

## JUDGE KERN TO GIVE ADDRESS AT CLUB RALLY

Democratic Mayor Nominee and Otto Ray Will Make Talks.

John W. Kern, Democratic mayorally nominee, and Otto Ray, nominee for sheriff, were to be the principal speakers at a picnic and barbecue held by the Irvington Colored Democratic Club today on Catherwood avenue one block south of Washington street.

Music, street dancing and novel contests were to be other features of the event.

### Democrats to Meet

The second meeting of the newly organized Seventeenth Ward Young Peoples' Democratic Club will be held at 8 Wednesday night at ward headquarters, 2320 Shelby street.

Officers of the organization are: Timothy Sullivan, president; Miss Rosemary Morrissey, vice-president; Mrs. Gladys Holman, secretary, and Frank Schaefer, treasurer.

### Schlosser to Speak

Chalmers Schlosser will speak at the first public meeting of the Twenty-second Ward Democratic Club tomorrow night at ward headquarters, 1091 Hanna avenue. Club officers are Sheldon Kay, president; Alvin Miller, vice-president; Mrs. Thelma Trautman, secretary, and Christ Lammer, treasurer.

### Dickinson on Program

Senator L. K. Dickinson (Rep., Ind.), keynote speaker in the 1932 Republican state convention, will deliver the principal address at a rally in Peru, Sept. 19, it was announced today by Frederick E. Schortemeier, chairman of the state speakers bureau.

Republican congressional and state candidates will confer with Don B. Irwin, Republican state chairman, at a luncheon at the Claypool, Tuesday.

### School for Teachers

School days! school days! Hoosier youngsters returning to their books have nothing on speakers for the Republican state committee who will attend school at 10 Wednesday, Sept. 12, in the Claypool.

Teachers will be Don B. Irwin, Republican state chairman; Mrs. Beryl Holland, state vice-chairman, and Frederick E. Schortemeier, state speakers' bureau chairman.

Following talks by each "faculty member," pupils will be permitted to air their own views in open discussion.

### Emrick Is Candidate

Running on a platform of municipal ownership of utilities and drastic cuts in the city tax rate, Edwin H. Emrick, 2951 Broadway, attorney and former president of the Ruben Manufacturing Company, will be the People's Fusion party candidate for mayor, it was announced today.

Points in the platform are municipal ownership of utilities with drastic rate reductions and the application of surplus earnings to the lowering of the property tax; operation of municipally-owned utilities free from control by the Indiana public service commission; elimination of unnecessary boards and offices, and honest and economical government.

Mr. Emrick has lived here thirty years and is an attorney. Offices have been opened at 236 Massachusetts avenue with Todd Young, former Republican councilman, in charge.

The People's Fusion party previously had nominated Earl Townsend, dry goods merchant, as mayor, but as the result of a recent agreement, Mr. Emrick was chosen as the party candidate.

The party intends to put an entire city, county and legislative ticket in the field with candidates selected as equally as possible from the two major political parties.

"We live in the largest city in the United States that does not own its own water plant," said Mr. Emrick. "We have numerous examples right here in the state of the economic value to the taxpayer and the rate payer of municipal ownership."

### Markun Is Sued

Louis Markun, defeated candidate for the Republican mayoralty nomination, and his wife, Mildred Markun, were sued for \$391 by the Ward Press, 4129 East Tenth street, in Municipal court today.

The suit alleges that the sum is owed for campaign propaganda printed by the firm.

**WANTED** OLD GOLD JEWELRY. Watches, Chains, Rings, Gold Teeth. Cash Paid Immediately. Bring to Standard Gold Smelting Co., 423 Lemcke Bldg., 4th Floor. Entrance 100 East Market St.

## DEPARTMENT CHIEF

Arthur H. Truitt

Appointment of Arthur H. Truitt as advertising manager and publicity director of William H. Block Company has been announced. Mr. Truitt succeeds George M. Binger.

## SULLIVAN PUTS CITY ON FEET

Makes Departments Toe the Line on Expenses, Save Taxpayer Money.

(Continued From Page One)

and to build up balances in their departments, as well as in the city general fund.

