. Admire denounced Mr. Christiansen for barring newspaper reporters from a meeting of distributors Tuesday afternoon and said that accounts of the meeting supplied to the press by Mr. Christiansen were incorrect.

He said that large distributors in the meeting had urged higher prices for the consumers.