Although excise taxes, beer revenue in the main, and the intangibles tax, as well as miscellaneous taxes, like dog licenses, will contribute \$166,000 to this year's savings, the bulk of the balance, \$249,000, will be due primarily to good management and in keeping the municipal household adding to the money jar it has in the cupboard for all citizens to see.

Mayor Sullivan desires to leave the incoming administration a general fund balance sufficient to tide it over the payment of bills due immediately upon its taking office.

In budgeting for 1935, the mayor will turn over to the next administration a \$378,216.87 balance estimated at the close of 1935, in addition to \$265,302.31 which will be used by the new administration for expenditures already budgeted for 1935.

This money has been allocated, mentally, by the mayor for projects he believes will be necessary in 1935. One of the projects is the equipping of the Flower Mission tuberculosis hospital.

The new administration will not need to scurry around for funds. Today's city government has saved it from becoming a borrower for operating expenses as far in the future as the spring of 1936.

### Marriage Licenses

Alva Burroughs, 35, of 128 South Manhattan street, contractor, and Anna Mueller, 25, of 1422 Kennington street, housekeeper, were married today at 2:15 P. M. at the residence of the bride's father, Dr. J. H. Burroughs, 24, of 3537 North Colorado avenue, housekeeper.

James Campbell, 22, of 435 West Gray street, clerk, and Olive Balslev, 21, of 1108 North La street, stenographer, were married today at 2:15 P. M. at the residence of the bride's father, Dr. J. H. Burroughs, 24, of 3537 North Colorado avenue, housekeeper.

# CITY INDUSTRIAL NEWS OF THE WEEK

## REQUIREMENTS DISCUSSED FOR GOOD FURNACE

Hall-Neal Line Includes Proper Types for Various Types.

What constitutes a complete and good line of furnaces often perplexes the prospective buyer.

This quandary is solved by one of the leading furnace builders in Indiana, the Hall-Neal Furnace Company, 1324 North Capitol avenue.

First of all, a high quality furnace with some exclusive features so that it can readily be sold on replacement jobs and for the better type of new homes.

The Victor De Luxe with fin radiation is one that fulfills each of these requirements.

Second, a good low priced furnace that meets the demand, and one of which no one need be ashamed.

Large Units in Demand

Third, a heavy duty furnace, suitable for installation in large residents, churches, schools, stores and industrial plants.

With increased interest in forced air heating the demands for units of this kind is increasing steadily since most persons realize the advantages of a single large unit in preference to a battery of two or more small units.

The heavy duty Victor was designed particularly for installations of this kind.

Fair Display Arranged

Fourth, combination units consisting of each of the above furnaces with the proper size blower and filter; factory-designed as a single, compact unit to insure maximum economy and efficiency.

The Victor air conditioning unit is complete in every detail.

Fifth, special oil or coke burning furnaces for homes or industrial plants.

Such units will form the exhibit of the Hall-Neal company, at the Indiana state fair, in the Industrial building, Booth 205.

Salvation Army Camp HELPS MORE THAN 300

Weight Gains Up to Seven Pounds. Reported in Some Cases.

The fresh air camp of the Salvation Army, near Oaklandon, has done much health promotion.

At the end of the present season more than 800 persons have been benefited.

One of the major objects of the camp is to build up undernourished bodies through a balanced recreational program.

In the end it was found the average weight gain per person was two pounds and some as much as seven pounds.

With hikes for the children and lectures to the women on health and child care, much has been done to aid the undernourished child.

A much-needed swimming pool was dedicated recently.

Trackless Trolleys Will Serve Two More Routes

Pennsylvania Street and Brightwood Change to Be Made Soon.

The 1934 modernization program of Indianapolis Railways rapidly is nearing completion. Arrival of the final group of new Central avenue street cars is expected within the next few days, and the installation of trackless trolley cars on the Pennsylvania and Brightwood lines will be made early in September.

The new Pennsylvania trackless service will start as soon as the present paving program on the street between Sixteenth and St. Clair streets is completed, probably about Sept. 10.

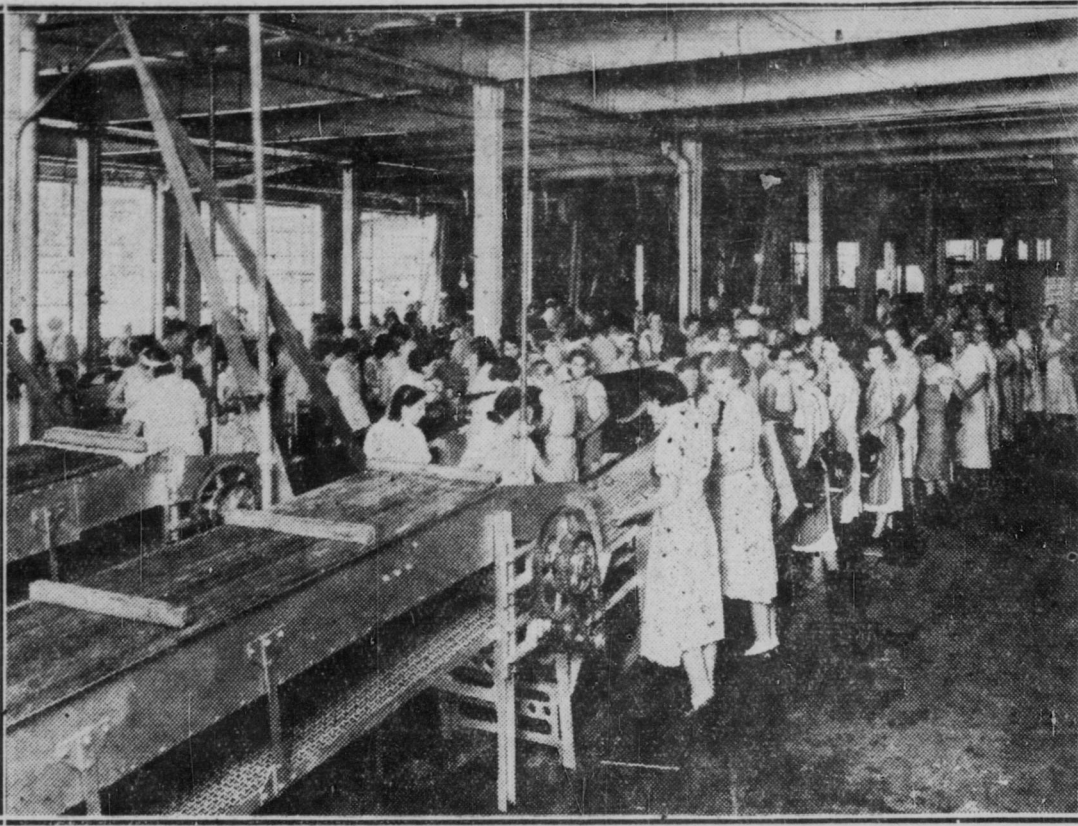

Linemen are busy making final preparations for trackless cars on the Brightwood line. New poles have been placed along the major part of the line, and much of the

new double trolley wire has been erected.

The Brightwood line will follow the exact route of the present Brightwood street car line to Thirtieth street and Sherman drive. Downtown, however, the routing will be changed slightly, and a new cross-town service connecting West Indianapolis with Brightwood will be inaugurated.

Other cross-town lines placed in service recently by Northwestern South-East, Prospect-West Tenth, Brookside-West Michigan, English-Northwestern, Riverside-South Meridian and Illinois-Shelby.

## AUTO REPAIRING COST DECLINES

Don Herr Company Aids Motorists With New Payment Plan.

"Because of the present conditions auto service upkeep has decreased 50 per cent in the last three years," states Don Herr of the Don Herr garage, 122 Kentucky avenue.

"We have instituted a new plan of deferred payments to enable motorists to have repairs made on their cars without money on hand," he continues.

"Following the same sound basis used on home or auto loans, we have worked out a payment plan whereby the car owner may have the necessary repairs made to his automobile, and pay on convenient terms, at the same time having the satisfaction of knowing the repair work is not inferior."

At this time of the year many vacationists are returning home, and it is the suggestion of Mr. Herr that they bring in their autos for a thorough check-up. All repair work is done under one roof and with one overhead charge.

In addition to general repair work, the company installs heaters and other accessories.

Mrs. Thelma Willis, Former Champion, Gives Instruction.

An excellent opportunity to learn swimming is being offered by the Antlers hotel.

L. C. Levering, the hotel manager, states that free lessons under the direction of Mrs. Thelma Willis, former national senior swimming champion, will be offered Monday and Thursday afternoon from 5:30 to 6:30 and on Tuesday and Friday mornings from 10 to 11. The purpose of the lessons is to build up a swimming and diving team of amateur talent to meet other teams of the same kind. Those winning the satisfaction of knowing the repair work is not inferior."

The hotel pool, which is equipped with a slide and diving board, is open to the public seven days a week, and is drained and vacuum cleaned nightly. It is filled with filtered water.

A Turkish bath is operated in connection with the pool.

LAW UNIVERSITY WILL USE CASE BOOK PLAN

American System to Be Added to Lincoln Curriculum.

The American case book system will be part of the curriculum at the Lincoln law university, it was announced today. The university has a registrar's office at 803 Union title building and classrooms at 136 North Delaware street.

The school limits its classes to twenty-five, thus providing individual attention to students. Approximately 1,800 volumes have been added to the library in the last year.

Instructors added to the faculty for the new school year include Municipal Judge Wilbur Bradshaw, Ernest E. Owens, Edward F. New, Merle Wall, Russell Dean, deputy prosecutor; Martin Conrad, John F. Linder and Francis E. Thomason.

## GAIN MADE IN SEVEN MONTHS BY INSURANCE

City Company's Volume Far Ahead of Similar Period in 1933.

According to Edward B. Raub, president of the Indianapolis Life Insurance Company, statistics released recently by the Association of Life Insurance Presidents shows that new life insurance for the first seven months of 1934 was 14.5 per cent greater than in the same period of 1933.

"The Indianapolis Life shows an increase of 34.2 per cent in new business for the first seven months over the same period last year," he states.

Self-Pensioning Gains

The semi-annual statement published by the company showed an increase in insurance in force; an increase of \$409,652.64 in assets, and an increase of 9 per cent in surplus for the first six months.

"The fundamental purpose of life insurance always has been to provide adequate protection for the family, guaranteeing continuance of the comforts, necessities, and, if possible, some of the luxuries of life in case of death of the breadwinner."

Education Made Possible

"During recent years there has been increased interest in self-pensioning plans. The idea of a definite income beginning at age 55, 60 or 65 is becoming increasingly popular. As a result the interest in protection policies that also guar-

antee a definite income for retirement years is increasing, as shown by a survey of the various types of policies issued this year by our company," Mr. Raub states.

"Another service rendered by the company—that of providing educational plans for children also is gaining in importance," he comments. "Particularly is this true at this season of the year, when thousands of young men and women are entering colleges and universities."

"By starting an educational plan while the child is young, the money for a college education can be accumulated in a definite manner and without the heavy drain on the family funds that occurs if parents wait until college years arrive to arrange for the money."

## AUTO RADIATOR ADVICE GIVEN

Acme Company President Suggests Way to Avoid Winter Trouble.

"Beware of 'chiseled' automobile radiators" is the advice of A. L. Terstegge, president of the Acme Radiator Company, which has recently started its eleventh year of business at 623 North Illinois street.

With the coming of winter, Mr. Terstegge suggests that anyone needing a replacement radiator investigate the excellent values offered by the company, as it stands back of every radiator sold or serviced.

Night service is offered by the company. Cleaning of radiators is suggested to state fair visitors, who may leave their cars at the company's plant in the morning, and call for them in the evening.

## ALL COAL IS BLACK

From there on, ALL resemblance between Inferior Coal and Quality Coal ceases.

Because it is difficult to judge Quality by Outside appearance, it is well to buy coal from reliable and established dealers.

For more than 30 years we have jealously guarded our record as dealers in Quality Coal.
